Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.*, and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior (Secretary) to prescribe rules and regulations to manage the mineral resources of the OCS. Such rules and regulations apply to all operations conducted under a lease, right-of-use and easement, and pipeline right-of-way.

Section 1334(a)(8) requires that regulations prescribed by the Secretary include provisions “for compliance

with the national ambient air quality standards pursuant to the Clean Air Act (42 U.S.C. 7401 *et seq.*), to the extent that activities authorized under this subchapter significantly affect the air quality of any State.” This information collection renewal concerns information that is submitted in response to regulatory requirements, such as the regulations at 30 CFR part 550, subpart C, Pollution Prevention and Control that implement section 1334(a)(8). It also covers the related Notices to Lessees and Operators (NTLs) that BOEM issues to clarify and provide additional guidance on some aspects of these regulations. BOEM uses the information to inform its decisions on plan approval, to ensure operations are conducted according to all applicable regulations and plan conditions of approval, and to inform State and regional planning organizations modeling efforts.

Title of Collection: 30 CFR 550, subpart C, Pollution Prevention and Control.

OMB Control Number: 1010-0057.

Form Number: None.

Type of Review: Revision of a currently approved collection.

Respondents/Affected Public:

Potential respondents comprise Federal OCS oil, gas, and sulphur lessees and states.

Total Estimated Number of Annual Responses: 2,394 responses.

Total Estimated Number of Annual Burden Hours: 105,028 hours.

Respondent's Obligation: Mandatory, and voluntary.

Frequency of Collection: On occasion, monthly, or annually.

Total Estimated Annual Nonhour Burden Cost: None.

Estimated Reporting and Recordkeeping Hour Burden: We expect the burden estimate for the renewal will be 105,028 hours, which reflects a decrease of 7,083 hours. In calculating the burdens, the burden hours decreased from the previous OMB request, because the number of facilities decreased as reported by the Gulfwide Offshore Activity Data System. We also removed from the burden breakdown table the requirement of submitting copy of State-required Emergency Action Plan for the Pacific OCS Region. This information is not collected by BOEM, because it falls under the jurisdiction of the Bureau of Safety and Environmental Enforcement.

The following table details the individual BOEM components and respective hour burden estimates of this ICR. We assumed that the respondents perform certain activities in the normal course of their business that also satisfy certain requirements under subpart C.

We consider these to be usual and customary and took that into account in estimating the burden.
