Now please think about the past 30 days. According to the calendar [DATEFILL] was 30 days ago. That will be your 30-day reference date, and can be found in blue on the calendar. The entire 30-day period is highlighted in yellow.

PROGRAMMER: Fill date on 30 day reference date field and highlight the 30-day reference date. CIRCLE DAY; HIGHLIGHT ENTIRE 30-DAY PERIOD. MAKE TEXT THAT SAYS 'BLUE' BLUE IN COLOR.

calend3m Some questions will ask about the past 3 months. According to the calendar [DATEFILL] was 3 months ago. That will be your 3 month reference date and can be found in orange on the calendar.

CIRCLE DAY; MAKE TEXT THAT SAYS 'ORANGE' ORANGE IN COLOR.

CALENDPY A number of questions will ask about the past 12 months, that is since this date last year. According to the calendar [DATEFILL] was 12 months ago. That will be your 12-month reference date and can be found in red on the calendar. Today's date can be found in green.

PROGRAMMER: Fill date on 12 month reference date field and highlight the 12 month reference date. CIRCLE DAY. MAKE TEXT THAT SAYS 'RED' RED IN COLOR AND THE SAME FOR GREEN TEXT.

CALENDR2 Please use the calendar as you go through the interview to help you remember when different things happened. Marijuana

MRJINTRO The next questions are about marijuana and hashish. Marijuana is also called pot or grass. Marijuana is usually smoked, either in cigarettes, called joints, or in a pipe. It is sometimes cooked in food. Hashish is a form of marijuana that is also called “hash.” It is usually smoked in a pipe. Another form of hashish is hash oil. cannabis products, sometimes called pot, weed, hashish, or concentrates. Some of the ways these products can be used are smoking (such as in joints, pipes, bong, blunts, or hookahs), vaping (using vape pens, tabletop vaporizers, or portable vaporizers), dabbing, eating or drinking, or applying as a lotion.

Please consider all of these products when you answer the following questions.

Inhalants

INHINTRO These next questions are about inhalants. Inhalants are liquids, sprays, and gases that people sniff, huff, or inhale for fun or to get high or to make them feel good.

We are not interested in times when you inhaled a substance accidentally — such as when painting, cleaning an oven, or filling a car with gasoline.

The questions use the word ‘inhalant’ to include all the things listed below, as well as any other substances that people sniff or inhale for kicks or to get high. Take a moment to look at the substances listed below so you know what kinds of liquids, sprays, and gases these questions are about.

Amyl nitrite, ‘poppers,’ locker room odorizers, or ‘rush’
Correction fluid, degreaser, or cleaning fluid
Gasoline or lighter fluid
Glue, shoe polish, or toluene
Halothane, ether, or other anesthetics
Lacquer thinner, or other paint solvents
Lighter gases, such as butane or propane
Nitrous oxide or ‘whippits’
Felt tip pens, felt tip markers, or magic markers
Spray paints
Computer keyboard cleaner, also known as air duster
Other aerosol sprays

Hallucinogens

HALINTRO The next questions are about substances called hallucinogens. These drugs often cause people to see or experience things that are not real. They can be swallowed, inhaled, snorted, injected or placed under the tongue. They cause people to see, feel, or experience things that are not real.

A list of some common hallucinogens is shown below. These and many other substances that people use as hallucinogens are often known by street names, and we can't list them all. Please take a moment to look at the substances listed below so you know what kind of drugs the next questions are about.
