DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket No. FRA–2013–0002–N–23]

Proposed Agency Information Collection Activities; Comment Request

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice and request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Requests (ICRs) abstracted below are being forwarded to the Office of Management and Budget (OMB) for review and comment. The ICRs describe the nature of the information collections and their expected burdens. The **Federal Register** notice with a 60-day comment period soliciting comments on the following collections of information was published on September 16, 2013 (78 FR 56995).

DATES: Comments must be submitted on or before January 2, 2014.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Brogan, Office of Safety, Planning and Evaluation Division, RRS–21, Federal Railroad Administration, 1200 New Jersey Ave. SE., 3rd Floor, Mail Stop 25, Washington, DC 20590 (telephone: (202) 493–6292), or Ms. Kimberley Toone, Office of Information Technology, RAD–20, Federal Railroad Administration, 1200 New Jersey Ave. SE., 3rd Floor, Mail Stop 35,

Washington, DC 20590 (telephone: (202) 493–6132). (These telephone numbers are not toll-free.)

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act of 1995 (PRA), Public Law 104–13, Section 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501–3520), and its implementing regulations, 5 CFR Part 1320, require Federal agencies to issue two notices seeking public comment on information collection activities before OMB may approve paperwork packages. 44 U.S.C. 3506, 3507; 5 CFR 1320.5, 1320.8(d)(1), 1320.12. On September 16, 2013, FRA published a 60-day notice in the **Federal Register** soliciting comment on these ICRs for which the agency is seeking OMB approval. 78 FR 56995. FRA received no comments in response to this notice pertaining to the two renewal collections of information referenced below.

Before OMB decides whether to approve these proposed collections of information, it must provide 30 days for public comment. 44 U.S.C. 3507(b); 5 CFR 1320.12(d). Federal law requires OMB to approve or disapprove paperwork packages between 30 and 60 days after the 30 day notice is published. 44 U.S.C. 3507(b)–(c); 5 CFR 1320.12(d); *see also* 60 FR 44978, 44983, Aug. 29, 1995. OMB believes that the 30 day notice informs the regulated community to file relevant comments and affords the agency adequate time to digest public comments before it renders a decision. 60 FR 44983, Aug. 29, 1995. Therefore, respondents should submit their respective comments to OMB within 30 days of publication of this Notice to best ensure having their full effect. 5 CFR 1320.12(c); *see also* 60 FR 44983, Aug. 29, 1995.

The summary below describes the nature of the information collection requests (ICRs) and the expected burden being submitted for clearance by OMB as required by the PRA.

Title: Railroad Communications.

OMB Control Number: 2130–0524.

Type of Request: Extension with change of a previously approved collection.

Affected Public: Businesses.

Abstract: The Federal Railroad Administration (FRA) amended its radio standards and procedures to promote compliance by making the regulations more flexible; to require wireless communications devices, including radios, for specified classifications of railroad operations and roadway workers; and to re-title this part to reflect its coverage of other means of wireless communications such as cellular telephones, data radio

terminals, and other forms of wireless communications to convey emergency and need-to-know information. The new rule establishes safe, uniform procedures covering the use of radio and other wireless communications within the railroad industry.

Form Number: N/A.

Total Annual Estimated Burden Hours: 337,717 hours.

Title: Safety Integration Plans.

Type of Request: Extension without change of a previously approved collection.

Abstract: The Federal Railroad Administration (FRA) and the Surface Transportation Board (STB), working in conjunction with each other, have issued joint final rules establishing procedures for the development and implementation of safety integration plans (“SIPs” or “plans”) by a Class I railroad proposing to engage in certain specified merger, consolidation, or acquisition of control transactions with another Class I railroad, or a Class II railroad with which it proposes to amalgamate operations. The scope of the transactions covered under the two rules is the same. FRA uses the information collected, notably the required SIPs, to maintain and promote a safe rail environment by ensuring that affected railroads (Class Is and some Class IIs) address critical safety issues unique to the amalgamation of large, complex railroad operations.

Form Number(s): N/A.

Total Annual Estimated Burden Hours: 528 hours.

Addressee: Send comments regarding this information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 Seventeenth Street NW., Washington, DC 20503, Attention: FRA Desk Officer. Comments may also be sent via email to OMB at the following address: oir-submissions@omb.eop.gov.

Comments are invited on the following: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department’s estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

A comment to OMB is best assured of having its full effect if OMB receives it within 30 days of publication of this notice in the **Federal Register**.

Authority: 44 U.S.C. 3501–3520.

Issued in Washington, DC, on November 26, 2013.

Rebecca Pennington,
Chief Financial Officer.

BILLING CODE 4910–06–P

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

Reports, Forms and Record Keeping Requirements; Agency Information Collection Activity Under OMB Review

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collections and their expected burden. The Federal Register Notice with a 60-day comment period was published on August 13, 2013 (78 FR 49324).

DATES: Comments must be submitted on or before January 2, 2014.

FOR FURTHER INFORMATION CONTACT:

Coleman Sachs, Office of Vehicle Safety Compliance (NV5–223), National Highway Traffic Safety Administration, West Building—4th Floor-Room W43–481, 1200 New Jersey Avenue SE., Washington, DC 20590.

SUPPLEMENTARY INFORMATION:

National Highway Traffic Safety Administration.

Title: Importation of Vehicles and Equipment Subject to the Federal Motor Vehicle Safety, Bumper, and Theft Prevention Standards.

OMB Number: 2127–0002.

Type of Request: Extension of a Currently Approved Collection.

Abstract: The National Highway Traffic Safety Administration (NHTSA) has requested OMB to extend that agency’s approval of the information collection that is incident to NHTSA’s administration of the regulations at 49 CFR parts 591, 592, and 593 that govern the importation of motor vehicles and motor vehicle equipment. The information collection includes declarations that are filed (on the HS–7 Declaration form) with U.S. Customs and Border Protection (CBP) upon the importation of motor vehicles or motor vehicle equipment that is subject to the

Federal motor vehicle safety, bumper, and theft prevention standards administered by NHTSA. The information collection also includes the Department of Transportation (DOT) conformance bond that is furnished to CBP (on form HS–474) for each motor vehicle offered for importation that does not conform to all applicable Federal motor vehicle safety standards (FMVSS). The bond ensures that such vehicles are brought into conformity with those standards within 120 days from the date of entry or are exported from, or abandoned to, the United States. The information collection also includes paperwork that must be submitted to NHTSA and in some instances retained by registered importers (RIs) of motor vehicles that were not originally manufactured to comply with all applicable FMVSS. These items include information that a person or business entity must submit to NHTSA to be registered as an RI and to retain that status. The paperwork also includes the statement of conformity that an RI must submit to NHTSA following the completion of conformance modifications on an imported nonconforming vehicle to obtain release of the DOT conformance bond furnished for the vehicle at the time of entry. Also included is the petition that an RI or manufacturer may submit to NHTSA for the agency to decide that a vehicle that was not originally manufactured to comply with all applicable FMVSS is capable of being modified to conform to those standards and is therefore eligible for importation under 49 U.S.C. 30141. The information collection also includes applications that are filed with NHTSA for permission to import nonconforming vehicles for purposes of research, investigations, demonstrations, training, competitive racing events, and show or display, as well as applications requesting the agency to recognize vehicles manufactured for racing purposes as being qualified to be imported as vehicles that were not primarily manufactured for use on public roads, precluding the need for those vehicles to comply with the FMVSS. This information collection is necessary to ensure that motor vehicles and motor vehicle equipment subject to the Federal motor vehicle safety, bumper, and theft prevention standards are lawfully imported into the United States and that RIs and applicants for RI status are capable of meeting their obligations under the statutes and regulations governing the importation of nonconforming vehicles.
