## **Nursing Home or Rehabilitation Center:**

- Nursing homes are licensed or certified facilities that provide nursing services 24 hours a day to the residents. Rehabilitation centers provide skilled nursing care or rehabilitation services and other related health services.

## **Personal Care Home or Residential Care Facility:**

- Personal care and residential care facilities or apartment buildings offer residents help with activities, such as bathing and dressing, but do not provide 24-hour nursing services. (Some residents at a personal care or residential care facility may not require such assistance, but it must be available to them.) These facilities are sometimes called assisted-living communities, personal care homes, board and care homes, or domiciliary homes.

## **CCRC or Retirement Home or Center:**

- CCRC and retirement centers or homes may have nursing home facilities on a campus or in one large building along with other housing and services, such as apartments, board and care services, and often a variety of community-based long-term care services.

## **Hospital**

## **Private Home or Apartment**

## **Other LTC Facility:**

- Long-term care facilities provide a residence, some surveillance and available living assistance for persons no longer willing or able to live on their own for the long term.
