Premium By Jurisdiction		
B2	Jurisdiction	<p>Identify jurisdiction (US State, the District of Columbia, or US Territory) for which information is provided. Make a separate copy of this Worksheet for each jurisdiction in which premium is earned.</p> <p>Premium should be allocated in the same fashion that it is for state reporting and premium tax purposes. Accordingly, coverage written by captive insurers may be allocated in full to their state of domicile or licensure. This allocation approach should be followed in the other worksheets as well where information is sought concerning premium and exposures by jurisdiction, except in the case of the Geographic Exposures worksheet, which seeks information based upon where the exposures identified are actually located, regardless of the manner in which the premium may have been allocated.</p>

B6-B17	TRIP-Eligible Line of Coverage	<p>Commercial Lines of Insurance subject to TRIP, as per 31 CFR 50.4(w). Reporting captive insurers should allocate their premium by these lines, even if they do not currently report premium to their state regulator in that fashion. These differ for purposes of state regulatory reporting on the NAIC Exhibit of Premiums and Losses (commonly known as Statutory Page 14) as follows:</p> <ul style="list-style-type: none"> • Allied Lines (Line 2.1) should not include Federal crop insurance or any other type of crop insurance privately issued or reinsured. • The figures for Workers' Compensation (Line 16) should not include Excess Workers' Compensation (identified as sub-type of insurance 16.003 on the NAIC's Uniform Property & Casualty Product Coding Matrix and otherwise reported under Line 17.3). Report Excess Workers' Compensation Premium separately as indicated. In addition, only report Workers' Compensation Premium (Line 16) collected when writing such coverage on an admitted basis; do not report premium associated with reimbursement or reinsurance mechanisms associated with a policyholder deductible under a different policy. Premium associated with deductible reimbursement or reinsurance mechanisms should only be reported on the WC Deductible Reimbursement sheet as requested. • Other Liability (Line 17) should not include Professional Errors and Omissions Liability Insurance [see 31 CFR 50.4(t)] or Excess Workers' Compensation Premium which is entered separately as noted above. • Notwithstanding the provisions of 31 CFR 50.33, for purposes of this collection reporting insurers do not need to make the premium adjustments in connection with residual market mechanisms provided for under that rule.
C6-C17	NAIC Line (Commercial Only)	<p>Line of Insurance number as used for state regulatory reporting purposes on the NAIC Exhibit of Premiums and Losses (commonly known as Statutory Page 14).</p>

D6-D17	Total 2016 TRIP-Eligible DEP (all policies)	<p>Total direct earned premium (DEP) for 2016 charged for the lines in question. Generally, DEP figures are to be reported for purposes of this Worksheet as they are reported for state regulatory purposes (on Statutory Page 14), subject to the adjustments to the NAIC Line descriptions identified in connection with the instructions for Column B. To the extent an insurer does not use Statutory Page 14 for purposes of state regulatory reporting, the insurer should seek to allocate its direct earned premium in a fashion consistent with those categories for purposes of completing these worksheets. In addition, DEP should be included in the calculations for all Worksheets only to the extent that commercial property and casualty coverage is issued for losses at the following locations: (1) Within the United States; (2) In the case of an air carrier (as defined in section 40102 of title 49, United States Code), or a United States flag vessel (or a vessel based principally in the United States, on which United States income tax is paid and whose insurance coverage is subject to regulation in the United States), losses occurring anywhere; and (3) At the premises of any United States mission.</p> <p>The figures reported in this column will be the sum of the respective figures in Columns E-G.</p> <p>To the extent a captive insurer wrote TRIP-eligible lines of insurance in 2016, but has not provided any terrorism risk insurance subject to the Program under any policy that it has issued, it does not need to submit this report. This is also the case even if the captive insurer provided terrorism risk insurance in years prior to 2016.</p>
E6-E17	Total 2016 TRIP-Eligible DEP when Terrorism Risk Coverage Not Purchased	<p>Total DEP for 2016 charged for the line in question under policies when Terrorism Risk Coverage was not purchased by the policyholder. If you do not provide any Terrorism Risk Coverage subject to the Program under any policy, do not complete this form; you are not obligated to report any information.</p> <p>All information in this column should be reported, by jurisdiction, on a consolidated insurer group basis, unless reporting for a single insurer.</p>

F6-F17	Total 2016 TRIP-Eligible DEP when Terrorism Risk Coverage Provided for Disclosed \$0 Charge	Total DEP for 2016 charged for the line in question under policies when Terrorism Risk Coverage was provided by the insurer to the policyholder for a disclosed \$0 charge. G6-G17	Total 2016 TRIP-Eligible DEP when Terrorism Risk Coverage Premium Charged	Total DEP for 2016 charged for the line in question under policies when Terrorism Risk Coverage was provided by the insurer to the policyholder for a disclosed non-\$0 charge. Include in this figure Terrorism Risk DEP for lines that were TRIP-eligible at the time of writing but are no longer TRIP-eligible today (e.g., Commercial Automobile from 2003-2005).
B21	Years provided in Cell C20 if not fully available for 2003-2016	If data is not available for all years (or the insurer was not writing TRIP-eligible coverage in all years), indicate the years covered by the figure that is provided (using four-digit years separated with a hyphen -- e.g., 2010-2016).
B22	Total 2015 TRIP-eligible DEP (all lines)	The requested figure for total 2015 TRIP-eligible DEP (all lines) to be reported in Cell C22 should be calculated in the same fashion as TRIP-eligible DEP for 2016 as requested in this Worksheet, only consolidated by all TRIP-eligible lines.

8	2016 Property Insurance Exposure for Standalone Terrorism Policies Covering TRIP Loss	Provide the sum of the 2016 Property Insurance Exposure for any property coverage provided in connection with the premium figure in Line 3. This should include the total amount of the reporting insurer's exposure under the policies in question for a property loss (and thus not include amounts within an insured's deductible, etc.). To the extent the value of the insured's property is not fully insured by the policy in question, use the limits of the property insurance to which the insurer is exposed.
9	2016 Total Limits of Liability for Standalone Terrorism Policies Covering TRIP Loss	Please provide the sum of the 2016 Limits of Liability for any liability coverage provided in connection with the premium figure in Line 3. Again, this figure should include the limits of the insurer's exposure, and not amounts for which the policyholder may remain responsible.

As noted above, the amounts in question may be allocated wholly to the captive insurer's domiciliary state in this particular worksheet.</p> <p>Make a separate copy of this Worksheet for each jurisdiction in which exposure exists.</p>

B6-B17	TRIP-Eligible Line of Coverage	<p>Commercial Lines of Insurance subject to TRIP, as per 31 CFR 50.4(w). Reporting captive insurers should allocate their premium by these lines, even if they do not currently report premium to their state regulator in that fashion. These differ for purposes of state regulatory reporting on the NAIC Exhibit of Premiums and Losses (commonly known as Statutory Page 14) as follows: Allied Lines (NAIC Line 2.1) should not include Federal crop insurance or any other type of crop insurance privately issued or reinsured. The figures for Workers' Compensation (NAIC Line 16) should not include Excess Workers' Compensation (identified as sub-type of insurance 16.003 on the NAIC's Uniform Property & Casualty Product Coding Matrix and otherwise reported under Line 17.3). Report Excess Workers' Compensation Premium separately as indicated. Other Liability (NAIC Line 17) should not include Professional Errors and Omissions Liability Insurance [see 31 CFR 50.4(t)] or Excess Workers' Compensation Premium, which is entered separately as noted above. Finally, and notwithstanding the provisions of 31 CFR 50.33, for purposes of this collection reporting insurers do not need to make the premium adjustments in connection with residual market mechanisms provided for under that rule.</p>

D6-D17	Total 2016 Property Insurance Exposure Subject to Terrorism Risk Coverage	<p>Report 2016 information, by jurisdiction, on a consolidated insurer group basis, unless reporting for a single insurer. Enter the amount for each jurisdiction (based on property location) individually, even if an aggregate limit may limit exposure across multiple jurisdictions. The blacked out cells simply indicate that no data will be reportable for that particular cell, given the intersection between the TRIP-Eligible Line of Insurance and the exposure base in question. In this column, report your total property insurance exposure by line of insurance under all policies where terrorism risk coverage is provided in connection with property coverage. This should include (in this column as well as in other columns where the information is requested) the total amount of the reporting insurer's exposure under the policies in question for a property loss (and thus not include amounts within an insured's deductible, etc.). To the extent the value of the insured's property is not fully insured by the policy in question, use the limits of the property insurance to which the insurer is exposed. If the policy has an aggregate limit, use the aggregate limit; if it is subject to a per occurrence limit and not an aggregate limit, use the single occurrence limit. To the extent the policy exposure is based upon property values or annual sales and is not otherwise subject to a policy limit, use the property values or annual sales figures.</p>
E6-E17	Total 2016 Property Insurance Exposure Not Subject to Terrorism Risk Coverage	<p>In this column, report total property insurance exposure by line of insurance under all policies where terrorism risk coverage is not provided in connection with property coverage.</p>
F6-F17	Total 2016 Limits of Liability Subject to Terrorism Risk Coverage	<p>In this column, report the sums of policy limits of liability by line of insurance under all policies where terrorism risk coverage is provided in connection with liability coverage.</p>
G6-G17	Total 2016 Limits of Liability Not Subject to Terrorism Risk Coverage	<p>Report the sums of Limits of Liability by line of insurance under all policies where terrorism risk coverage is not provided in connection with liability coverage.</p>

H6-H17	Total 2016 Payroll Subject to Terrorism Risk Coverage	Report 2016 sums of Payroll for Workers' Compensation and Excess Workers' Compensation under all policies. Payroll information for workers' compensation should only be provided in those cases where the captive insurer is licensed to write such insurance, and not if the captive insurer is providing reinsurance or reimbursement of a policyholder's deductible under a policy issued by another insurer.
Policyholder Industry Code By State (NAICS)		
A2	NAICS Code Number Most Applicable to the Businesses(es) Insured by the Captive Insurer	Reporting Captive Insurers should assess the nature of the business(es) of the policyholders that they insure and select the single code that best describes those operations. Geographic Exposures (Nationwide)		
B3-B30	Region	This Worksheet seeks exposure information by various metropolitan regions (B3-B28), then for the remainder of the US (including territories) as a whole (B29). Use a separate line (B30) to record policies for which location information is not available. Report information on a consolidated insurer group basis, unless reporting for a single insurer.
C3-C30	Description	Description of the metropolitan region (by zip code) to be used in connection with providing information. The descriptions are based upon definitions currently in use by private rating agencies. To the extent you do not track your data in this fashion, please report the information by the closest approximation of the US county and city jurisdictions involved. Although in prior sheets information is sought by where the premium is allocated for state reporting and tax purposes, the information sought in this sheet should be reported based upon where the property and workers' compensation exposures are actually located.
D3-D30	Total 2016 Payroll Subject to TRIP Coverage under Primary WC Coverage	Provide 2016 information respecting payroll figures in each identified area under primary workers' compensation coverage. Payroll information for workers' compensation should only be provided in those cases where the captive insurer is licensed to write such insurance, and not if the captive insurer is providing reinsurance or reimbursement of a policyholder's deductible under a policy issued by another insurer.

27-34	Loss to Group or Company within TRIP Deductible, Private Reinsurance Recovery, Deductible/Retention of Insureds, Claim under TRIP, Co-Pay Obligation	<p>The last series of questions seeks information as to how a particular defined loss event would likely affect the responding insurer group or reporting insurer, in terms of the total projected loss it would likely sustain (Line 28), with that amount divided into six categories: (1) deductible or retention obligation of insureds under triggered policies (Line 29); (2) net loss to group or company within TRIP deductible, net of policyholder obligations or private reinsurance (Line 30); (3) any private reinsurance recovery of amounts within the reporting insurer's deductible (Line 31); (4) projected recovery from TRIP (Line 32); (5) the net loss of the insurer group or reporting individual insurer above its deductible within the co-pay obligation (Line 33); and (6) any private reinsurance recovery of amounts above the reporting insurer's deductible within the co-pay obligation (Line 34). In terms of making these calculations, use the definitions, instructions and assumptions found in the Worksheet at Line 27. The identification of the truck bomb in question as between 2.5 and 7.5 tons is intended to permit reporting companies to use blast scenario assumptions that they would typically use in internal modeling projections. When responding to these questions, you may use the modeling assumptions that you typically use for blast scenario modeling for a blast of this size. If you do not typically employ any such scenario, please provide estimates using the parameters identified on the worksheet. It is understood that not all reporting insurers will anticipate losses under the stated scenario.</p>
