**SUPPLEMENTARY INFORMATION:** On July 26, 2010, President Obama issued Executive Order 13548, which directs Executive departments and agencies (hereafter “agencies”) to improve their efforts to employ Federal workers with disabilities through increased recruitment, hiring, and retention of these individuals. OPM, in consultation with the White House (including the Office of Management and Budget (OMB), the Department of Labor (DOL), and the EEOC has developed, as required by the E.O. 13548, model recruitment and hiring strategies for agencies to use to increase their employment of individuals with disabilities. The strategies include collecting, maintaining, and analyzing applicant flow data and examining existing recruitment programs and hiring practices to identify and eliminate any barriers to recruiting/hiring individuals with disabilities and, in particular, individuals with targeted disabilities. The EEOC's Demographic

Information on Federal Job Applicants form (OMB No. 3046-0046) is intended for use by federal agencies in gathering data on the race, ethnicity, sex, and disability status of job applicants. This form is used by the EEOC and other agencies to gauge progress and trends over time with respect to equal employment opportunity goals.

Pursuant to the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, and OMB regulation 5 CFR 1320.8(d)(1), the Commission solicits public comment to enable it to:

(1) Evaluate whether the proposed data collection tool will have practical utility by enabling a federal agency to determine whether recruitment activities are effectively reaching all segments of the relevant labor pool in compliance with the laws enforced by the Commission and whether the agency's selection procedures allow all applicants to compete on a level playing field regardless of race, national origin, sex or disability status;

(2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on applicants for federal employees who choose to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

### Overview of This Information Collection

*Collection Title:* Demographic Information on Federal Job Applicants.  
*OMB Control No.:* 3046-0046.

*Description of Affected Public:* Individuals submitting applications for federal employment.

*Number of Annual Responses:* 5,800.  
*Estimated Time per Response:* 3 minutes.

*Total Annual Burden Hours:* 290.<sup>1</sup>  
*Annual Federal Cost:* None.

*Abstract:* Under section 717 of Title VII and 501 of the Rehabilitation Act, the Commission is charged with reviewing and approving federal agencies plans to affirmatively address potential discrimination before it occurs. Pursuant to such oversight responsibilities, the Commission has established systems to monitor compliance with Title VII and the Rehabilitation Act by requiring federal agencies to evaluate their employment practices through the collection and analysis of data on the race, national origin, sex and disability status of applicants for both permanent and temporary employment.

Several federal agencies (or components of such agencies) have previously obtained separate OMB approval for the use of forms collecting data on the race, national origin, sex, and disability status of applicants. In order to avoid unnecessary duplication of effort and a proliferation of forms, the EEOC seeks an extension of the approval of a common form to be used by all federal agencies.

Response by applicants is optional. The information obtained will be used by federal agencies only for evaluating

<sup>1</sup>This total is calculated as follows: 5,800 annual responses × 3 minutes per response = 17,400 minutes. 17,400/60 = 290 hours.

whether an agency's recruitment activities are effectively reaching all segments of the relevant labor pool and whether the agency's selection procedures allow all applicants to compete on a level playing field regardless of race, national origin, sex, or disability status. The voluntary responses are treated in a highly confidential manner and play no part in the job selection process. The information is not provided to any panel rating the applications, to selecting officials, to anyone who can affect the application, or to the public. Rather, the information is used in summary form to determine trends over many selections within a given occupational or organization area. No information from the form is entered into an official personnel file.

*Burden Statement:* Because of the predominant use of online application systems, which require only pointing and clicking on the selected responses, and because the form requests only eight questions regarding basic information, the EEOC estimates that an applicant can complete the form in approximately 3 minutes or less. Based on past experience, we expect that 5,800 applicants will choose to complete the form.

Upon approval of this common form by OMB, federal agencies may request OMB approval to use this common form without having to publish notices and request public comments for 60 and 30 days. Each agency must account for the burden associated with their use of the common form.

Dated: October 14, 2016.

For the Commission.

## FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0865]

### Information Collection Being Reviewed by the Federal Communications Commission

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice and request for comments.

**SUMMARY:** As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

**DATES:** Written PRA comments should be submitted on or before December 19, 2016. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

**ADDRESSES:** Direct all PRA comments to Cathy Williams, FCC, via email *PRA@fcc.gov* and to *Cathy.Williams@fcc.gov*.

**FOR FURTHER INFORMATION CONTACT:** For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

**SUPPLEMENTARY INFORMATION:**

*Type of Review:* Extension of a currently approved collection.

*Respondents:* Business or other for-profit entities, Individuals or households, Not-for-profit institutions, and State, Local or Tribal Government.

*Number of Respondents and Responses:* 62,490 respondents; 168,908 responses.

*Estimated Time per Response:* .166 hours (10 minutes)—4 hours.

*Frequency of Response:* Recordkeeping and third-party disclosure requirements; on occasion reporting requirement.

*Obligation To Respond:* Required to obtain or retain benefits. The statutory authority for this collection is contained in 47 U.S.C. 154(i) and 309(j).

*Total Annual Burden:* 88,927 hours.

*Annual Cost Burden:* None.

*Privacy Act Impact Assessment:* Yes.

*Nature and Extent of Confidentiality:* This information collection contains personally identifiable information (PII). The FCC has a system of records notice (SORN), FCC/WTB-1, "Wireless Services Licensing Records," to cover the collection, maintenance, use(s), and destruction of this PII, which respondents may provide to the FCC as

part of the information collection requirement(s). This SORN was published in the **Federal Register** on April 5, 2006 (71 FR 17234, 17269).

*Needs and Uses:* The Commission will submit this information collection to the Office of Management and Budget (OMB) as an extension after this 60 day comment period to obtain the full three-year clearance from them.

The purpose of this information collection is to continually streamline \*64498 and simplify processes for wireless applicants and licensees, who previously used a myriad of forms for various wireless services and types of requests, in order to provide the Commission information that has been collected in separate databases, each for a different group of services. Such processes have resulted in unreliable reporting, duplicate filings for the same licensees/applicants, and higher cost burdens to licensees/applicants. By streamlining the Universal Licensing System (ULS), the Commission eliminates the filing of duplicative applications for wireless carriers; increases the accuracy and reliability of licensing information; and enables all wireless applicants and licensees to file all licensing-related applications and other filings electronically, thus increasing the speed and efficiency of the application process. The ULS also benefits wireless applicants/licensees by reducing the cost of preparing applications, and speeds up the licensing process in that the Commission can introduce new entrants more quickly into this already competitive industry. Finally, ULS enhances the availability of licensing information to the public, which has access to all publicly available wireless licensing information on-line, including maps depicting a licensee's geographic service area.

Federal Communications Commission.
