### **What are the IMLS Agency-level goals?**

The mission of the Institute of Museum and Library Services (IMLS) is to inspire libraries and museums to advance innovation, lifelong learning, and cultural and civic engagement. We provide leadership through research, policy development, and grant making.

U.S. museums and libraries are at the forefront in the movement to create a nation of learners. As stewards of cultural and natural heritage with rich, authentic content, libraries and museums provide learning experiences for everyone. In FY2016, each award under this program will support one of the following three goals of the [IMLS strategic plan](#) for 2012-2016, *Creating a Nation of Learners*:

1. IMLS places the learner at the center and supports engaging experiences in libraries and museums that prepare people to be full participants in their local communities and our global society.
2. IMLS promotes museums and libraries as strong community anchors that enhance civic engagement, cultural opportunities, and economic vitality.
3. IMLS supports exemplary stewardship of museum and library collections and promotes the use of technology to facilitate discovery of knowledge and cultural heritage.

The goals focus on achieving positive public outcomes for communities and individuals; supporting the unique role of museums and libraries in preserving and providing access to collections and content; and promoting library, museum, and information service policies that ensure access to information for all Americans.

### What are the eligibility requirements for this program?

Indian tribes are eligible to apply for funding under the Native American Library Services Enhancement Grant program. Entities such as libraries, schools, tribal colleges, or departments of education are not eligible applicants, although they may be involved in the administration of this program and their staff may serve as project directors in partnership with an eligible applicant.

For purposes of funding under this program, "Indian tribe" means any tribe, band, nation, or other organized group or community, including any Alaska native village, regional corporation, or village corporation (as defined in, or established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.)), which is recognized by the Secretary of the Interior as eligible for the special programs and services provided by the United States to Indians because of their status as Indians. A list of eligible entities is available from the Bureau of Indian Affairs.

### Minimum Requirements of Library Service

To be eligible for this program you must be able to document an existing library that meets, at a minimum, three basic criteria: (1) regularly scheduled hours, (2) staff, and (3) materials available for library users. You are required to have an active Basic Grant in the same fiscal year to be eligible to apply for an Enhancement Grant.

**Note to applicants: In order to receive an IMLS award, you must be in compliance with applicable requirements and be in good standing on all active IMLS awards.**

#### **What are the requirements for cost sharing?**

Cost sharing is encouraged but not required in this program. [Click here for further information on cost sharing.](#)

#### **How many applications can we submit to this program?**

You may apply for one Enhancement Grant in a fiscal year. The same population cannot be served by more than one Enhancement Grant.

A grantee receiving a two-year Enhancement Grant may not apply for another Enhancement Grant covering the second year of the first grant. For example, if you received a two-year Enhancement Grant in FY2015, you may not apply for another Enhancement Grant until FY2017.

#### **What if I fail to meet the eligibility requirements?**

We will not review or make awards to ineligible applicants. In order to receive an IMLS award, you must be eligible and in compliance with applicable requirements and be in good standing on all active IMLS awards.

- The proposal should provide evidence of innovation, shown by the degree to which the project results in more than incremental change
- Research proposals should frame the project in the context of current research and explain what the project will contribute to the library or archive fields.

### 2. Impact

*Review Criteria:*

- Degree to which potential benefits of the project outweigh its potential risks
- Degree to which evaluation plan ties directly to project goals through measurable project outcomes, findings, or products
- Evidence that the project evaluation will provide reliable information on which to judge impact or base actions
- For projects that involve building digital collections, software, or other technology products, in addition to the above criteria, evidence that the project demonstrates interoperability and accessibility in its broadest context and potential for integration into larger-scale initiatives

Each separate foreign trip must be itemized in the budget approved by IMLS. Foreign travel that is not included in the approved project budget must be specifically approved in writing by the appropriate IMLS program officer.

### **What are my choices regarding indirect costs?**

You can choose to:

- use a current indirect cost rate already negotiated with a federal agency
- use an indirect cost rate proposed to a federal agency for negotiation, but not yet approved, as long as it is approved by the time of award
- if you have never had a federally negotiated indirect cost rate and you are otherwise eligible, use a rate not to exceed 10% of total modified direct costs or
- not include any indirect costs

## **E. Application Review Process**

### **What are the characteristics of successful applications?**

Reviewers will look for evidence that the applicant has conducted a formal or informal assessment of community needs and library capacity and carefully considered the appropriate role for the library in addressing the need it has identified for the project. They will look for baseline data that can be used to determine project results.

Reviewers will look for efficient, effective, and reasonable goals that will achieve clearly envisioned project results and improve the audience's knowledge, skills, attitudes, or behaviors in particular ways. They will look for indications that the project is realistic and achievable.

Reviewers will look for indications that the design, methods, and timeline match the scope of the project; that project goals can be met successfully; and that project personnel have relevant expertise and can commit adequate time to carry out the project activities and achieve project goals. Reviewers will look for evidence that partners are contributing to and benefiting from the project, if appropriate. Reviewers will determine whether appropriate digitization plans are in place, if applicable.

Reviewers will look for reliable information that demonstrates that the project's success will be documented through evaluation. Reviewers will look for evidence that evaluation will take place on a continuing basis to allow for adjustments and improvements in the project design. They will want information that shows how project results will be broadly disseminated. Reviewers will look for evidence that there is a solid plan for continued support after the end of the grant period.

### **Is cost sharing considered in the review process?**

Cost sharing is permitted, but not required, and will not be considered in the review of the application. However, if you choose to include cost sharing in an application, your projected cost share in the project budget should be carefully calculated; grantees are expected to meet the cost share and other commitments that are set forth in their awards.

### **What is the review and selection process?**

We use a peer review process to evaluate all eligible and complete applications. Reviewers are professionals in the field with relevant knowledge and expertise in the types of project activities identified in the applications. They are instructed to evaluate applications according to the Review Criteria above. Reviewer conflicts of interest are identified prior to review, and reviewers who may have conflicts with particular applications are reassigned to review other projects.

The Director takes into account the advice provided by the review process and makes final funding decisions consistent with the purposes of the agency's programs.

**Reviewers are directed to follow the review criteria described in Section D above.**

### **When will awards be announced?**

We will not release information about the status of an application until the applications have been reviewed and all deliberations are concluded. We expect to notify both funded and unfunded applicants of final decisions in September 2016. Funded projects may not begin earlier than October 1, 2016.

### **What are the administrative and national policy requirements?**

Organizations that receive IMLS grants or cooperative agreements are subject to the [IMLS General Terms and Conditions for IMLS Discretionary Awards](#) and the [IMLS Assurances and Certifications](#). By signing the application form, which includes the Assurances and Certifications, you certify that you are in compliance with these requirements and that you will maintain records and submit any reports that are necessary to ensure compliance. Your failure to comply with these statutory and regulatory requirements may result in the suspension or termination of your grant and require you to return funds to the government.

### **What are the reporting requirements?**

Reports are due according to the reporting schedule that accompanies your Official Award Notification for Grants and Cooperative Agreements. Please note that recipients must submit performance reports in the format defined by the IMLS; both interim and final performance reports may be accessible on the IMLS website to support the agency's commitment to open government, to engage the public in communities of practice and to inform application development and grant making strategies.
