Form Approved OMB No. 0920-New Expiration Date: XX/XX/XXXX

Cooperative Re-Engagement Controlled Trial (CoRECT)

Attachment **#13e**

Annual Implementation Costs for CoRECT-CLINIC COSTS

Public reporting burden of this collection of information is estimated to average 1.5 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; Attn: OMB-PRA (0920-New)

Appendix 13 e: Annual Implementation Costs for CoRECT-CLINIC COSTS

Rev: 01/18/2015

Site name:	Completed Date:
Data collection period (MM/DD/2016 MM/DD/2018)	

The attached cost analysis worksheets are designed to determine how much it costs to implement the intervention that reengages those who are determined out of care respectively - the worksheets will:

- Systematically list the resources needed to implement the CoRECT Study
- Itemize the amount (quantity) of each of the resources used
- Assign dollar values to the resources

The worksheets contain fields for several cost categories listed below. The data will be used to determine the total start-up program costs.

- 1. Out-of-care list generation
- 2. Re-engagement/handoff to clinic
- 3. Administration time
- 4. Clinic staff salaries

Clinical sites may update (insert rows) and clarify cost categories and the items listed under each of the cost categories, based on the retention in care project activities performed at that specific site. The data should reflect actual cost or resources allocated under this project, however, some of the data elements may require estimation of costs or resources used based on available information. In such cases, sites may use appropriate data sources or separate calculation to complete the forms.

Evaluation costs that are strictly research-related (e.g., ACASI software, incentives for completing ACASI) should NOT be included in this exercise. However, all resources that are used for project implementation purposes should be included, even if those go beyond specific project funds.

(1) Out-of-care lists	Description	Responsible staff (ex. nurse, data manager, physician)	Frequency Count/Week, Month ^b	Total Time Spent (hr) ^b
Generate surveillance line list	Create initial OOC list using missed appointment data		/	
Match with HD list	Time spent reconciling health department and clinic OOC list		/	
Communicate with HD-data transmission (initial)	Transmit reconciled OOC list back to HD prior to case conference		/	
Case Conference	Time clinic staff spent participating in case- conference to complete OOC list		/	

(2) Re-engagement/ handoff to clinic	Description	Responsible staff (ex. nurse, data	Frequency Count/Week,	Total Time Spent (hr) ^b
		manager, physician)	Month ^b	
Staff time spent	Appointment		/	
contacting OOC	reminders, missed			
patients	visit contacts,			
	support service			
	contacts			
Follow-up with health	Time spent		/	
department	communicating			
	with DIS/field epi			
	to schedule re-			
	engaged patients			
	for medical or			
	phlebotomy visits			

(3) Administration Time	Responsible staff	Frequency	Total Time Spent
	(ex. clinic nurse, physicians, data manager) ^{ac}	Count/Week, Month	(hr) ^b
	uata manager)
