SUPPORTING JUSTIFICATION
RAILROAD SIGNAL SYSTEM REQUIREMENTS
OMB No. 2130-0006**

Per OMB requirements to display the OMB Control Number, FRA has updated its forms associated with this Information Collection package to include the new expiration date of 12/31/2018.

This non-substantive change updates the following FRA Forms:

- 1.FRA F 6180.14 - FALSE PROCEED SIGNAL REPORT. New expiration date of 12/31/2018 was added to the form and also the reduced burden hours as indicated in the approved Supporting Statement A documentation.
- 2.FRA mistakenly included a copy of a form that is no longer part of this collection and thus should be removed. Per our approved Supporting Statement A documentation previously submitted, FRA has discontinued the requirement to submit form FRA F 6180.47, Signal System Five-Year Report.

§ 233.9 - Reports

On July 2, 2014, FRA published a final rule in the Federal Register discontinuing this requirement. See 79 FR 37664. The final rule went into effect on September 2, 2014. Consequently, there is no burden associated with this former provision.
