

Implementation Science at a Glance

Survey Announcement Message

Dear Colleague:

On behalf of the National Cancer Institute (NCI), we invite you to review *Implementation Science (IS) at a Glance* and subsequently complete a brief survey to help us refine the resource and our dissemination methods.

NCI developed *IS at a Glance* to translate implementation science theories, measures and frameworks for every-day use by public health and cancer control practitioners.

We see you as an essential source of information on how to improve the resource and help ensure that our goals are met. We would appreciate your thoughtful response to a brief survey to gather feedback on *IS at a Glance*. Your insights will be extremely valuable to our team.

To complete the survey, please go to [\(weblink\)](#) either by clicking on the URL address or copying and pasting it into your browser. Please complete the survey no later than [\(date\)](#).

It will take approximately 15 minutes to complete and your responses will be kept private, to the extent provided by law.

Thank you in advance for your time and our team welcomes and looks forward to your input.

Sincerely,

Margaret M. Farrell MPH RD
Public Health Advisor
Implementation Science Team
Division of Cancer Control and Population Science
