

g. Whether a local BIA office serves or performs activities relative to the tract;

h. Whether the tract is located within an original or other reservation boundary;

i. Whether the tract is adjacent to a reservation boundary;

j. The distance of the tract from a reservation boundary if not within or adjacent to a reservation boundary;

k. Whether tribal jurisdiction is recognized by other tribes, counties, and/or states; and;

l. Whether there are competing claims of jurisdiction over the tract involving other tribes, including past or current litigation.

The above factors are intended to be applied on a case-by-case basis in an uncomplicated fashion, recognizing the unique goals and parameters of the *Cobell* Settlement Agreement and the Claims Resolution Act of 2010.

3. *Looking Beyond 2022*. The Program anticipates that more than 4 million equivalent purchasable fractionated acres may still exist after it fully expends the Consolidation Fund, which is expected to occur by November 24, 2022 (the date by which the Settlement dictates that any remaining funds be returned to the U.S. Department of the Treasury). Even with the Program's significant progress to date—and the results expected through 2022—fractionation will continue to be an extremely complicated, ongoing problem in the long term. The Department will continue to work with Indian Country to explore options for land consolidation and requests tribal input and ideas on potential solutions and options for addressing long-term fractionation.

Abstract: The BLM is required by the Taylor Grazing Act (43 U.S.C. 315-315r) and Subchapter IV of the Federal

Land Policy and Management Act (43 U.S.C. 1751-1753) to manage domestic livestock grazing on public lands consistent with land use plans, the principles of multiple use and sustained yield, and other relevant factors. Compliance with these statutory provisions necessitates collection of information on matters such as permittee and lessee qualifications for a grazing permit or lease, base property used in conjunction with public lands, and the actual use of public lands for domestic livestock grazing.

Frequency of Collection: The BLM collects the information on Forms 4130-1, 4130-1a, 4130-1b, and 4130-4 on occasion. The BLM collects the information on Forms 4130-3a and 4130-5 annually. Responses are required in order to obtain or retain a benefit.

Estimated Number and Description of Respondents: Any U.S. citizen or validly licensed business may apply for a BLM grazing permit or lease. The BLM administers nearly 18,000 permits and leases for grazing domestic livestock, at least part of the year on public lands. Most permits and leases are in effect for 10 years and are renewable if the BLM determines that the terms and conditions of the expiring permit or lease are being met.

Estimated Reporting and Recordkeeping "Hour" Burden: 33,610 responses and 7,703 hours annually.

Estimated Annual Non-Hour Costs: \$8,000.
