Antidumping Duty Orders, 79 FR 71741, 71741–71742 (December 3, 2014) (“*Non-Oriented Electrical Steel from the People’s Republic of China, Germany, Japan, the Republic of Korea, Sweden, and Taiwan*”). The orders define NOES as “cold-rolled, flat-rolled, alloy steel products, whether or not in coils, regardless of width, having an actual thickness of 0.20 mm or more, in which the core loss is substantially equal in any direction of magnetization in the plane of the material. The term ‘substantially equal’ means that the cross grain direction of core loss is no more than 1.5 times the straight grain direction (*i.e.*, the rolling direction) of core loss. NOES has a magnetic permeability that does not exceed 1.65 Tesla when tested at a field of 800 A/m (equivalent to 10 Oersteds) along (*i.e.*, parallel to) the rolling direction of the sheet (*i.e.*, B800 value). NOES contains by weight more than 1.00 percent of silicon but less than 3.5 percent of silicon, not more than 0.08 percent of carbon, and not more than 1.5 percent of aluminum. Title: Chesapeake Bay Watershed Environmental Literacy Indicator Tool.

OMB Control Number: 0648-xxxx.

Form Number(s): None.

Type of Request: Regular (request for a new information collection).

Number of Respondents: 503.

Average Hours per Response: 90 minutes.

Burden Hours: 528, annualized.

Needs and Uses: This request is for a new information collection.

The Chesapeake Bay Watershed Agreement of 2014 requires monitoring of progress towards the environmental literacy goal: "Enable students in the region to graduate with the knowledge and skills needed to act responsibly to protect and restore their local watersheds." The National Oceanic and Atmospheric Administration (NOAA), on behalf of the Chesapeake Bay Program, will ask the state education agencies for Maryland, Pennsylvania, Delaware, Virginia, West Virginia, and the District of Columbia to survey their local education agencies (LEAs) to determine: (1) LEA capacity to implement a comprehensive and systemic approach to environmental literacy education, (2) student participation in Meaningful Watershed Educational Experiences during the school year, (3) sustainability practices at schools, and (4) LEA needs for improving environmental literacy education programming. LEAs (generally school districts, in some cases charter school administration) are asked to complete the survey on the status of their LEA on a set of key indicators for the four areas listed above. One individual from each LEA is asked to complete this survey once every two years.

Affected Public: State, local or tribal government.

Frequency: Biennially.

Respondent's Obligation: Voluntary.

Atlantic Highly Migratory Species; Exempted Fishing Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: On November 16, 2016, NMFS published a Notice of Intent (NOI) announcing our intent to issue exempted fishing permits (EFPs), scientific research permits (SRPs), letters of acknowledgement (LOAs), and display permits for research regarding highly migratory species (HMS) in 2017. In the NOI, NMFS requested comments regarding the issuance of EFPs and LOAs for HMS research. In general, EFPs and related permits would authorize collection of a limited number of tunas, swordfish, billfishes, and sharks from Federal waters in the Atlantic Ocean, Caribbean Sea, and Gulf of Mexico for the purposes of scientific data collection and public display. Comments were accepted on the NOI until December 16, 2016, and many of the comments received were related to white shark research and the need to provide additional opportunity for public review of such research before permits are issued. In this notice, NMFS summarizes public comments received on the initial NOI, and announces the receipt of applications for permits under the EFP program to conduct research on white sharks during 2017. NMFS invites additional public comment on these requests.

DATES: Written comments must be received on or before April 3, 2017.

ADDRESSES: Comments may be submitted by either of the following methods:
