The FDIC hereby gives notice of its plan to submit to OMB a request to approve the renewal of these collections, and again invites comment on this renewal.

Proposal to renew the following currently approved collections of information:

1. *Title:* Interagency Notice of Change in Control.

OMB Number: 3064-0019.

Form Number: FDIC 6822/01.

Affected Public: Insured state nonmember banks and state savings associations.

Burden Estimate:

2. *Title:* Foreign Banking and Investment by Insured State Nonmember Banks.

OMB Number: 3064-0061.

Form Number: Summary of Deposits.

Notice of Change in Control	Reporting	25	30	On Occasion	750

General Description of Collection: The *Interagency Notice of Change in Control* is submitted by any person proposing to acquire ownership control of an insured state nonmember bank. The information is used by the FDIC to determine whether the competence, experience, or integrity of any acquiring person indicates it would not be in the interest

of the depositors of the bank, or in the public interest, to permit such persons to control the bank.

There is no change in the method or substance of the collection. The overall burden remains the same. In particular, the number of respondents and the hours per response remains the same.

	Type of burden	Estimated number of respondents	Estimated time per response (hours)	Frequency of response	Total annual estimated burden (hours)
Summary of Deposits	Reporting	4,843	3	On Occasion	14,529

General Description of Collection: The Summary of Deposits (SOD) is the annual survey of branch office deposits as of June 30 for all FDIC-insured institutions, including insured U.S. branches of foreign banks. All FDIC-insured institutions that operate a main office and one or more branch locations (including limited service drive-thru locations) as of June 30 each

year are required to file the SOD Survey. Insured branches of foreign banks are also required to file. All data collected on the SOD submission are available to the public. The survey data provides a basis for measuring the competitive impact of bank mergers and has additional use in research on banking.

There is no change in the method or substance of the collection. The overall

reduction in burden hours is a result of economic fluctuation. In particular, the number of respondents has decreased while the hours per response remain the same.
