## National Center for Health Statistics

## Data Detectives Summer Camp 2017

NOTICE - Public reporting burden of this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: CDC/ATSDR Information Collection Review Office; 1600 Clifton Road, MS D-74, Atlanta, GA 30333, ATTN: PRA (0920-XXXX).

Assurance of Confidentiality - We take your privacy very seriously. All information that relates to or describes identifiable characteristics of individuals, a practice, or an establishment will be used only for statistical purposes. NCHS staff, contractors and agents will not disclose or release responses in identifiable form without the consent of the individual or establishment in accordance with section 308(d) of the Public Health Service Act (42 USC 242m(d)).

## Student Application Form

## Last Name: <br> First Name: <br> MI:

1. Please rate your knowledge / understanding of the concepts below:

|  | Know <br> It Well | Have Heard <br> I Seen It | No <br> Clue |
| :--- | :--- | :--- | :--- |
|  |  |  |  |
| Types of statistical data (e.g., numerical, categorical, <br> Codinal |  |  |  |
| Computing summary statistics - means, median, modes, etc. <br> percentile, etc.) |  |  |  |
| Graphically presenting data (lower quartile, upper quartile, 25th |  |  |  |
| Creating and interpreting box and whisker plots |  |  |  |
| Creating and interpreting histograms |  |  |  |
| Scatter Plots |  |  |  |
| Bivariate associations |  |  |  |
| Interpreting two-way tables |  |  |  |
| Probability |  |  |  |
| Sampling variability |  |  |  |
| Drawing inferences about a population |  |  |  |
| Comparing populations |  |  |  |

2. In a short paragraph, 4-6 sentences (no more than 1000 characters), please tell us what is your favorite math concept, equation, or number? Why?
