H-4(A)—Variable-Rate Model Clauses

The annual percentage rate may increase during the term of this transaction if:

- [the prime interest rate of (creditor) increases.]
[the balance in your deposit account falls below \$ \_\_\_\_\_.]
[you terminate your employment with (employer) .]

- [The interest rate will not increase above \_\_\_\_\_%.]
[The maximum interest rate increase at one time will be \_\_\_\_\_%.]
[The rate will not increase more than once every (time period) .]

- Any increase will take the form of:
[higher payment amounts.]
[more payments of the same amount.]
[a larger amount due at maturity.]

Example based on the specific transaction
[If the interest rate increases by \_\_\_\_\_% in (time period),
[your regular payments will increase to \$ \_\_\_\_\_.]
[you will have to make \_\_\_\_\_ additional payments.]
[your final payment will increase to \$ \_\_\_\_\_.]

Example based on a typical transaction

[your regular payments would increase by \$ \_\_\_\_\_.]
[you would have to make \_\_\_\_\_ additional payments.]
[your final payment would increase by \$ \_\_\_\_\_.]

H-4(B)—Variable-Rate Model Clauses

Your loan contains a variable-rate feature. Disclosures about the variable-rate feature have been provided to you earlier.

H-4(C)—VARIABLE-RATE MODEL CLAUSES

This disclosure describes the features of the adjustable-rate mortgage (ARM) program you are considering. Information on

other ARM programs is available upon request.

How Your Interest Rate and Payment Are Determined

- Your interest rate will be based on [an index plus a margin] [a formula].
  - Your payment will be based on the interest rate, loan balance, and loan term.
- [The interest rate will be based on (identification of index) plus our margin. Ask for our current interest rate and margin.]
- [The interest rate will be based on (identification of formula). Ask us for our current interest rate.]
- Information about the index [formula for rate adjustments] is published [can be found] \_\_\_\_\_.
- [The initial interest rate is not based on the (index) (formula) used to make later adjustments. Ask us for the amount of current interest rate discounts.]

*How Your Interest Rate Can Change*

- Your interest rate can change (frequency).
- [Your interest rate cannot increase or decrease more than \_\_\_\_ percentage points at each adjustment.]
- Your interest rate cannot increase [or decrease] more than \_\_\_\_ percentage points over the term of the loan.

*How Your Payment Can Change*

- Your payment can change (frequency) based on changes in the interest rate.
- [Your payment cannot increase more than (amount or percentage) at each adjustment.]

- You will be notified in writing \_\_\_\_\_ days before the due date of a payment at a new level. This notice will contain information about your interest rates, payment amount, and loan balance.
- [You will be notified once each year during which interest rate adjustments, but no payment adjustments, have been made to your loan. This notice will contain information about your interest rates, payment amount, and loan balance.]
- [For example, on a \$10,000 [term] loan with an initial interest rate of \_\_\_\_\_ [(the rate shown in the interest rate column below for the year 19 \_\_\_\_\_)] [(in effect (month) (year)], the maximum amount that the interest rate can rise under this program is \_\_\_\_\_ percentage points, to \_\_\_\_\_%, and the monthly payment can rise from a first-year payment of \$ \_\_\_\_\_ to a maximum of \$ \_\_\_\_\_ in the \_\_\_\_\_ year. To see what your payments would be, divide your mortgage amount by \$10,000; then multiply the monthly payment by that amount. (For example, the monthly payment for a mortgage amount of \$60,000 would be:  $\$60,000 \div \$10,000 = 6$ ;  $6 \times \underline{\hspace{1cm}} = \$ \underline{\hspace{1cm}}$  per month.)]

*Example*

The example below shows how your payments would have changed under this ARM program based on actual changes in the index from 1982 to 1996. This does not necessarily indicate how your index will change in the future.

The example is based on the following assumptions:

Amount	\$10,000
Term	_____
Change date	_____
Payment adjustment	(frequency)
Interest adjustment	(frequency)
[Margin]*	_____
Caps _____ [periodic interest rate cap]	
_____ [lifetime interest rate cap]	
_____ [payment cap]	
[Interest rate carryover]	
[Negative amortization]	
[Interest rate discount]**	
Index.....(identification of index or formula)	

\*This is a margin we have used recently, your margin may be different.

\*\*This is the amount of a discount we have provided recently; your loan may be discounted by a different amount.]

<b>Year</b>	<b>Index (%)</b>	<b>Margin (Percentage points)</b>	<b>Interest Rate (%)</b>	<b>Monthly Payment (\$)</b>	<b>Remaining Balance (\$)</b>
1982					
1983					
1984					
1985					
1986

1989					
1990					
1991					
1992					
1993					
1994					
1995					
1996					

Note: To see what your payments would have been during that period, divide your mortgage amount by \$10,000; then multiply the monthly payment by that amount. (For example, in 1996 the monthly payment for a mortgage amount of \$60,000 taken out in 1982 would be:  $\$60,000 \div \$10,000 = 6$ ;  $6 \times \underline{\hspace{1cm}} = \$ \underline{\hspace{1cm}}$  per month.)

**Changes to Your Mortgage Interest Rate and Payments on (date)**

Under the terms of your Adjustable-Rate Mortgage (ARM), you had a (duration) period during which your interest rate stayed the same. That period ends on (date), so on that date your interest rate and mortgage payment change. After that, your interest rate may change (frequency) for the rest of your loan term. [Also, as of (date) (changes to loan terms, features or options).]

<b>Total (frequency) Payment</b>	<b>\$ _____</b>	<b>\$ _____ (due (date))</b>

**Interest Rate:** We calculated your interest rate by taking a published “index rate” and adding a certain number of percentage points, called the “margin.” Under your loan agreement, your index rate is (index) and your margin is \_\_\_%. The (index) is published (frequency) in (source of information). [Description and amount of other adjustment(s) to the index].

**Rate Limit(s):** [Your rate cannot go higher than \_\_\_% over the life of the loan.] [Your rate can change each year by no more than \_\_\_%.] [We did not include an additional \_\_\_% interest rate increase to your new rate because a rate limit applied. This additional increase may be applied to your interest rate when it adjusts again on (date).]

**New Interest Rate and Monthly Payment:** The table above shows your new interest rate and new monthly payment. Your new payment is based on the (index), your margin, [description of other adjustment(s) to the index,] your loan balance of \$ \_\_\_\_\_, and your remaining loan term of \_\_\_ months.

**Interest-Only Payments:** Your new payment will not cover any principal. Therefore, making this payment will not reduce your loan balance.]

**Warning about Increase in Your Loan Balance:** Your new payment covers only part of the interest and no principal. Therefore, the unpaid interest will add to the balance of the loan. [In order to fully pay off your loan by the end of the loan term at the new interest rate, you would have to pay \$ \_\_\_\_\_ per month.]]

**Prepayment Penalty:** [None] [Keep in mind that if you pay off your loan, refinance or sell your home before (date), you could be charged a penalty. Contact (mortgage company) at (telephone number) [or (email address)] for more information, such as the maximum amount of the penalty you could be charged.]]

H-14—VARIABLE-RATE MORTGAGE SAMPLE

This disclosure describes the features of the adjustable-rate mortgage (ARM) program you are considering. Information on other ARM programs is available upon request.

*How Your Interest Rate and Payment Are Determined*

- Your interest rate will be based on an index rate plus a margin.
- Your payment will be based on the interest rate, loan balance, and loan term.
- The interest rate will be based on the weekly average yield on United States Treasury securities adjusted to a constant maturity of 1 year (your index), plus our margin. Ask us for our current interest rate and margin.
- Information about the index rate is published weekly in the Wall Street Journal.
- Your interest rate will equal the index rate plus our margin unless your interest rate "caps" limit the amount of change in the interest rate.

*How Your Interest Rate Can Change*

- Your interest rate can change yearly.

- Your interest rate cannot increase or decrease more than 2 percentage points per year.

- Your interest rate cannot increase or decrease more than 5 percentage points over the term of the loan.

*How Your Monthly Payment Can Change*

- Your monthly payment can increase or decrease substantially based on annual changes in the interest rate.

[For example, on a \$10,000, 30-year loan with an initial interest rate of 12.41 percent in effect in July 1996, the maximum amount that the interest rate can rise under this program is 5 percentage points, to 17.41 percent, and the monthly payment can rise from a first-year payment of \$106.03 to a maximum of \$145.34 in the fourth year. To see what your payment is, divide your mortgage amount by \$10,000; then multiply the monthly payment by that amount. (For example, the monthly payment for a mortgage amount of \$60,000 would be: \$60,000 ÷ \$10,000 = 6; 6 × 106.03 = \$636.18 per month.)

- You will be notified in writing 25 days before the annual payment adjustment may be made. This notice will contain information

**Pt. 1026, App. H**

**12 CFR Ch. X (1-1-16 Edition)**

about your interest rates, payment amount and loan balance.]

*Example*

The example below shows how your payments would have changed under this ARM

program based on actual changes in the index from 1982 to 1996. This does not necessarily indicate how your index will change in the future. The example is based on the following assumptions:

Amount	\$10,000				
Term	30 years				
Payment adjustment	1 year				
Interest adjustment	1 year				
Margin	3 percentage points				
Caps ___ 2 percentage points annual interest rate					
___ 5 percentage points lifetime interest rate					
Index ___ Weekly average yield on U.S. Treasury securities adjusted to a constant maturity of one year.

1996	5.82	3	***12.41	106.73	8,700.37

\*This is a margin we have used recently; your margin may be different.

\*\*This interest rate reflects a 2 percentage point annual interest rate cap.

\*\*\*This interest rate reflects a 5 percentage point lifetime interest rate cap.

NOTE: To see what your payments would have been during that period, divide your mortgage amount by \$10,000; then multiply the monthly payment by that amount. (For example, in 1996 the monthly payment for a mortgage amount of \$60,000 taken out in 1982

would be:  $\$60,000 \div \$10,000 = 6$ ;  $6 \times \$106.73 = \$640.38$ .)

Although the rate will vary after you are approved, it will **never exceed 25%** (the maximum allowable for this loan).

**Loan Fees**

**Application Fee:** \$15. **Origination Fee:** The fees that we charge to make this loan range from 0% to 3% of total loan amount. **Loan Guarantee Fee:** 0% to 3% of total loan amount. **Repayment Fee:** The fees we charge when you begin repayment range from 0% to 3.5% of the total loan amount. **Late Charge:** 5% of the amount of the past due payment, or \$25, whichever is greater. **Returned check charge:** up to \$25.

**Loan Cost Examples**

The total amount you will pay for this loan will vary depending upon when you start to repay it. This example provides estimates based upon three (3) different repayment options available to you while enrolled in school.

Repayment Option (while enrolled in school)	Amount Provided (amount provided directly to you or your school)	Interest Rate (highest possible starting rate)	Loan Term (how long you have to pay off the loan)	Total Paid over 20 years (includes associated fees)
<b>1. DEFER PAYMENTS</b> Make no payments while enrolled in school. Interest will be charged and added to your loan	\$10,000	17.375%	20 years starting after the deferment period	\$81,084
<b>2. PAY ONLY THE INTEREST</b> Make interest payments but defer payments on the principal amount while enrolled in school.	\$10,000	17.375%	20 years starting after the deferment period	\$60,707
<b>3. MAKE FULL PAYMENTS</b> Pay both the principal and interest amounts while enrolled in school.	\$10,000	17.375%	20 years starting after your first payment	\$38,180

**About this example**

The repayment example assumes that you remain in school for 4 years and have a 6 month grace period before beginning repayment. It is based on the highest starting rate currently charged and associated fees. For loan amounts up to \$20,000, repayment will last 20 years, starting once the initial principal payment is made. For loan amounts more than \$20,000 repayment will last 30 years, starting once the initial principal payment is made.

CLOSING DISCLOSURE

**Additional Information About This Loan**

**Loan Disclosures**

**Assumption**

If you sell or transfer this property to another person, your lender  will allow, under certain conditions, this person to assume this loan on the original terms.  
 will not allow assumption of this loan on the original terms.

**Demand Feature**

Your loan  has a demand feature, which permits your lender to require early repayment of the loan. You should review your note for details.  
 does not have a demand feature.

**Late Payment**

If your payment is more than 15 days late, your lender will charge a late fee of 5% of the monthly principal and interest payment.

**Negative Amortization (Increase in Loan Amount)**

Under your loan terms, you  are scheduled to make monthly payments that do not pay all of the interest due that month. As a result, your loan amount will increase (negatively amortize), and your loan amount will likely become larger than your original loan amount. Increases in your loan amount lower the equity you have in this property.  
 may have monthly payments that do not pay all of the interest due that month. If you do, your loan amount will increase (negatively amortize), and, as a result, your loan amount may become larger than your original loan amount. Increases in your loan amount lower the equity you have in this property.  
 do not have a negative amortization feature.

**Partial Payments**

Your lender  may accept payments that are less than the full amount due (partial payments) and apply them to your loan.  
 may hold them in a separate account until you pay the rest of the payment, and then apply the full payment to your loan.  
 does not accept any partial payments.  
 If this loan is sold, your new lender may have a different policy.

**Security Interest**

You are granting a security interest in 456 Somewhere Ave., Anytown, ST 12345

You may lose this property if you do not make your payments or satisfy other obligations for this loan.

**Escrow Account**

**For now, your loan**

will have an escrow account (also called an "impound" or "trust" account) to pay the property costs listed below. Without an escrow account, you would pay them directly, possibly in one or two large payments a year. Your lender may be liable for penalties and interest for failing to make a payment.

Escrow		
Escrowed Property Costs over Year 1	\$2,473.56	Estimated total amount over year 1 for your escrowed property costs: Homeowner's Insurance Property Taxes
Non-Escrowed Property Costs over Year 1	\$1,800.00	Estimated total amount over year 1 for your non-escrowed property costs: Homeowner's Association Dues  You may have other property costs.
Initial Escrow Payment	\$412.25	A cushion for the escrow account you pay at closing. See Section G on page 2.
Monthly Escrow Payment	\$206.13	The amount included in your total monthly payment.

will not have an escrow account because  you declined it  your lender does not offer one. You must directly pay your property costs, such as taxes and homeowner's insurance. Contact your lender to ask if your loan can have an escrow account.

No Escrow		
Estimated Property Costs over Year 1		Estimated total amount over year 1. You must pay these costs directly, possibly in one or two large payments a year.
Escrow Waiver Fee		

**In the future,**

Your property costs may change and, as a result, your escrow payment may change. You may be able to cancel your escrow account, but if you do, you must pay your property costs directly. If you fail to pay your property taxes, your state or local government may (1) impose fines and penalties or (2) place a tax lien on this property. If you fail to pay any of your property costs, your lender may (1) add the amounts to your loan balance, (2) add an escrow account to your loan, or (3) require you to pay for property insurance that the lender buys on your behalf, which likely would cost more and provide fewer benefits than what you could buy on your own.

**Additional Information About This Loan**

**Loan Disclosures**

**Assumption**

If you sell or transfer this property to another person, your lender  will allow, under certain conditions, this person to assume this loan on the original terms.  
 will not allow assumption of this loan on the original terms.

**Demand Feature**

Your loan  has a demand feature, which permits your lender to require early repayment of the loan. You should review your note for details.  
 does not have a demand feature.

**Late Payment**

If your payment is more than 15 days late, your lender will charge a late fee of 5% of the monthly principal and interest payment.

**Negative Amortization (Increase in Loan Amount)**

Under your loan terms, you  are scheduled to make monthly payments that do not pay all of the interest due that month. As a result, your loan amount will increase (negatively amortize), and your loan amount will likely become larger than your original loan amount. Increases in your loan amount lower the equity you have in this property.  
 may have monthly payments that do not pay all of the interest due that month. If you do, your loan amount will increase (negatively amortize), and, as a result, your loan amount may become larger than your original loan amount. Increases in your loan amount lower the equity you have in this property.  
 do not have a negative amortization feature.

**Partial Payments**

Your lender  may accept payments that are less than the full amount due (partial payments) and apply them to your loan.  
 may hold them in a separate account until you pay the rest of the payment, and then apply the full payment to your loan.  
 does not accept any partial payments.  
 If this loan is sold, your new lender may have a different policy.

**Security Interest**

You are granting a security interest in 123 Anywhere Street, Anytown, ST 12345

You may lose this property if you do not make your payments or satisfy other obligations for this loan.

**Escrow Account**

**For now, your loan**

will have an escrow account (also called an "impound" or "trust" account) to pay the property costs listed below. Without an escrow account, you would pay them directly, possibly in one or two large payments a year. Your lender may be liable for penalties and interest for failing to make a payment.

Escrow		
Escrowed Property Costs over Year 1	\$2,473.56	Estimated total amount over year 1 for your escrowed property costs: Property taxes, Homeowner's Insurance
Non-Escrowed Property Costs over Year 1	\$1,800.00	Estimated total amount over year 1 for your non-escrowed property costs: HOA Dues You may have other property costs.
Initial Escrow Payment	\$576.95	A cushion for the escrow account you pay at closing. See Section G on page 2.
Monthly Escrow Payment	\$206.13	The amount included in your total monthly payment.

will not have an escrow account because  you declined it  your lender does not offer one. You must directly pay your property costs, such as taxes and homeowner's insurance. Contact your lender to ask if your loan can have an escrow account.

No Escrow		
Estimated Property Costs over Year 1		Estimated total amount over year 1. You must pay these costs directly, possibly in one or two large payments a year.
Escrow Waiver Fee		

**In the future,**

Your property costs may change and, as a result, your escrow payment may change. You may be able to cancel your escrow account, but if you do, you must pay your property costs directly. If you fail to pay your property taxes, your state or local government may (1) impose fines and penalties or (2) place a tax lien on this property. If you fail to pay any of your property costs, your lender may (1) add the amounts to your loan balance, (2) add an escrow account to your loan, or (3) require you to pay for property insurance that the lender buys on your behalf, which likely would cost more and provide fewer benefits than what you could buy on your own.

will have an escrow account (also called an "impound" or "trust" account) to pay the property costs listed below. Without an escrow account, you would pay them directly, possibly in one or two large payments a year. Your lender may be liable for penalties and interest for failing to make a payment.

Escrow	
Escrowed Property Costs over Year 1	Estimated total amount over year 1 for your escrowed property costs:
Non-Escrowed Property Costs over Year 1	Estimated total amount over year 1 for your non-escrowed property costs:  You may have other property costs.
Initial Escrow Payment	A cushion for the escrow account you pay at closing. See Section G on page 2.
Monthly Escrow Payment	The amount included in your total monthly payment.

will not have an escrow account because  you declined it  your lender does not offer one. You must directly pay your property costs, such as taxes and homeowner's insurance. Contact your lender to ask if your loan can have an escrow account.

**No Escrow**

Estimated Property Costs over Year 1	Estimated total amount over year 1. You must pay these costs directly, possibly in one or two large payments a year.
Escrow Waiver Fee:	_____

**In the future,**

Your property costs may change and, as a result, your escrow payment may change. You may be able to cancel your escrow account, but if you do, you must pay your property costs directly. If you fail to pay your property taxes, your state or local government may (1) impose fines and penalties or (2) place a tax lien on this property. If you fail to pay any of your property costs, your lender may (1) add the amounts to your loan balance, (2) add an escrow account to your loan, or (3) require you to pay for property insurance that the lender buys on your behalf, which likely would cost more and provide fewer benefits than what you could buy on your own.

Pago inicial para la cuenta en depósito		Respaldo para la cuenta en depósito que usted paga al cierre. Consulte la Sección G en la página 2.
Pago mensual para la cuenta en depósito		El monto incluido en su pago mensual total.

- no tendrá una cuenta en depósito porque  usted la rechazó  su prestamista no la ofrece. Usted debe pagar directamente sus costos de la propiedad, como los impuestos y el seguro de la vivienda. Comuníquese con su prestamista para preguntarle si su préstamo puede contar con una cuenta de depósito para impuestos y seguros de la vivienda.

Sin cuenta en depósito para impuestos y seguros de la vivienda		
Costos de la propiedad estimados durante el primer año		Monto total estimado durante el primer año. Usted debe pagar estos costos directamente, posiblemente en un pago grande o en dos pagos al año.
Comisión por renuncia a la cuenta en depósito		

#### En el futuro,

Es posible que los costos de la propiedad cambien y como consecuencia, su pago a la cuenta en depósito para impuestos y seguros de la vivienda podrá variar. Puede cancelar su cuenta en depósito, pero si lo hace, debe pagar sus costos de la propiedad directamente. Si no paga los impuestos sobre la propiedad, el estado o gobierno local pueden 1) imponer multas o sanciones o 2) imponer un embargo fiscal a esta propiedad. Si no paga ninguno de estos costos de la propiedad, su prestamista puede 1) agregar los montos al saldo de su préstamo, 2) agregar una cuenta en depósito a su préstamo o 3) exigirle que pague un seguro para la propiedad, que el prestamista adquiere en su nombre, y que tal vez tendrá un costo más alto y le brindará menos beneficios que el que podrá adquirir por su cuenta.

**Declaraciones del préstamo**

**Amortización negativa (aumento del monto del préstamo)**

De acuerdo con los términos de su préstamo, usted

- debe realizar pagos mensuales programados que no incluyen todos los intereses adeudados para ese mes. Como consecuencia, el monto de su préstamo aumentará (amortización negativa) y posiblemente, será más alto que el monto original del préstamo. Los aumentos del monto de su préstamo disminuyen su participación en el patrimonio que usted tiene en este inmueble.
- puede tener pagos mensuales que no incluyan todos los intereses adeudados para ese mes. Si los tiene, el monto de su préstamo aumentará (amortización negativa) y, como consecuencia, puede ser más alto que el monto original del préstamo. Los aumentos del monto de su préstamo disminuyen su participación en el patrimonio que usted tiene en este inmueble.
- no incluye una característica de amortización negativa.

**Característica de demanda**

Su préstamo

- incluye una característica de demanda, que le permite a su prestamista exigir el pago anticipado del préstamo. Debe revisar su pagará para obtener detalles.
- no incluye una característica de demanda.

**Cuenta en depósito para impuestos y seguros de la vivienda**

Por ahora, su préstamo

- tendrá una cuenta en depósito para impuestos y seguros de la vivienda (también llamada cuenta de "depósito en garantía" o cuenta de "fideicomiso") para pagar los costos de la propiedad que se detallan a continuación. Sin una cuenta en depósito para impuestos y seguros de la vivienda, usted pagará estos costos directamente, tal vez en un pago grande o en dos pagos al año. Es posible que su prestamista sea responsable por las sanciones y los intereses que resulten de la falta de pago.

Pago inicial para la cuenta en depósito		Respaldo para la cuenta en depósito que usted paga al cierre. Consulte la Sección G en la página 2.
Pago mensual para la cuenta en depósito		El monto incluido en su pago mensual total.

- no tendrá una cuenta en depósito porque  usted la rechazó  su prestamista no la ofrece. Usted debe pagar directamente sus costos de la propiedad, como los impuestos y el seguro de la vivienda. Comuníquese con su prestamista para preguntarle si su préstamo puede contar con una cuenta de depósito para impuestos y seguros de la vivienda.

Sin cuenta en depósito para impuestos y seguros de la vivienda		
Costos de la propiedad estimados durante el primer año		Monto total estimado durante el primer año. Usted debe pagar estos costos directamente, posiblemente en un pago grande o en dos pagos al año.
Comisión por renuncia a la cuenta en depósito		

**En el futuro,**

Es posible que los costos de la propiedad cambien y como consecuencia, su pago a la cuenta en depósito para impuestos y seguros de la vivienda podrá variar. Puede cancelar su cuenta en depósito, pero si lo hace, debe pagar sus costos de la propiedad directamente. Si no paga los impuestos sobre la propiedad, el estado o gobierno local pueden 1) imponer multas o sanciones o 2) imponer un embargo fiscal a esta propiedad. Si no paga ninguno de estos costos de la propiedad, su prestamista puede 1) agregar los montos al saldo de su préstamo, 2) agregar una cuenta en depósito a su préstamo o 3) exigirle que pague un seguro para la propiedad, que el prestamista adquiere en su nombre, y que tal vez tendrá un costo más alto y le brindará menos beneficios que el que podría adquirir por su cuenta.
