Things To Remember When Determining Your Amount of Reimbursement

- Federally Reimbursable Interim Assistance (IA) is assistance from State or local funds to an individual for meeting basic needs during the period beginning with the first month for which such individual received an SSI dollar amount payment; or, beginning with the first day for which the individual's benefits were suspended or terminated, if the individual was subsequently found to have been eligible for such payments, and paid an SSI dollar amount ending with (and including) the month payment is made.
- You may recoup the assistance you paid for any month in a period as defined above for which both SSI and IA payments were made. You may not recoup for any months prior to the month in which you began paying IA in this period. If a month is not listed in the "Retroactive Amount Due Summary" you cannot recoup the assistance you paid for that month. However, if you have prepared and cannot stop delivery of the last assistance payment that you made to an individual when you receive this notice from SSA, you may recoup that assistance payment even though it is not listed in the "Retroactive Amount Due Summary."

- In cases where SSI payments were prorated, you must prorate the amount you recover for that month. You may only recoup the prorated amount of the full IA payable for that month. A month's amount is prorated if the day is other than the first of the month.
- Assistance payments financed in whole or part from Federal funds (e.g., TANF) do not come within the meaning of interim assistance.
