Cyclosporiasis National Hypothesis Generating Questionnaire (CNHGQ)

Public reporting of this collection of information is estimated to average 45 minutes per response, including the time for reviewing instructions and completing and reviewing the collection of information. An agency many not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a current valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (XXXX-XXXX)

Begin Interview

Self

8. Respondent of previous interview was

Parent

8a. If other, specify: _____

Hello, my name is [state your name]. I am from [state your health department]. We are contacting you because of your recent infection with Cyclospora, which is a parasite that causes intestinal illness. We are trying to determine how people become infected with Cyclospora so we can prevent others from getting sick.

Other

Spouse

You may have already been contacted by someone at the health department, but I would like to ask you questions in a standard way about your illness, and about any travel you may have had or foods you may have eaten before becoming ill. The interview will take about 20 minutes. Your help in the investigation is very important. Your participation is voluntary, and you may refuse to answer any question at any time. All information you give will be kept confidential to the extent permitted by law. No individual names or other identifying information will be used in any official reports about the results of the investigation.

Are you willing to participate in this investigation?

If yes: Most of the questions relate to the 2-week period before you became ill. Therefore, it may help to have a calendar nearby. Do you need a few moments to get one? [Then proceed to start of interview]

If no: Thank you for your time.

Section 1: Demographic Data

I'd like to be	gin by asking a few	questions abou	t you (your child)	and your hou	sehold.	
1. State	2. County		3. Zip Code

Section 6: Fresh berries

Now I have some questions about fresh berries, not canned, cooked, or frozen, you (your child) might have eaten during the 14 days before your illness began. You could have eaten these either in your home or away from home. I am only interested in fresh berries that were not grown at home. As I mention each food item, please answer as yes, no, may have eaten, or can't remember eating the food during the 14 days before you got sick. Please remember that berries are often served as garnishes on top of or on the sides of salads and desserts.

19. Did you (your child) eat any fresh red raspberri	es? Yes	Maybe	No	Don't know
If eaten at home, what was the:				
19a. Brand(s)				Unknown
19b. Place(s) and date(s) of purchase				Unknown
Not applicable (did not eat at home)				
If eaten outside the home, what was the:				
19c. List name(s) of establishment(s)				Unknown
