E. Approval, Amendment or Renewal of a Cooperative Breeding Program (Wild Bird Conservation Act)

NOTE 1: This application must be approved before import permits can be issued for the purpose of cooperative breeding. A Cooperative Breeding Program (CBP) must have at least two members. On all attachments or separate sheets you are submitting; please indicate the number of the application question you are addressing. If requesting authorization for more than one species or subspecies, please answer questions 5 – 10 for each species/subspecies.

Electronic submission of inventories, photographs, and receipts: Some applications contain extensive inventories and /or a large number of photographs or receipts. You may provide electronic versions of the documents. Such a submission will assist in expediting the processing of your application since it may reduce data entry by the U.S. Fish and Wildlife Service. If you wish to provide information electronically, please either include a disk containing your information or, once you have received an application number via the e-mailed acknowledgement letter, e-mail your information to Permits@fws.gov. Be sure to include the application number provided in the acknowledgement e-mail that will be sent to you when we receive your application.
