**Paperwork Reduction Act Statement****OMB Control Number: 1218-0147**

According to the Paperwork Reduction Act of 1995, no person is required to respond to a collection of information unless such collection displays a valid OMB control number. Public reporting burden for this collection of information is estimated to average 160 hours for an initial application and no more than 24 hours for an expansion. This burden includes locating and assembling information required to complete the application. It may also include an on-site inspection / audit. The obligation to respond to this collection is voluntary. Information obtained from this form will be used to determine if the application and supporting information meets the requirements of the NRTL Program as outlined in 29 CFR 1910.7. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: U.S. Department of Labor, OSHA, Office of Technical Programs and Coordination Activities, Directorate of Technical Support and Emergency Management, 200 Constitution Avenue, NW, Room N3655, Washington, DC 20210.

**Form Completion Directions****General Guidance**

OSHA safety standards require that specified equipment and materials (products) be tested and certified for safety by an OSHA-recognized organization. OSHA's Nationally Recognized Testing Laboratory (NRTL) Program fulfills this responsibility by recognizing the capabilities of mainly private sector testing organizations to test and certify such products for manufacturers.

To be recognized, an organization must meet OSHA's requirements. Initial recognition is granted if the application and an on-site audit of the organization demonstrate the applicant is completely has the capability to test and certify products for safety. An organization must have the necessary capability both as a testing laboratory and as a product certification body to receive OSHA recognition as an NRTL. Once recognized, OSHA reviews each NRTL's activities to assure it continues to comply. The NRTL can also request an expansion of its recognition. This form, and its attachments, asks the NRTL to verify its general information as well as provide specific information related to its facilities and capabilities to meet NRTL Program requirements. Completing this form is entirely voluntary. Each applicant is free to submit an application for initial recognition or expansion using any form it chooses. However, OSHA will consider applications that do not contain the information requested in this form to be deficient and may delay or deny the request.

An applicant that chooses to use this form for initial recognition or expansion must send: (1) this completed form; (2) any additional information it wishes to submit to demonstrate capabilities to meet NRTL Program requirements; and (3) payment to:

Director  
Office of Technical Programs and Coordination Activities  
Directorate of Technical Support and Emergency Management  
Occupational Safety and Health Administration
