

Email Invitation for Survey

Proposed Subtitle: Survey to Inform Workshop Discussion

Dear Workshop Participants,

On February 28-March 1, NCI is sponsoring a "[Workshop to Facilitate Cancer Systems Epidemiology Research](#)". The objective of this workshop is to facilitate interdisciplinary discussion about the application of systems modeling approaches for population-based cancer epidemiology research. To inform discussions at this workshop, NCI is asking workshop participants to complete this survey to provide feedback on definitions of systems epidemiology, research questions, methods and available datasets.

This survey should take no more than 5 minutes to complete. Participation in this survey is voluntary, all questions are optional, and results will only be presented in aggregate.

Your responses will help us address the workshop goals to facilitate cancer systems epidemiology research. We appreciate your participation in our survey.

Sincerely,

Leah Mechanic, Ph.D., M.P.H.
Genomic Epidemiology Branch, EGRP, DCCPS, NCI

On behalf of the Workshop Planning Committee
