Mini Supporting Statement

Justification for Change

This is a request for nonmaterial/non-substantive changes is for dropdown lists to be added to the pdf-fillable format. The drop down lists have been updated to include Bacillus cereus Biovar anthracis, which was added to the list of HHS select agents and toxins on September 14, 2016 by an interim final rule (81 FR 63138). The additions will also ease respondent completion and further automate the forms. The nonmaterial/non-substantive changes will not affect the burden in completing the forms.
