Privacy Act Statement

Authority: 33 U.S.C. §1225, 46 U.S.C. §70103, and 50 U.S.C. §191 authorize the collection of this information.

Purpose: Gathering essential elements of information before a port disruption enables the U.S. Coast Guard to establish a normal port condition baseline. Then, following a port disruption, the port's condition can be measured against the normal baseline to provide critical input to those federal, state, and local response organizations that are engaging in restoring the port to its pre-disruption condition.

Routine Uses: It is used by the U.S. Coast Guard Marine Transportation System Recovery Unit to assess the condition of the port, prioritize recovery efforts, and gauge the effectiveness of the response. A complete list of the routine uses can be found in the system of records notice associated with this form, "Department of Homeland Security/U.S. Coast Guard-013 - Marine Information for Safety and Law Enforcement (MISLE)." The Department's full list of system of records notices can be found on the Department's website at <http://www.dhs.gov/system-records-notices-sorns>.

Disclosure: This is a voluntary solicitation for information and is not mandatory; however the U.S. Coast Guard cannot properly prioritize recovery efforts without this valuable input.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The Coast Guard estimates that the average burden for this report is 30 minutes. You may submit any comments concerning the accuracy of this burden estimate or any suggestions for reducing the burden to: Commandant (CG-FAC), U.S. Coast Guard Stop 7318, 2703 Martin Luther King Jr Ave SE, Washington, DC 20593-7318 or Office of Management and Budget, Paperwork Reduction Project (1625-xxxx), Washington, DC 20503.
