

M. The proposed action/project has effects that are highly controversial on environmental grounds.

Categorical Exclusion Documentation

The purpose of categorical exclusions is to reduce paperwork and delay. The NIGC is not required to repeatedly document actions that qualify for a categorical exclusion and do not involve an extraordinary circumstance (*See* 40 CFR 1500.4(p)). The NIGC will document its decision to treat a particular action as categorically excluded from further NEPA review, when the CATEX applied specifically requires the preparation of a REC. In those cases, a REC will include:

- A. A complete description of the proposed action/project;
- B. The CATEX relied upon, including a brief discussion of why there are no extraordinary circumstances;
- C. Supplemental documentation that supports the conclusions in the narrative. Examples include exhibit(s) showing boundaries of historical or archeological site(s) previously identified near the proposed project, documentation from the U.S. Fish and Wildlife Service noting that no endangered species or habitat is present near the proposed project, evidence that the proposed project site is located outside any non-attainment area(s), etc. In some cases, a “no effect” determination from the State Historic Preservation Office or Tribal Historic Preservation Office may be required;
- D. The following statement: *I certify that, to the best of my knowledge, the information provided is the best available information and is accurate;*
- E. A signature from an environmental professional with a signature block that includes the professional’s credentials.
