Apply for a PRS Organization Account

OMB No: 0925-0586 Expiration Date: 08/31/2015 [Burden Statement](#)

Each entity submitting data to ClinicalTrials.gov must adhere to the following terms and conditions, which are intended to ensure the accuracy, currency, and validity of the data:

- Only data for studies that are in conformance with applicable human subjects or ethics review regulations (or equivalent) and applicable regulations of the national (or regional) health authority (or equivalent) may be submitted.
- Notice of changes in recruitment status must be provided as soon as possible, but no later than 30 days after such changes. All other submitted data must be reviewed, verified, and updated as necessary and no less than every 12 months.
- The submitting organization, or individual designated as the [Responsible Party](#), is responsible for the completeness and accuracy of the data submitted to ClinicalTrials.gov.
- Study data must be submitted in English.
- Multiple groups within a single entity (e.g., company, university, government agency) must share a single Protocol Registration and Results System (PRS) organization account.
- Previous versions of study data will be available to the public, although the default view will be the most recent version.

(Acceptance Required) Accept Do Not Accept

Sponsor Information: The sponsoring organization is the entity with primary responsibility for initiating and conducting the study to be registered.

* [Type of Organization](#): -- Select One -- ▾

* [Country](#):

* [Organization Name](#):

* [Organization Address](#):

[Organization Abbreviations and Acronyms](#):

Parent Organizations, if any:

* Official Representative:

* Phone:

* Email:

Organization URL (optional):

Funding Organization:

PRS Administrator Information: The PRS Administrator is the person authorized by the sponsor to update the information in the PRS will serve as the point of contact for ClinicalTrials.gov staff.

* Administrator Name:

Affiliation (if not the sponsor):

* Administrator Phone:

* Administrator Email:

Regulatory Information: The regulatory authority can be a national or international health authority, an institutional review board, or an ethics committee.

* Regulatory Authority:

* Regulatory Authority Address:

To the best of my knowledge, the above information is true and correct. Questions about this form and the PRS may be sent to register@ClinicalTrials.gov.

* Required

OMB NO: 0925-0586
EXPIRATION DATE: 08/31/2015
Burden Statement

Public reporting burden for this collection of information is estimated to average 7.0 hours per response for initial registration, 2.0 hours for each of 8 updates to the registration information during the course of the trial, 25.0 hours per response for initial results submission, 8.0 hours for two substantive updates to the results information. These estimates include the time for reviewing instructions, searching existing data sources, gathering the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0586). Do not return the completed form to this address

Create New Record

To avoid duplicate or invalid registration of your study, check the following before proceeding with registration:

- 1. FDAAA 801 studies may only be registered by the Responsible Party.** If this is an applicable clinical trial as defined by the US Food and Drug Administration Amendments Act (FDAAA), Title VIII, Section 801, ensure that your organization is the Responsible Party as defined by the law before registering the study.
- 2. IND/IDE studies may only be registered by the IND/IDE holder.** If the study is subject to US Food and Drug Administration regulations, under an Investigational New Drug (IND) Application or Investigational Device Exemption (IDE), ensure that your organization is the IND/IDE holder before registering the study.
- 3. For NIH-funded studies, coordinate with the relevant institute or center.** If this is a US National Institutes of Health (NIH) funded study, registration should be coordinated with the sponsoring NIH Institute or Center to avoid duplicate registration.
- 4. Multi-site studies are NOT registered by individual sites.** If this is a multi-site study it must be registered only once, by the sponsor (primary organization that oversees implementation of study and is responsible for data analysis) or its designated principal investigator (PI).
- 5. Coordinate with all collaborators before registering.** If the study has multiple collaborators, contact the other organizations to confirm that the study has not already been registered and to notify them that your organization, as sponsor or its designated PI, is registering the study.
- 6. Refer to the ClinicalTrials.gov Review of Protocol Submissions document** for a description of items evaluated by ClinicalTrials.gov after protocol information is submitted.
