First and foremost thank you for the invitation to join you on such a mission. A once in a life time event-that will prove LIFE LONG. (MARS is habitable...details of this fact will be forthcoming) Please accept this as my application to join OMB Control Number 0702-XXXX. Please include my willingness to talk with your supervisory prognosis auxiliary manager regarding changing the outfitted Space Spatial Uniform Artillery Manned uniform; outdated and should be retired. A new ART UNIFORM PRODUCTION SPECT I dub 'XXX' will show itself trustworthily, fashionable, a true ART, and Hollywood's Dream Outfit if I may say...couture. Take into consideration and factor the "intelligence" aspect of my person & identity as additional documentation will reflect names other than my responding government identity of: ANTHONY. Contact me if further required documentation is needed. I need some things as I mentioned in my earlier regulations.gov response; however, they are: \*Money for food \*Money for shelter \*Laptop \*Mobile phone Anthony FOIA  
*No documents available.*

I am acting on behalf of my Kingdom, and of my own free will as I indicate my willingness to join the crew of mission XXXX, defined at NASA as the Mars Enlighten Star Prodigy discernment mission. An extremely important mission indeed to promote the finer details in ways of: following instruction, correcting behavior, understanding consequences, and maintaining course of living. By far this mission will test mental, physical, meta-physical (which is pureness of heart), adaptability, choice making, cognitive influence of mental stimulati, ("BACIK" training should have covered this!). Furthermore, navigational technological 'know-how' conforming to XDPD-MICRO-DDDxxx001 (NASA computational training) would have covered the basic framework of these important computations. The question at hand is weather I'm willing to AUTHORIZE the USE of Military Auxiliary Radio System (MARS) Station, Army MARS Form AM-1, OMB Control Number 0702-TBD. ACTION: Denied. Denied, for primary reasons I don't wish to cover at this time. However, I can state that upgrades to the current auxiliary radio system on MARS Station need to be accomplished first. Understanding of \*RADIO \*RADIO SYSTEM(s) are of necessity before an official license to operate without limitations can be granted. Department of Defense currently utilizes eco-standardized frame frequency which is not Radio, is not Spectrum, and does not cover geographic area. Frequency division (updating todays technology or more specially going "wireless") must be implemented. I believe I started this Miranda yesterday in producing digital cellular towers, essentially removing the need for those steel contraptions (you can take them all down...there an eye-sore) and communication will be maintained based on my "1MC2" addition to spectrum cryptography (spectrum is to cryptography as cryptography is to spectrum). Please be assured of my willingness to Operate MARS Station and look forward to assisting by completing the required documentation. My apology in the timing of this delinquency. \*I'm requesting Network Enterprise Technology Command application mainframe access \*SPARTIC access \*FCC Enterprise Access \*Laptop \*Mobile phone \*Money for food \*Money for shelter I'm reside in the

Hillcrest area of SAN DIEGO COUNTY and don't always have access to email. Please respond on this site and with the same OMB and I'll check periodically. Anthony FOIA
