

Attachment I.

Worker Handout

Dear worker,

Workers have the right to working conditions that do not pose a risk of serious harm. If you need to report unsafe working conditions, you can contact the Occupational Safety and Health Administration (OSHA) Office nearest you or, contact OSHA's toll free number: 1-800-321-OSHA.

If you are experiencing health symptoms that you believe may be related to work, we recommend you see an occupational health professional. You can find an occupational health professional at www.ocoem.org.

If you would like additional assistance, please contact Kyla Retzer, NIOSH, at 303-236-5934.
