**E. Export/Re-Export of Wildlife Samples and/or Biomedical Samples ([CITES](#))**

For the export/re-export of samples from species listed under the Endangered Species Act or CITES Appendix I species (50 CFR Part 17), use application form 3-200-37 [<http://www.fws.gov/international/permits/by-form-number/index.html>].

The U.S. FWS may not be able to issue CITES documents for the commercial export of Appendix-I specimens, unless the specimens were obtained from animals produced at a CITES-registered Appendix-I commercial breeding operation. For more information on registering an Appendix-I commercial breeding operation, contact the Division of Management Authority at 800-358-2104 or [managementauthority@fws.gov](mailto:managementauthority@fws.gov).

Use this form if you are collecting in the open ocean on a U.S. registered vessel **and** transporting the specimens directly to a different country - your shipment would require a U.S. CITES export permit. In addition, if you are exporting Appendix-I specimens, an import permit issued by the country into which the specimens are transported would be required.

Electronic submission of inventories, photographs, and receipts: Some applications contain extensive inventories and /or a large number of photographs or receipts. You may provide electronic versions of the documents. Such a submission will assist in expediting the processing of your application since it may reduce data entry by the U.S. Fish and Wildlife Service. If you wish to provide information electronically, please either include a disk containing your information or, once you have received an application number via the e-mailed acknowledgement letter, e-mail your information to [Permits@fws.gov](mailto:Permits@fws.gov). Be sure to include the application number provided in the acknowledgement e-mail that will be sent to you when we receive your application.

\_\_\_\_\_ I will be submitting documents electronically.

Provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use separate sheets of paper. On all attachments or separate sheets you submit, indicate the application question number you are addressing. If you are applying for multiple specimens, be sure to indicate which specimen you are addressing in each response.

1. Name and address where you wish the permit to be mailed, **if different from page 1**. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via regular mail through the U.S. Postal Service.
2. Whom should we contact if we have questions about the application (name, phone number, and e-mail)?
3. Have you or any of the owners of the business (if applying as a business, corporation, or institution), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

No  Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

**This application can be used to:**
