National Agricultural Statistics Service

NASS List Sampling Frame

Privacy Impact Assessment (PIA)

September 28, 2007

Prepared by:

National Agricultural Statistics Service 1400 Independence Ave., S.W. Washington, DC 20250

USDA PRIVACY IMPACT ASSESSMENT FORM

Agency:	National Agricultural Statistics Service
System Name:	NASS List Sampling Frame
System Type:	Major Application General Support System Non-major Application
System Catego	orization (per FIPS 199): High Moderate Low
for NA	the System: ASS List Sampling Frame provides samples of farms, ranches, and agri-businesses SS' annual survey program and to provide the Census Mail List (CML) for the of Agriculture every five years.
Stan Ho Nationa 1400 Ir	s system? (Name, agency, contact information) oge al Agricultural Statistics Service adependence Ave., S.W. agton, DC 20250

Who is the security contact for this system? (Name, agency, contact information)

Renato Chan National Agricultural Statistics Service 1400 Independence Ave., S.W. Washington, DC 20250 Tel.No. (202)720-4068

Tel.No. (202)720-8853

Who completed this document? (Name, agency, contact information)

Renato Chan National Agricultural Statistics Service 1400 Independence Ave., S.W. Washington, DC 20250 Tel.No. (202)720-4068

DOES THE SYSTEM CONTAIN INFORMATION ABOUT INDIVIDUALS IN AN IDENTIFIABLE FORM?

Indicate whether the following types of personal data are present in the system

	T	
QUESTION 1		
Does the system contain any of the following type of data as it relates to individual:		Employe es
Name	Yes	No
Social Security Number	Yes	No
Telephone Number	Yes	No
Email address	Yes	No
Street address	Yes	No
Financial data (i.e. account numbers, tax ids, etc)	Yes	No
Health data	No	No
Biometric data	No	No
QUESTION 2	Yes	No
Can individuals be uniquely identified using personal information such as a combination of gender, race, birth date, geographic indicator, biometric data, etc.?		
NOTE: 87% of the US population can be uniquely identified with a combination of gender, birth date and five digit zip code ¹		
Are social security numbers embedded in any field?	No	No
Is any portion of a social security numbers used?	Yes	No
Are social security numbers extracted from any other source (i.e. system, paper, etc.)?	Yes	No

If all of the answers in Questions 1 and 2 are NO,

STOP O,

You do not need to complete a Privacy Impact Assessment for this system and the answer to OMB A-11, Planning, Budgeting, Acquisition and Management of Capital Assets, Part 7, Section E, Question 8c is:

3. No, because the system does not contain, process, or transmit personal identifying information.

¹ Comments of Latanya Sweeney, Ph.D., Director, Laboratory for International Data Privacy Assistant Professor of Computer Science and of Public Policy Carnegie Mellon University To the Department of Health and Human Services On "Standards of Privacy of Individually Identifiable Health Information". 26 April 2002.

If any answer in Questions 1 and 2 is YES, provide complete answers to all questions below.

DATA COLLECTION

3. Generally describe the data to be used in the system.

Data contained in the system include information on all participating farmers, ranchers, and agri-businesses in the United States. All information collected and processed by this system is protected by US Code: Title 7, 2276 – Confidentiality of Information.

4. Is the collection of the data both relevant and necessary to the purpose for which the system is designed? In other words, the data is absolutely needed and has significant and bearing on the system's purpose.

Yes	
No.	If NO, go to question 5

4.1.Explain.

The system is designed to process and store data as described above. Without this data, the system will have no purpose.

- **5.** Sources of the data in the system.
 - 5.1. What data is being collected from citizens and/or employees?

Information on farmers, ranchers, and agri-business operators include: (1) name, (2) address, (3) telephone number, (4) age, (5) race or ethnic origin, (6) gender, (7) social security number/employer identification number, and (8) previous data for efficiently selecting agricultural samples..

5.2. What USDA agencies are providing data for use in the system?

Farm Service Agency (FSA), NASS.

5.3. What government agencies (state, county, city, local, etc.) are providing data for use in the system?

Internal Revenue Service (IRS), Social Security Administration (SSA).

5.4. From what other third party sources is data being collected?

InfoUSA.

6.	Will data be collected from sources outside your agency? For example, citizens and employees, USDA sources (i.e. NFC, RD, etc.) or Non-USDA sources.
	Yes No. If NO, go to question 7
	6.1. How will the data collected from citizens and employees be verified for accuracy, relevance, timeliness, and completeness?
	Data collected are compared against other list sources to ensure data is accurate, relevant, timely and complete.
	6.2. How will the data collected from USDA sources be verified for accuracy, relevance, timeliness, and completeness?
	Data collected are compared against other list sources to ensure data is accurate, relevant, timely and complete.
	6.3. How will the data collected from non-USDA sources be verified for accuracy, relevance, timeliness, and completeness?
	Data collected are compared against other list sources to ensure data is accurate, relevant, timely and complete.
D	ATA USE
7.	Individuals must be informed in writing of the principal purpose of the information being collected from them. What is the principal purpose of the data being collected?
	The list sampling frame is used to provide samples of farms, ranches, and agribusinesses for NASS' annual survey program and to provide the census mail list for the Census of Agriculture every five years.
8.	Will the data be used for any other purpose?
	Yes No. If NO, go to question 9
	8.1. What are the other purposes?
	N/A.

9. Is the use of the data both relevant and necessary to the purpose for which the system

is being used? In other words, the data is absolutely needed and has significant and demonstrable bearing on the system's purpose.
Yes No. If NO, go to question 10
9.1.Explain.
The system is designed to process and store respondent data as described in Section 3 above. Without this data, the system will have no purpose.
10. Will the system derive new data or create previously unavailable data about an individual through aggregation from the information collected (i.e. aggregating farm loans by zip codes in which only one farm exists.)?
Yes No. If NO, go to question 11
10.1. Will the new data be placed in the individual's record (citizen or employee)?
Yes No
10.2. Can the system make determinations about citizens or employees that would not be possible without the new data?
Yes No
10.3. How will the new data be verified for relevance and accuracy?
Data collected are compared against other list sources to ensure data is accurate, relevant, timely and complete.
11. Individuals must be informed in writing of the routine uses of the information being collected from them. What are the intended <u>routine</u> uses of the data being collected?
Information collected will be used to create samples of farms, ranches, and agribusinesses for NASS' annual survey program and creation of the census mail list for the Census of Agriculture every five years.

12. Will tile	data be used for any other purpose (other than indicated in question 11):
	Yes No. If NO, go to question 13
12.1. V	What are the other purposes?
N	N/A.
multiple administ be evalua	tion of systems can lead to the consolidation of data – bringing data from sources into one central location/system – and consolidation of trative controls. When administrative controls are consolidated, they should ated so that all necessary privacy controls remain in place to the degree by to continue to control access to and use of the data. Is data being ated?
	Yes No. If NO, go to question 14
	What controls are in place to protect the data and prevent unauthorized access?
S(All system users are required to sign a pledge of confidentiality that carries evere legal penalties for violating the pledge. NASS employs physical ecurity controls, logical access controls, technological controls, auditing and nonitoring of controls.
14. Are proc	cesses being consolidated?
	Yes No. If NO, go to question 15
	What controls are in place to protect the data and prevent unauthorized access?
S	All system users are required to sign a pledge of confidentiality that carries evere legal penalties for violating the pledge. NASS employs physical ecurity controls, logical access controls, technological controls, auditing and

monitoring of controls.

DATA RETENTION

15. Is the d	lata periodically purged from the system?
	Yes No. If NO, go to question 16
15.1.	How long is the data retained whether it is on paper, electronically, in the system or in a backup?
	Retention and disposal practices are in accordance with approved National Archives and Records Administration (NARA) schedules.
15.2.	What are the procedures for purging the data at the end of the retention period?
	Retention and disposal practices are in accordance with approved National Archives and Records Administration (NARA) schedules.
15.3.	Where are these procedures documented?
	Retention and disposal practices are in accordance with approved National Archives and Records Administration (NARA) schedules.
the data	the data is retained in the system, what are the requirements for determining if a is still sufficiently accurate, relevant, timely, and complete to ensure fairnessing determinations?
	re compared against other list sources to ensure data is accurate, relevant, and complete.
	lata retained in the system the minimum necessary for the proper performance cumented agency function?
	Yes No
DATA	SHARING

FOR OFFICIAL USE ONLY

 ${f 18.}$ Will other agencies share data or have access to data in this system (i.e. international,

federal, state, local, other, etc.)?

Yes No. If NO, go to question 19
How will the data be used by the other agency?
N/A.
Who is responsible for assuring the other agency properly uses of the data?
N/A.
data transmitted to another agency or an independent site?
Yes No. If NO, go to question 20
Is there the appropriate agreement in place to document the interconnection and that the PII and/or Privacy Act data is appropriately protected?
Where are those documents located?
system operated in more than one site?
Yes No. If NO, go to question 21
How will consistent use of the system and data be maintained in all sites?

DATA ACCESS

Who will have access to the data in the system (i.e. users, managers, system administrators, developers, etc.)?

Only authorized sworn NASS employees will have access to the system. It includes a very limited number of NASS managers, users, system administrators and developers. All system users are required to sign a pledge of confidentiality that carries severe legal penalties for violating the pledge.

21.How will user access to the data be determined?

		ccess will be determined based on the job function. Access for these users are ed by their respective manager then presented for approval to the system
	21.1.	Are criteria, procedures, controls, and responsibilities regarding user access documented?
		Yes No. If NO, go to question 23
	21.2.	Where are criteria, procedures, controls, and responsibilities regarding user access documented?
		Electronic records of authorized requests for user accounts are maintained. Data access is strictly limited to NASS employees that have been officially authorized to have access. All NASS employees are required to sign a pledge of confidentiality that carries severe legal penalties for violating the pledge. NASS employs physical security controls, logical access controls, technological controls, auditing and monitoring of controls.
22	.How w	vill user access to the data be restricted?
	applica data. N	are validated at several levels, including the network, database, internal access controls and role level security before being allowed to access the ASS employs physical security controls, logical access controls, technological s, auditing and monitoring of controls to accommodate this.
	22.1.	Are procedures in place to detect or deter browsing?
		Yes No
	22.2.	Are procedures in place to detect or deter unauthorized user access?
		Yes No
23		ne system employ security controls to make information unusable to orized individuals (i.e. encryption, strong authentication procedures, etc.)?
		Yes No

CUSTOMER PROTECTION

24. Who will be responsible for protecting the privacy rights of the citizens and employees affected by the interface (i.e. office, person, departmental position, etc.)? It is the responsibility of all NASS employees and sworn agents to protect the privacy rights of citizens and employees affected by the interface. All NASS employees are required to sign a pledge of confidentiality that carries severe legal penalties for violating the pledge. **25.** How can citizens and employees contact the office or person responsible for protecting their privacy rights? NASS officials can be contacted in Headquarters and each Field Office. **26.** A "breach" refers to a situation where data and/or information assets are unduly exposed. Is a breach notification policy in place for this system? Yes - If YES, where is the breach notification policy located? The policy is located in the Security office at NASS Headquarters in Washington, D.C. No - If NO, please enter the POAM number with the estimated completion date: **27.**Consider the following: • Consolidation and linkage of files and systems • Derivation of data • Accelerated information processing and decision making Use of new technologies Is there a potential to deprive a citizens and employees of fundamental rules of fairness (those protections found in the Bill of Rights)? Yes No. If NO, go to question 29 27.1. Explain how this will be mitigated? N/A.

28. How we employ	vill the system and its use ensure equitable treatment of citizens and yees?
-	ivacy and confidentiality of all data providers are covered equally by US Code: , 2276.
	e any possibility of treating citizens and employees <u>differently and unfairly</u> upon their individual or group characteristics?
	Yes No. If NO, go to question 31
29.1.	Explain
	N/A.
SYSTI	EM OF RECORD
actuall	e data be retrieved by a personal identifier? In other words, does the system y retrieve data by the name of an individual or by some other unique number, l, or identifying attribute of the individual?
	Yes No. If NO, go to question 32
30.1.	How will the data be retrieved? In other words, what is the identifying attribute (i.e. employee number, social security number, etc.)?
	Data can be retrieved by unique identification numbers internal to the agency.
30.2.	Under which Systems of Record notice (SOR) does the system operate? Provide number, name and publication date. (SORs can be viewed at www.access.GPO.gov)
	USDA/NASS-2 List Sampling Frame Records
30.3.	If the system is being modified, will the SOR require amendment or revision?
	If the scope of the personal data maintained is modified, the System of Record will be modified, accordingly.

TECHNOLOGY

31. Is the system using technologies in ways not previously employed by the agency (e.g. Caller-ID)?
Yes No. If NO, the questionnaire is complete.
31.1. How does the use of this technology affect citizens and employees privacy?
N/A.

Upon completion of this Privacy Impact Assessment for this system, the answer to OMB A-11, Planning, Budgeting, Acquisition and Management of Capital Assets, Part 7, Section E, Question 8c is:

1. Yes.

PLEASE SUBMIT A COPY TO THE OFFICE OF THE ASSOCIATE CHIEF INFORMATION OFFICE/CYBER SECURITY
