

**Requirements for the Occupational Safety and Health Administration (OSHA) Training Institute Education**

**Centers Program and OSHA Training Program**

OMB Control Number 1218-0262

March 30, 2017

**Request For**

**No Material or Non-substantive Change to a Currently Approved Collection**

The Agency is requesting OMB approval for two actions. First, the Agency is adding the 2012 and 2017 *Notice of competition and request for applications for the OSHA Training Institute Education Centers Program* Federal Register Notices (“Request for Application”) to the Supplementary Documents. The 2012 *Request for Application* Federal Register Notice (FRN) was referenced and attached to the 2013 *Requirements for the Occupational Safety and Health Administration (OSHA) Training Institute Education Centers Program and OSHA Training Program* the preclearance supporting statement (see docket OSHA-2009-0022)

<https://www.regulations.gov/document?D=OSHA-2009-0022-0005>. However, while uploading the 2013 Information Collection Request (ICR) into ROCIS, OSHA neglected to upload the 2012 *Request for Application* FRN. Therefore, OSHA is adding this FRN to Supplemental Documents. Also, the Agency is also adding the anticipated 2017 *Request for Application*.

Second, OSHA is proposing to make minor changes to the *Maritime, Disaster site report* forms. The changes would not change the number of respondents, or the amount of time it takes to complete the form. The specific changes are as follows:

- *Maritime report*: Changing Item 7 to indicate the length of time and industry (removing the course numbers #7615, #7617, etc.)
- *Disaster site*: Changing Item 7 to remove the course number and “other” and add time reference.
- *Construction*: Clarifying Item 2 by adding “Trainer” ID; Item 15, under “ELECTIVE” adding “Foundations for Safety Leadership”
