ITEM 17B: TYPE OF OPERATION

What type(s) of operation occurred at this domestic reporting unit?

If mine is under development or exploration, or maintenance is being performed, indicate method most likely to be used when production is started or resumed.

Include:

- Production, development, and exploration operations

A. What mining methods are used at this domestic reporting unit?

(Check ALL that apply.)

440 Surface (including open-pit, strip-pit, dredge, quarry, auger)

444 Underground

450 Other (including culm or silt bank, in-situ, well, brine well)

432 No mine or quarry or abandoned mine or quarry

B. What processing and/or treatment methods are used at this domestic reporting unit?

(Check ALL that apply.)

470 Agglomeration, concentration, or other treatment methods

474 Crushing, grinding, washing, evaporation, drying, calcining, flotation, air separation, expanding, sizing, screening, sawing, turning, planing, etc.

468 No processing or treatment methods

ITEM 18: DETAILED COST OF MATERIALS, PARTS, AND SUPPLIES

Of the \$,000.00 of materials, parts, and supplies in 2017, reported on **Item 16**, line A1, how much was for the following specified materials?

Report:

- Delivered cost of individual items listed below. Delivered cost is the amount paid or payable after discounts and including freight and other direct charges incurred by the domestic reporting unit in acquiring the materials. The figures reported should represent the total purchase cost of supplies, minerals received for preparation, etc., actually used or processed during 2017. Include purchases, interplant transfers, and withdrawals from inventories. **Do not combine material lines.** If the information is not directly available from your records, **reasonable estimates are acceptable.**
- Quantities in the unit of measure specified.
- Estimated quantity and cost of minerals received for processing on a custom or toll basis, as if purchased.
- Minerals mined and also processed at this domestic reporting unit.

Include:

- Minerals received from other domestic reporting units for preparation which were used or processed during 2017
- Cost of materials and supplies not covered in the pre-listed material codes (Report these in material code 00970098 - "All other supplies".)
- Supplies purchased by this domestic reporting unit for use by companies performing contract work at this domestic reporting unit

Exclude:

- Associated labor costs of the kind reported in **Item 7** and **Item 16**, line A3
- Payments made for contract services performed, including payments for supplies and equipment furnished by the contractor incidental to this work

Item 19: Fuels Used

ITEM 19: FUELS USED

Of the \$,000.00 of purchased fuels in 2017, reported on **Item 16**, line A4, how much was for the following specified fuels?

Report:

- Delivered cost of fuels received, not cost per unit. Delivered cost is the amount paid or payable after discounts, including freight and other direct charges incurred by the domestic reporting unit in acquiring the fuels. **Do not combine fuel lines.** If the information is not directly available from your records, **reasonable estimates are acceptable.**
- Quantities in the unit of measure specified.

Include:

- Fuels purchased from other companies or transferred from other domestic reporting units of your company and used at this domestic reporting unit for the production of heat, power, or generated electricity. The fuels transferred from other domestic reporting units of your company should be estimated at market value.
- Cost of fuels not cover in the pre-listed fuel codes (Report these in fuel code 00960018 - "Other fuels".)

14. Wholesaling services for nonmetallic minerals, except crude petroleum and minerals used in construction and fertilizer	<input type="checkbox"/>	4003525000

Of the \$,000.00 of Sales, Shipments, Receipts, or Revenue reported in **Item 5**, what was the value for each product or service?

The U.S. Geological Survey, U.S. Department of the Interior, generally collects detailed figures on the mineral products listed here. This item provides only Summary figures which will serve to relate the statistics compiled from the Economic Census of Mineral Industries to the statistics compiled by the U.S. Geological Survey.

Do not combine product lines. If the information is not directly available from your records, **reasonable estimates are acceptable.**

Report:

- The value of the products shipped and services performed at the net selling value, free on board (FOB) quarry or plant to customer, after discounts or allowances. Note: Short tons equal to 2,000 pounds.
- Quantities in the unit of measure specified.

Include:

- All products mined, quarried, or extracted from this domestic reporting unit
- Material withdrawn from stockpiles
- Products shipped on consignment
- Prepared minerals from crude materials mined at this domestic reporting unit, purchased, or received from other domestic reporting units of your company
- Concentrated ores, metals, and agglomerates from ores mined at this domestic reporting unit, or purchased or received from other domestic reporting units of your company
- Estimated value of products treated on a custom or toll basis
- Products transferred to other domestic reporting units of your company for treatment, preparation, milling, or other use
- Bonuses or other credits for minerals contained, as well as royalties
- Quantity of production of crude ore mined for treatment at this domestic reporting unit

Exclude:

- Penalties for impurities
- Wholesaling products (previously **Resales**), which include products that are bought from other domestic reporting units or transferred from other domestic reporting units of your company and then **sold without further treatment, processing, preparation, or milling** by this domestic reporting unit. Report these products in the appropriate Wholesaling product line(s) you selected or else describe and report them in the "All other sales, shipments, receipts, or revenue from this domestic reporting unit" section at the end of this item.
- Freight charged
- Excise taxes

ITEM 26: BUSINESS COOPERATIVE

A cooperative is a business or organization owned by, controlled by, and operated for the benefit of members using its services. Members (also known as user-owners) benefit from use of service and product operations and/or earnings generated by the co-op. This includes purchasing co-ops, member/patron organizations, member-controlled non-profits, consumer co-ops, marketing co-ops, worker co-ops, etc.

Is this domestic reporting unit a cooperative?

Yes

No

DEFINITION OF DOMESTIC REPORTING UNIT

The reporting unit for this questionnaire is a mineral **domestic reporting unit** which is a location where mineral operations are performed. It represents a working or group of workings at a given locality in which operations are conducted as a unit or are unified by common management or joint handling of some parts of the mining or concentration process.

Of the \$,000.00 of Sales, Shipments, Receipts, or Revenue reported in **Item 5**, what was the value for each product or service?

The U.S. Geological Survey, U.S. Department of the Interior, generally collects detailed figures on the mineral products listed here. This item provides only Summary figures which will serve to relate the statistics compiled from the Economic Census of Mineral Industries to the statistics compiled by the U.S. Geological Survey.

Do not combine product lines. If the information is not directly available from your records, **reasonable estimates are acceptable.**

Report:

- The value of the products shipped and services performed at the net selling value, free on board (FOB) quarry or plant to customer, after discounts or allowances. Note: Short tons equal to 2,000 pounds.
- Quantities in the unit of measure specified.

Include:

- All products mined, quarried, or extracted from this domestic reporting unit
- Material withdrawn from stockpiles
- Products shipped on consignment
- Prepared minerals from crude materials mined at this domestic reporting unit, purchased, or received from other domestic reporting units of your company
- Concentrated ores, metals, and agglomerates from ores mined at this domestic reporting unit, or purchased or received from other domestic reporting units of your company
- Estimated value of products treated on a custom or toll basis
- Products transferred to other domestic reporting units of your company for treatment, preparation, milling, or other use
- Bonuses or other credits for minerals contained, as well as royalties
- Quantity of production of crude ore mined for treatment at this domestic reporting unit

Exclude:

- Penalties for impurities
- Wholesaling products (previously **Resales**), which include products that are bought from other domestic reporting units or transferred from other domestic reporting units of your company and then **sold without further treatment, processing, preparation, or milling** by this domestic reporting unit. Report these products in the appropriate Wholesaling product line(s) you selected or else describe and report them in the "All other sales, shipments, receipts, or revenue from this domestic reporting unit" section at the end of this item.
- Freight charged
- Excise taxes

ITEM 13: CAPITAL EXPENDITURES

Report the actual outlays during 2017, not the final value of buildings or other structures completed or equipment put in place during the year. These expenditures are of the type for which depreciation or amortization accounts are ordinarily maintained.

Capital expenditures during 2017 may be determined by the following computation:

- (a) Cost of additions completed during the year, plus
- (b) Work-in-progress at the end of the year, minus
- (c) Work-in-progress at the beginning of the year.

Include labor and installation costs whether on contract or by your own forces

Exclude the cost of maintenance and repairs charged as current operating expense

A. What were the capital expenditures for new and used buildings, structures, machinery, and equipment for this domestic reporting unit?

Include:

- Buildings and structures directly related to mineral exploration, development, and production
- Machinery, such as hoists, cranes, crushers, separators, and power plants
- Exploration, development, production, and processing plant machinery
- Value of the equipment produced and used
- All mining loading, transportation, and similar equipment for use at mines
- Equipment such as excavators, loaders, locomotives, tractors, hoists, drills, compressors, pumps
- Transportation equipment, such as automobiles, trucks, and similar equipment
- Office equipment, such as computers and peripheral data processing equipment, as well as furniture and fixtures for offices, cafeterias, and change rooms
- Replacements as well as additions to new capacity
- Values from construction by your own employees, where capitalized
- Value of improvements and capitalized repairs to machinery and equipment including those done to assets transferred from other domestic reporting units of this company
- Expenditures for old or existing plants and for second-hand equipment acquired from others (including U.S. Government)
- Gross book value of machinery or equipment transferred from other domestic reporting units of your company

Exclude:

- Company houses and general recreational facilities
- Value of land
- Cost of maintenance and repairs charged as current operating expense

ITEM 14: RENTAL PAYMENTS

Report rental payments made to other companies for use of depreciable assets such as buildings, other structures, machinery, and equipment. Include rental payments for land. Domestic reporting units involved with leasing arrangements for equipment and/or buildings, report lease equipment according to the type of lease negotiated with the producer or the lessor.

Include:

- Operating leases (Report the periodic payments made to the producer or lessor.)

Exclude:

- Capital leases (leases with a contract to own at the end of the lease) (Report cost, at market value, of acquisitions of building and equipment during the year as a capital expenditure, **Item 13**.)

At this domestic reporting unit, what were the payments for:

A. Rental or lease of buildings and other structures?

Include:

- Job-site trailers
- Land on which the buildings and other structures stand

ITEM 18: DETAILED COST OF MATERIALS, PARTS, AND SUPPLIES

Of the \$,000.00 of materials, parts, and supplies in 2017, reported on **Item 16**, line A1, how much was for the following specified materials?

Report:

- Delivered cost of individual items listed below. Delivered cost is the amount paid or payable after discounts and including freight and other direct charges incurred by the domestic reporting unit in acquiring the materials. The figures reported should represent the total purchase cost of supplies, minerals received for preparation, etc., actually used or processed during 2017. Include purchases, interplant transfers, and withdrawals from inventories. **Do not combine material lines.** If the information is not directly available from your records, **reasonable estimates are acceptable.**
- Quantities in the unit of measure specified.
- Estimated quantity and cost of minerals received for processing on a custom or toll basis, as if purchased.
- Minerals mined and also processed at this domestic reporting unit.

Include:

- Minerals received from other domestic reporting units for preparation which were used or processed during 2017
- Cost of materials and supplies not covered in the pre-listed material codes (Report these in material code 00970098 - "All other supplies".)
- Supplies purchased by this domestic reporting unit for use by companies performing contract work at this domestic reporting unit

Exclude:

- Associated labor costs of the kind reported in **Item 7** and **Item 16**, line A3
- Payments made for contract services performed, including payments for supplies and equipment furnished by the contractor incidental to this work

ITEM 19: FUELS USED

Of the \$,000.00 of purchased fuels in 2017, reported on **Item 16**, line A4, how much was for the following specified fuels?

Report:

- Delivered cost of fuels received, not cost per unit. Delivered cost is the amount paid or payable after discounts, including freight and other direct charges incurred by the domestic reporting unit in acquiring the fuels. **Do not combine fuel lines.** If the information is not directly available from your records, **reasonable estimates are acceptable.**
- Quantities in the unit of measure specified.

Include:

- Fuels purchased from other companies or transferred from other domestic reporting units of your company and used at this domestic reporting unit for the production of heat, power, or generated electricity. The fuels transferred from other domestic reporting units of your company should be estimated at market value.

9. Transportation of dry bulks, except in intermodal containers, by road	<input type="checkbox"/>	7011325000

Of the \$,000.00 of Sales, Shipments, Receipts, or Revenue reported in **Item 5**, what was the value for each product or service?

The U.S. Geological Survey, U.S. Department of the Interior, generally collects detailed figures on the mineral products listed here. This item provides only Summary figures which will serve to relate the statistics compiled from the Economic Census of Mineral Industries to the statistics compiled by the U.S. Geological Survey.

Do not combine product lines. If the information is not directly available from your records, **reasonable estimates are acceptable.**

Report:

- The value of the products shipped and services performed at the net selling value, free on board (FOB) quarry or plant to customer, after discounts or allowances. Note: Short tons equal to 2,000 pounds.
- Quantities in the unit of measure specified.

Include:

- All products mined, quarried, or extracted from this domestic reporting unit
- Material withdrawn from stockpiles
- Products shipped on consignment
- Prepared minerals from crude materials mined at this domestic reporting unit, purchased, or received from other domestic reporting units of your company
- Concentrated ores, metals, and agglomerates from ores mined at this domestic reporting unit, or purchased or received from other domestic reporting units of your company
- Estimated value of products treated on a custom or toll basis
- Products transferred to other domestic reporting units of your company for treatment, preparation, milling, or other use
- Bonuses or other credits for minerals contained, as well as royalties
- Quantity of production of crude ore mined for treatment at this domestic reporting unit

Exclude:

- Penalties for impurities
- Wholesaling products (previously **Resales**), which include products that are bought from other domestic reporting units or transferred from other domestic reporting units of your company and then **sold without further treatment, processing, preparation, or milling** by this domestic reporting unit. Report these products in the appropriate Wholesaling product line(s) you selected or else describe and report them in the "All other sales, shipments, receipts, or revenue from this domestic reporting unit" section at the end of this item.
- Freight charged
- Excise taxes

ITEM 17B: TYPE OF OPERATION

What type(s) of operation occurred at this domestic reporting unit?

If mine is under development or exploration, or maintenance is being performed, indicate method most likely to be used when production is started or resumed.

Include:

- Production, development, and exploration operations

A. What mining methods are used at this domestic reporting unit?

(Check ALL that apply.)

440 Surface (including open-pit, strip-pit, dredge, quarry, auger)

444 Underground

450 Other (including culm or silt bank, in-situ, well, brine well)

432 No mine or quarry or abandoned mine or quarry

B. What processing and/or treatment methods are used at this domestic reporting unit?

(Check ALL that apply.)

470 Agglomeration, concentration, or other treatment methods

474 Crushing, grinding, washing, evaporation, drying, calcining, flotation, air separation, expanding, sizing, screening, sawing, turning, planing, etc.

468 No processing or treatment methods

ITEM 18: DETAILED COST OF MATERIALS, PARTS, AND SUPPLIES

Of the \$,000.00 of materials, parts, and supplies in 2017, reported on **Item 16**, line A1, how much was for the following specified materials?

Report:

- Delivered cost of individual items listed below. Delivered cost is the amount paid or payable after discounts and including freight and other direct charges incurred by the domestic reporting unit in acquiring the materials. The figures reported should represent the total purchase cost of supplies, minerals received for preparation, etc., actually used or processed during 2017. Include purchases, interplant transfers, and withdrawals from inventories. **Do not combine material lines.** If the information is not directly available from your records, **reasonable estimates are acceptable.**
- Quantities in the unit of measure specified.
- Estimated quantity and cost of minerals received for processing on a custom or toll basis, as if purchased.
- Minerals mined and also processed at this domestic reporting unit.

Include:

- Minerals received from other domestic reporting units for preparation which were used or processed during 2017
- Cost of materials and supplies not covered in the pre-listed material codes (Report these in material code 00970098 - "All other supplies".)
- Supplies purchased by this domestic reporting unit for use by companies performing contract work at this domestic reporting unit

Exclude:

- Associated labor costs of the kind reported in **Item 7** and **Item 16**, line A3
- Payments made for contract services performed, including payments for supplies and equipment furnished by the contractor incidental to this work

Item 19: Fuels Used

ITEM 19: FUELS USED

Of the \$,000.00 of purchased fuels in 2017, reported on **Item 16**, line A4, how much was for the following specified fuels?

Report:

- Delivered cost of fuels received, not cost per unit. Delivered cost is the amount paid or payable after discounts, including freight and other direct charges incurred by the domestic reporting unit in acquiring the fuels. **Do not combine fuel lines.** If the information is not directly available from your records, **reasonable estimates are acceptable.**
- Quantities in the unit of measure specified.

Include:

- Fuels purchased from other companies or transferred from other domestic reporting units of your company and used at this domestic reporting unit for the production of heat, power, or generated electricity. The fuels transferred from other domestic reporting units of your company should be estimated at market value.
- Cost of fuels not cover in the pre-listed fuel codes (Report these in fuel code 00960018 - "Other fuels".)

Description	Census Fuel Code	Unit of Measure	Quantity Consumed	Cost, including delivery cost (freight-in)

ITEM 22: DETAIL OF SALES, SHIPMENTS, RECEIPTS OR REVENUE

Of the **\$,000.00** of Sales, Shipments, Receipts, or Revenue reported in **Item 5**, what products and services were included?

Select ALL that apply.

The mined products and services listed below are generally produced in your industry. They include products shipped and services performed by this domestic reporting unit. Select the items that apply to your domestic reporting unit. If you mine products or have revenue from other sources not listed, you will report them in the next section.

1. Mining of crude and prepared phosphate rock, including crude ore or matrix, washed, concentrated, dried, calcined, sintered or nodulized	<input type="checkbox"/>	1000875000
2. Mining and/or beneficiation of all other nonmetallic minerals, including natural abrasives, shell and native asphalt and bitumens	<input type="checkbox"/>	1001075000
3. Open-pit or quarry nonmetallic minerals mining not for your own account	<input type="checkbox"/>	1002150000
4. Nonmetallic mineral prospect services and test drilling services	<input type="checkbox"/>	1002175000
5. Other nonmetallic mineral services, including overburden stripping, drilling services, blasting, and repair and maintenance services	<input type="checkbox"/>	1002200000
All other sales, shipments, receipts, or revenue from this domestic reporting unit		
6. Wholesaling services for nonmetallic minerals, except crude petroleum and minerals used in construction and fertilizer	<input type="checkbox"/>	4003525000
7. Transportation of dry bulks, except in intermodal containers, by road	<input type="checkbox"/>	7011325000

Of the \$,000.00 of Sales, Shipments, Receipts, or Revenue reported in **Item 5**, what was the value for each product or service?

The U.S. Geological Survey, U.S. Department of the Interior, generally collects detailed figures on the mineral products listed here. This item provides only Summary figures which will serve to relate the statistics compiled from the Economic Census of Mineral Industries to the statistics compiled by the U.S. Geological Survey.

Do not combine product lines. If the information is not directly available from your records, **reasonable estimates are acceptable.**

Report:

- The value of the products shipped and services performed at the net selling value, free on board (FOB) quarry or plant to customer, after discounts or allowances. Note: Short tons equal to 2,000 pounds.
- Quantities in the unit of measure specified.

Include:

- All products mined, quarried, or extracted from this domestic reporting unit
- Material withdrawn from stockpiles
- Products shipped on consignment
- Prepared minerals from crude materials mined at this domestic reporting unit, purchased, or received from other domestic reporting units of your company
- Concentrated ores, metals, and agglomerates from ores mined at this domestic reporting unit, or purchased or received from other domestic reporting units of your company
- Estimated value of products treated on a custom or toll basis
- Products transferred to other domestic reporting units of your company for treatment, preparation, milling, or other use
- Bonuses or other credits for minerals contained, as well as royalties
- Quantity of production of crude ore mined for treatment at this domestic reporting unit

Exclude:

- Penalties for impurities
- Wholesaling products (previously **Resales**), which include products that are bought from other domestic reporting units or transferred from other domestic reporting units of your company and then **sold without further treatment, processing, preparation, or milling** by this domestic reporting unit. Report these products in the appropriate Wholesaling product line(s) you selected or else describe and report them in the "All other sales, shipments, receipts, or revenue from this domestic reporting unit" section at the end of this item.
- Freight charged
- Excise taxes

ITEM 26: BUSINESS COOPERATIVE

A cooperative is a business or organization owned by, controlled by, and operated for the benefit of members using its services. Members (also known as user-owners) benefit from use of service and product operations and/or earnings generated by the co-op. This includes purchasing co-ops, member/patron organizations, member-controlled non-profits, consumer co-ops, marketing co-ops, worker co-ops, etc.

Is this domestic reporting unit a cooperative?

Yes

No

ITEM 28: SPECIAL INQUIRIES

1. What was this domestic reporting unit's water intake in 2017, that is, the quantity of new water introduced into the domestic reporting unit for the first time, regardless of source or quality?

Include water used in the production process and auxiliary operations (such as cooling and condensing, boiler feed, sanitary and domestic use). Report to the nearest thousand.

 ,000 gallons

2. Did this domestic reporting unit recirculate or reuse any water during 2017?

Yes

No

ITEM 28: SPECIAL INQUIRIES

What was this domestic reporting unit's gross water use in 2017, that is, the quantity of water that would have been required if no water had been recirculated or reused?

For example, if total water intake was 500 million gallons and, of these 500 million gallons, 100 million gallons were used twice for cooling purposes and once for washing products or materials, the total water required would be 300 million gallons, plus the 400 million gallons not recirculated, for a total of 700 million gallons of gross water use (less consumption and evaporation loss). Report to the nearest thousand.

,000 gallons

ITEM 28: SPECIAL INQUIRIES

What was this domestic reporting unit's main source of new water in 2017? **Select only ONE.**

Public water system includes water supplied by a water utility (whether municipally- or privately-owned) whose primary purpose is the supply of water to the general public and/or industrial users. *Self-supplied water systems* include water obtained by this domestic reporting unit through its own system of pumps, pipes, hoses, etc. Also include here water obtained from another company that is not primarily a water utility.

- Public water system (municipally- or privately-owned utility)
- Self-supplied surface water system (rivers, streams, lakes)
- Self-supplied ground water system (wells, deep springs)
- Self-supplied tide water system (estuaries, bays, oceans)
- Self-supplied mine water (underground mines, quarries, open pits, water produced with oil)
- Other sources (e.g., rainwater, truck deliveries)

ITEM 28: SPECIAL INQUIRIES

Which of the following types of water was mainly supplied by the public water system? **Select only ONE.**

- Potable
- Reclaimed wastewater
