

Healthcare Teams Cyber Discussions Participant Survey

Healthcare Teams Cyber Discussion Participant Survey

OMB No. 0925-0642, Expiration Date 5/31/2020

Health Care Teams in Cancer Care Cyber Discussion Assessment Survey

The purpose of the survey is to assess the impact of the National Cancer Institute's (NCI) [Healthcare Teams Cyber Discussions](#) to stimulate patient-centered care, improve care coordination through better teamwork and research.

The National Cancer Institute launched the Healthcare Teams in Cancer Care Cyber Discussions in 2012. Cyber Discussions are held three times a year. Each annual series of Cyber Discussions has focused on a topic pertaining to challenges and research on teamwork and team processes in cancer care delivery.

Each Cyber Discussion features a live presentation and interactive discussion. Cyber Discussion presenters include nationally recognized leaders in clinical oncology, health services, and team science research, and cancer advocacy. During the discussion and Q&A period, participants engage with the presenters via a chat function to respond, comment, and pose additional questions for consideration.

Public reporting burden for this collection of information is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0642). Do not return the completed form to this address.

Healthcare Teams Cyber Discussions Participant Survey

CONSENT

You are invited to participate in an online survey about the National Cancer Institute Healthcare Teams in Cancer Care Cyber Discussion webinars. This survey asks about your participation and satisfaction with the Cyber Discussions. It should take approximately 5 minutes to complete.

Your participation in this survey is voluntary. You may refuse to take part in the assessment or exit the survey at any time without penalty. You are free to decline to answer any question you do not wish to answer for any reason.

BENEFITS/RISKS

You will receive no direct benefits from participating in this assessment. However, your responses may help us learn more about how the Cyber Discussions has improved your ability to implement team science principles in cancer care, stimulated research in teams in cancer care or improved your advocacy for patient engagement on the healthcare team.

There are no foreseeable risks involved in participating in this assessment other than those encountered in day-to-day life.

PRIVACY

Your survey answers will be sent to a link at SurveyMonkey.com where data will be stored in a password protected electronic format. Your responses will be kept secure to the extent of the law and will not be shared with anyone outside of the assessment team.

CONTACT

If you have questions at any time about the study or the procedures, or if you have any questions, concerns, or complaints that you wish to address, you may contact us at cholletv@mail.nih.gov

Healthcare Teams Cyber Discussions Participant Survey

* 1. I agree to participate in this survey. I am participating voluntarily, and I understand that I can exit from the survey at any time, without any penalty or consequences.

Yes

No

* 2. When was the last time you participated in a NCI Healthcare Teams Cyber Discussion?

I have never participated

Over a year ago

Within the past year, but no more than 6 months ago

Within the past six months

* 3. If you participated over a year ago, please explain why you have not recently joined a Cyber Discussion?

* 4. Overall, how satisfied are you with Health Care Teams in Cancer Care Cyber Discussions?

Extremely satisfied

Very satisfied

Somewhat satisfied

Not so satisfied

Not satisfied at all

Healthcare Teams Cyber Discussions Participant Survey

* 5. Please indicate the degree to which you agree with the following statements:

| | Strongly disagree | Disagree | Neither agree nor disagree | Agree | Strongly agree |
|--|-----------------------|-----------------------|----------------------------|-----------------------|-----------------------|
| Concepts in cyber discussion presentations were clearly explained. | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Cyber discussions helped me achieve my professional goals | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Cyber discussions encouraged critical engagement with background reading and case study | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Cyber discussions gave me deeper insights on how to improve teamwork and team performance | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Cyber discussions stimulated ideas for additional research on enhancing teamwork and team performance | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Cyber discussions increased my understanding of how to engage and collaborate with patients and caregivers as part of the team | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |

Healthcare Teams Cyber Discussions Participant Survey

* 6. Which Session Did you Attend? (Select all that apply.)

- January 24, 2019
Educating and empowering patients to be effective partners in health care
Fran Visco, JD, President, National Breast Cancer Coalition
- October 9, 2018
Metastatic Breast Cancer Collateral Damage Project
Susan Love, MD, MBA, Chief Visionary Officer, Dr. Susan Love Research Foundation
- July 20, 2018
Patient Advocates Collaborate to Ensure Patients Are Members of Their Own Oncology Care Teams
Michael P. Kosty, MD, FACP, FASCO
Mary Lou Smith, JD, MBA
- April 13, 2018
Managing Teamwork and Patient Enablement with an Innovative 4R Oncology Model
Christine Weldon, MBA
- November 9, 2017
Teamwork and team performance in multidisciplinary cancer teams:
Development and evaluation of an observational assessment tool
Nick Sevdalis, PhD
- June 22, 2017
Development of an oncology-specific instrument to measure care coordination
Randall Holcombe, MD, MBA
- April 20, 2017
Building a Multidisciplinary Bridge Across the Quality Chasm in Thoracic Oncology
Raymond U. Osarogigbon, MBBS, FACP
- February 1, 2017
