

VETS Employment Challenge: Phase III User Testing

Thank you for volunteering to participate as a “user” in the User Testing portion of Phase III of the **Veterans Employment Challenge**. To learn more about the challenge, please visit <https://www.challenge.gov/challenge/vets-match/>.

****Please Note**** You must be 18 years of age or older to complete this survey.

The top 5 applicants (now referred to as Solvers) in Phase II moved into Phase III and were invited to participate in testing sessions of their minimum viable product (MVP) with actual users. This User Testing is an opportunity for Solvers to present their MVP (a clickable link demonstrating their submitted application or website) to actual users to receive feedback, and then submit an updated MVP at the end of this phase for judging.

The Phase III Solvers are (in alphabetical order):

- Eightfold: Survey Link: ([Insert Link](#))
- LinkedIn: Survey Link: ([Insert Link](#))
- Square Peg Hires: Survey Link: ([Insert Link](#))
- Vantage Point: Survey Link: ([Insert Link](#))
- Vet It: Survey Link: ([Insert Link](#))

Attachments: Five (5) PDF attachments are included with this email. The attachments are submission from each of the Phase III Solvers and includes link to the Solver’s MVP.

User Testing Instructions:

1. Select one Phase III Solver from the list above, and review the attached MVP.
2. Open the Survey Link next to the Solver’s name above. (The Solver’s name will also be included on the survey title, please ensure you have the correct survey while reviewing the example)
3. Answer the Survey questions for your selected Phase III Solver and click “Done” when finished.

Please Note: When choosing a user group for question #2, you may fall into more than one category. However, please choose the user group you were contacted to represent. For example, if the Department of Defense (DOD) contacted you through the TAP program, please select “Transitioning Service Member.”

4. Repeat Steps 1-3 for each of the five Phase III Solvers.
5. Complete all Surveys by 5:00pm Eastern time, Thursday April 3, 2020.

The content of an MVP is considered the proprietary information of the submitter. As such, individuals who are authorized to access, review, and perform testing of a MVP for the purpose of “Phase III: MVP” of the Challenge are prohibited from copying, modifying, and/or distributing the content of the MVP, whether in whole or part.

Thank you for your participation in this important user experience. Please do not hesitate to contact the Challenge team with any questions.

Thank you,

VETS Challenge Team
