

Dear Interviewer,

Thank you for using the Cyclosporiasis National Hypothesis Generating Questionnaire (CNHGQ). Before the survey questions begin you will be asked to confirm that the interviewee has a laboratory-confirmed case of cyclosporiasis, and provide information about yourself (the interviewer) and whether the case-patient has been previously interviewed about his/her illness. You will begin reading the survey question prompts to the case-patient on the page entitled "Section 1: Demographic Information."

PLEASE NOTE: if you elect to save and "Finish later" and then "Exit Survey", you must use the URL and passcode provided to re-enter the survey. Do not click "Begin Survey" on the survey homepage as this will begin an entirely new survey and you will not see any previously recorded responses.

To obtain a PDF of your survey responses press "Print" before "Submit Survey" on the last page.

For technical assistance with this survey please contact the Cyclosporiasis Surveillance Coordinator at parasites@cdc.gov or (404) 718-1057.

Thank you for your participation in this cyclosporiasis investigation.

Section 1: Demographic Data

Hello, my name is [state your name]. I am from [state your health department]. We are contacting you because of your recent infection with Cyclospora, which is a parasite that causes intestinal illness. We are trying to determine how you and others became infected with Cyclospora so we can prevent others from getting sick.

You may have already been contacted by someone at the health department, but I would like to ask you questions in a standard way about your illness, and about any travel you may have had or foods you may have eaten before becoming ill. The interview will take about 20 minutes. Your help in the investigation is very important. Your participation is voluntary, and you may refuse to answer any question at any time. All information you give will be kept confidential to the extent permitted by law. No individual names or other identifying information will be used in any official reports about the results of the investigation.

Are you willing to participate in this investigation?

If yes: Most of the questions relate to the 2-week period before you became ill. Therefore, it may help to have a calendar nearby. Do you need a few moments to get one? [Then proceed to start of interview]

If no: Thank you for your time.

I'd like to begin by asking a few questions about you (your child) and your household.

What are your state, county, and zip code? _____

1. State <input type="text"/>	2. County <input type="text"/>	3. Zip Code <input type="text"/>

7. How would you describe your race? <input type="text"/>	7a. If other, specify: <input type="text"/>
---	---

8. Hispanic or Latino origin <input type="text"/>

Section 2: Clinical Information

Now I have a few questions about your (your child's) illness.

9. What date did you (your child) first feel sick? Unknown

10. Did you (your child) have any diarrhea (defined as loose or watery stools that you do not normally have)?

10a. What date did it start? Unknown

11. Has your (your child's) diarrhea stopped?

11a. What date did it stop?

12. Have your (your child's) other symptoms stopped?

12a. What date did they stop?

13. Were you (your child) hospitalized overnight?

13a. How many nights were you (your child) hospitalized?

13b. Hospital name: 13c. Date hospitalized:

14. Have you (has your child) submitted a stool specimen for Cyclospora testing?

14a. If yes, what was the date of stool collection?

14b. If known, what was the result of the test for Cyclospora?

14c. Additional information on stool specimen (e.g., patient has appointment to submit stool).

If multiple stools were submitted, include information on those specimens below. If multiple stools were submitted and only one was positive for Cyclospora, include the information on the positive result above in questions 14a-b

Section 3: Travel and Events

Next I have a couple of questions, if applicable, about any travel you (your child) might have done or events you (your child) might have attended during the 14 days before onset of illness. The travel or events could have been part of your work or for pleasure.

15. Did you (your child) spend all, or some, of the 14 days before becoming ill outside your home state?

If yes,

15a. List all US cities and states where you (your child) might have purchased or eaten foods. This includes airports, bus or train stations.

3.	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

15c. If you (your child) traveled with others, do you know of any travel partners who may have become ill?

15d. If yes, please provide information for other ill person(s) including number of ill persons and relationship to you (e.g. son, mother, neighbor, friend, etc.)*.

***Note: Please DO NOT enter names or other personally identifiable information in this form; State IDs to reference ill contacts are acceptable.**

Section 3: Travel and Events (Continued from previous page.)

16. Did you (your child) attend any events where food was served (e.g., parties, fairs, concerts, tournaments, conventions)?

If yes,

16a. Please list the name of the event(s), date(s), and locations (s).

16b. Do you know of any other ill person(s) who attended the event(s)?

16c. If yes, please provide information for other ill person(s) including number of ill persons and relationship to you (e.g. son, mother, neighbor, friend, etc.)*.

****Note: Please DO NOT enter names or other personally identifiable information in this form; State IDs to reference ill contacts are acceptable.***

Additional Comments

Note to Interviewer: Does the interviewee meet the case definition for this outbreak, (if applicable)? Consider whether the person has a laboratory-confirmed cyclosporiasis case, the date of onset of illness, and travel history during the 14 days before onset of illness.

If yes, continue with interview.

If no, thank the interviewee for his/her time and end the interview.

Section 4: Sources of food at home

Now I have a few questions about where the food came from that you ate at home during the 14 days before your illness began. This isn't necessarily where you shopped during that week, but where what you actually ate came from. This does not include take-out foods, which I will ask about next.

I'm going to list several types of stores; for each type please tell me the names of each store from which you would have eaten food during the 14 days before you became sick. This does NOT include take-out food.

Section 12: Other Ill Persons

74. We are trying to identify other cases of illness similar to yours. Do you know anyone else (for example, a family member, friend, co-worker, neighbor, church/temple/mosque member, health club or other club member) whom you have NOT already told me about who has been ill recently with a similar illness?

74a. If yes, please provide information for other ill person(s) including number of ill persons and relationship to you (e.g. son, mother, neighbor, friend, etc.).

Note: Please DO NOT enter names or other personally identifiable information in this form; State IDs to reference ill contacts are acceptable.

This is the end of the questionnaire. Thank you very much for your time. These interviews are extremely valuable in helping us understand how and why people are getting sick. Depending on what we find out when we put these interviews together, we may need to talk to you again about a few details.

Would you like to provide any additional thoughts or perspective about anything we've discussed or about this outbreak investigation?
