## Disclaimer of Endorsement and Liability

The National Cancer Institute (NCI) does not endorse or recommend any commercial products, processes, or services. Therefore, mention of commercial products, processes, or services on NCI's website, [www.cancer.gov](http://www.cancer.gov), cannot be construed as an endorsement or recommendation.

The NCI website provides links to other Internet sites for informational purposes and the convenience of its users. When users select a link to an external website, they are leaving the NCI website and are subject to the privacy and security policies of the owners/sponsors of the external site.

NCI does not endorse organizations that sponsor linked, external websites. In addition, NCI does not endorse products or services that such organizations may offer. Furthermore, NCI does not control or guarantee the currency, accuracy, relevance, or completeness of information found on linked, external websites.

NCI cannot authorize the use of copyrighted materials published on linked, external websites. Users must request authorization from the sponsors of those websites.

NCI is not responsible for transmissions users may receive from linked, external websites.

NCI does not guarantee that linked, external websites comply with Section 508 (Accessibility Requirements) of the Rehabilitation Act.

Press releases or other materials meant for public use will not be posted on the NCI website unless developed by or for NCI or the National Institutes of Health.

In general, it is not NCI's intention to provide specific medical advice to users of its website, but rather to provide users with information to help them better understand their health, diagnosed conditions, and the current range of approaches related to cancer treatment, prevention, screening, and supportive care. NCI urges users to consult with a qualified physician for diagnosis and for answers to their personal medical questions.

### OMB Burden Statement

OMB No.: 0925-0642

Expiration Date: 05/31/2020

Collection of this information is authorized by The Public Health Service Act, Section 411 (42 USC 285a). Rights of study participants are protected by The Privacy Act of 1974. Participation is voluntary, and there are no penalties for not participating or withdrawing from the study at any time. Refusal to participate will not affect your benefits in any way. The information collected in this study will be kept private to the extent provided by law. Names and other identifiers will not appear in any report of the study. Information provided will be combined for all study participants and reported as summaries. You are being contacted on-line to complete this instrument so that we can improve the website.

Public reporting burden for this collection of information is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0642). Do not return the completed form to this address.

**Updated:** August 31, 2017

**I visited cancer.gov today to find information about (select all that apply):**

- Cancer treatment and/or managing side effects
- Cancer symptoms, diagnosis or prognosis
