E. INTRODUCTION FROM THE SEA (CITES)

Note: U.S. regulations define introduction from the sea as "transportation into a country of specimens of any species which were taken in the marine environment not under the jurisdiction of any country." CITES defines the marine environment not under the jurisdiction of any country as "those marine areas beyond the areas subject to the sovereignty or sovereign rights of a State consistent with international law, as reflected in the United Nations Convention on the Law of the Sea." Therefore, if you are collecting in the open ocean (i.e., in the marine environment outside of any country's territorial jurisdiction), using a U.S. registered vessel and returning directly to the U.S., you will need to obtain an "introduction from the sea" document. However, if you are collecting in the open ocean on a U.S. registered vessel **and** transporting the specimens directly to a different country, your shipment would require a U.S. CITES export permit use application form [3-200-29](#), and for Appendix I specimens, an import permit issued by the country into which the specimens are transported.

PURPOSE

This application is for the "introduction from the sea" of marine specimens collected from the open ocean by a U.S. registered vessel returning directly to the United States. If your activities **also** involve the import of Appendix-I specimens collected from territorial waters of other countries, you may include those specimens on this application. However, if your activities are restricted to the import of Appendix-I specimens collected from other countries (including their territorial waters), please use application form [3-200-37](#).

Electronic submission of inventories, photographs, and receipts: Some applications contain extensive inventories and/or a large number of photographs or receipts. You may provide electronic versions of the documents. Such a submission will assist in expediting the processing of your application since it may reduce data entry by the U.S. Fish and Wildlife Service. If you wish to provide information electronically, please either include a disk containing your information or, once you have received an application number via the e-mailed acknowledgement letter, e-mail your information to Permits@fws.gov. Be sure to include the application number provided in the acknowledgement e-mail that will be sent to you when we receive your application.

_____ I will be submitting documents electronically.

Please provide the following information. Complete all pages of the application. If needed, use separate sheets of paper. On all attachments or separate sheets you submit, please indicate the number of the application question you are addressing. Mark questions that are not applicable with "N/A". If you are applying to introduce from the sea/import multiple specimens, be sure to indicate which specimen you are addressing in each response.

1. Name and address where you wish the permit to be mailed, **if different from page 1**. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via regular mail through the U.S. Postal Service.
2. Whom should we contact if we have questions about the application (name, phone number, and e-mail)?
3. Have you or any of the owners of the business (if applying as a business, corporation, or institution), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

No Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. Are you requesting authorization for (check appropriate box):
- ___ A SINGLE SHIPMENT or
- ___ MULTIPLE SHIPMENTS (valid for 1 year)
5. Provide the following for EACH animal/specimen:
- Scientific name (genus, species, and, if applicable, subspecies) and common name;

If the specimens will be housed at multiple facilities, either immediately or within the next year, provide a description for each facility. If you are unsure of which facilities may be receiving specimens (e.g., SSP has not made final decision), please indicate likely candidates and the mechanism that will be used to determine recipient facilities.
 - A statement of the specific technical experience available to the recipient(s) for maintaining and propagating live specimens of the same or similar species, including:
 - the number of years each species has been maintained;
 - a list of the number of successful births by year for each species for the last 5 years; and
 - mortalities resulting from your activities with these or similar species in the last 5 years, causes of such mortalities, and steps taken to avoid or decrease such mortalities.

11. For transporting living wildlife, the transport conditions must comply with the [CITES](#) Guidelines for Transport of Live Animals. If applicable, you must also meet USDA standards for Humane and Healthful Transport. As such, provide:
