NOTICES

Privacy Act Statement

Authority: 16 U.S.C. 1, National Park Service Organic Act; 16 U.S.C. 3, Rules and regulations of national parks, reservations, and monuments; timber; leases; 16 U.S.C. 5935, National Parks Omnibus Management Act.

Purpose: The two primary uses of the records maintained in the system are to administer scientific research and collecting within units of the National Park System, and to make Investigator's Annual Reports available to the public.

Routine Uses: In addition to those disclosures generally permitted under 5 U.S.C.552a(b) of the Privacy Act, records or information contained in this system may be disclosed outside DOI as a routine use pursuant to 5 U.S.C. 552a(b)(3) to other federal, state, local, tribal or foreign governments and organizations, and members of the general public based on an authorized routine use when the disclosure is compatible with the purpose for which the records were compiled as described under the system of records notice for this system.

Disclosure: Voluntary, however, the Investigator's Annual Report is required as a general condition of each permit issued; failure to provide the requested information may impede the processing and publication of the Investigator's Annual Report and the processing of associated permit renewal requests.

Paperwork Reduction Act Statement

We are collecting this information subject to the Paperwork Reduction Act (44 U.S.C. 3501) and National Parks Omnibus Management Act of 1998 (NPOMA, Sections 201 (4), 201 (5), and 205 which govern the use of parks for study to benefit park management and broader science, and also publication of information derived from studies conducted in the National Park System. Scientific research, education and collecting activities within units of the National Park System that may impact parks invoke a permitting and reporting requirement per regulations at 36 CFR 1.6 (Permits), 36 CFR 2.1 (Preservation of Natural, Cultural and Archeological Resources), and 36 CFR 2.5 (Research Specimens). The National Park Service collects information about permit applicants and permittees to administer and document research, collecting, and reporting activities within parks. All applicable parts of the form must be completed in order for your request to be considered. Failure to provide the information may result in denial of your permit application. A Federal agency may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number. OMB has approved this collection of information and assigned OMB Control No. 1024-0236.

Estimated Burden Statement

Public reporting burden for this form is estimated to average 15 minutes per response, including the time it takes for reviewing instructions, gathering and maintaining data, and completing and reviewing the form. Comments regarding this burden estimate or any aspect of this form should be sent to the Information Collection Clearance Officer, National Park Service, 12201 Sunrise Valley Dr. (MS-242), Reston, VA 20192. Please do not send your completed form to this address.

*** Findings** 

This field is required - 4,000 character limit - is the primary reporting field within the IAR.

Attached Documents 

File Name	Description
-----------	-------------

For either a Scientific Study or a Science Education Activity, the status is: 

- Continuing
- Suspended
- Terminated before completed
- Completed (for a study, check only if all specimens are catalogued)

If Completed...

- A final report has been provided to the park or will be provided to the park within the next two years.
- Copies of the field notes, datafiles, photos, or other study records, as agreed, have been provided to the park.
- All collected and retained specimens and retained material originating from such specimens have been cataloged into agreements as needed.
- I would like an email reminder in two years to optionally submit my final report or any other supporting information

Funding Amounts
