Agency Form Number affected by Change Worksheet: FSIS Application for Export Certificate (Form 9060-6)

Summary of Changes:

The FSIS Application for Export Certificate (Form 9060-6) is required for an exporter to obtain an FSIS Export Certificate of Wholesomeness. This form provides FSIS with important data necessary to certify and facilitate the export of product (9 CFR 322.2 & 381.105).

To make the form more user-friendly and to prepare for its use in both a paper and electronic format, FSIS is proposing to:

- delete 60 unnecessary or redundant data elements
- add 12 data elements;
- rename 13 data elements to better align with commonly accepted international (Codex Alimentarius) guidance, and;
- reformat and shorten the application, from three pages to one page (see attached Current and Updated Application) and;
- provide instructions to applicants on completing the form.

Furthermore, FSIS is eliminating a previously approved form associated with the 9060-6 – the Product List (Form 9080-4). Certain limited data elements related to product information will be moved from the 9080-4 to the 9060-6.

Below is a summary of the changes to the 9060-6 data elements:
