

Attachment C: Electronic File Development

Form Approved
OMB No. 0920-1030
Exp. Date 04/30/2020

NOTICE – CDC estimates the average public reporting burden for this collection of information as 60 minutes per response, including the time for reviewing instructions, searching existing data/information sources, gathering and maintaining the data/information needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-1030).

Assurance of Confidentiality – We take your privacy very seriously. All information that relates to or describes identifiable characteristics of individuals, a practice, or an establishment will be used only for statistical purposes. NCHS staff, contractors, and agents will not disclose or release responses in identifiable form without the consent of the individual or establishment in accordance with section 308(d) of the Public Health Service Act (42 U.S.C. 242m(d)) and the Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA, Title 5 of Public Law 107-347). In accordance with CIPSEA, every NCHS employee, contractor, and agent has taken an oath and is subject to a jail term of up to five years, a fine of up to \$250,000, or both if he or she willfully discloses ANY identifiable information about you.

Respondents will develop an electronic listing of the licensed residential care facilities (preferably in Excel format) for which the agency is responsible, if such files with the needed variables are not downloadable from the state's website.

Formats other than Excel can be negotiated on a case-by-cases basis, if an individual state cannot provide its file in Excel or doing so would be too burdensome on the state.

Encrypted files will be sent to NCHS via mail or electronically through a secure password-protected website to ensure the confidentiality of the data.

We will provide states with the specifications on what variables we need in the files. Variables needed include the name, address, phone number, and website (if available) of the residential care facility; name, phone number, and email address (if available) of facility director; licensure category; chain affiliation; ownership type; and bed size.

We expect this to take on average 1 hour.
