

VOLUNTEERS WANTED FOR A RESEARCH STUDY

Title V Maternal and Child Health (MCH) Block Grant Jurisdictional MCH Survey Instrument

Are you the mother of a child under 18 years old?

We are testing a survey to help better understand the health of mothers and children in [American Samoa, Federated States of Micronesia, Marshall Islands, Northern Mariana Islands, Palau]. You may qualify for this study if you are **over the age of 18** and a **mother of at least one child aged 0-17 years living in the same household**.

Participation includes one in-person interview about your and your children's health. It will take about 40 minutes. Participation is voluntary. There are few risks or benefits to you.

To learn more about this research call [Research Team Member].

This research is conducted under the direction of the United States Maternal and Child Health Bureau at the United States Department of Health and Human Services and Caitlin Oppenheimer, Senior Vice President at NORC at the University of Chicago.
