

would likely have to file numerous separate section 10(a)(1)(B) permit applications over the 25-year project period. This activity-by-activity approach would be more time consuming and less efficient than authorizing activities under this comprehensive incidental take permit, and could result in a fragmented mitigation approach.

Proposed Action Without Reduction of Exclosure Boundaries

This alternative is the proposed action without reductions in exclosure boundaries in the Boneyard and 6 exclosure areas. With this alternative, the boundaries of the Boneyard and 6 exclosures would not be reduced in size to increase areas for recreation. Off highway vehicle and camping opportunities in this area would remain as they are under the current management program.

Public Availability of Comments

Written comments we receive become part of the public record associated with this action. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that the entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. Comments and materials we receive, as well as supporting documentation we use in preparing the environmental analysis, will be available for public inspection, by appointment, during normal business hours at the Service's Ventura Fish and Wildlife Office in Ventura, California (see **ADDRESSES**, above).

Scoping Meetings

See **DATES** for the date and times of our public meetings. The purpose of scoping meetings is to provide the public with a general understanding of the background of the proposed HCP and activities it would cover, alternative proposals under consideration, and the Service's role and steps to be taken to develop the draft environmental analysis for the proposed HCP.

Additionally, the purpose of these meetings and public comment period is to solicit suggestions and information on the scope of issues and alternatives for the Service to consider when preparing the draft environmental documents. Oral and written comments will be accepted at the meetings.

Comments can also be submitted by methods listed in the **ADDRESSES** section. Once the draft environmental documents and proposed HCP are complete and made available for review, there will be additional opportunity for public comment on the content of these documents through an additional comment period.

Meeting Location Accommodations

Please note that the meeting location will be accessible to wheelchair users. If you require additional accommodations, please notify us at least 1 week in advance of the meeting.

Authority

We publish this notice in compliance with the NEPA and its implementing regulations (40 CFR 1501.7, 1506.6, and 1508.22), and section 10(c) of the ESA.

Dated: December 28, 2017.

BILLING CODE 4333-15-P

DEPARTMENT OF THE INTERIOR

U.S. Geological Survey

[GX17RB00CMFCA00; OMB Control Number 1028-New]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Current and Future Landsat User Requirements

AGENCY: U.S. Geological Survey (USGS), Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: We (the USGS) will ask the Office of Management and Budget (OMB) to approve the information collection (IC) described below. As required by the Paperwork Reduction Act (PRA) of 1995, and as part of our continuing efforts to reduce paperwork and respondent burden, we invite the general public and other Federal agencies to take this opportunity to comment on this IC.

DATES: To ensure that your comments are considered, we must receive them on or before February 12, 2018.

ADDRESSES: Send written comments on this information collection request (ICR) to the Office of Management and Budget's Desk Officer for the Department of the Interior by email at OIRA_Submission@omb.eop.gov; or via facsimile to (202) 395-5806. Please

provide a copy of your comments to USGS, Information Collections Clearance Officer, 12201 Sunrise Valley Drive, MS 159, Reston, VA 20192; or by email to gs-info_collections@usgs.gov. Please reference OMB Control Number 1028-NEW in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: Rudy Schuster, Branch Chief, at (970) 226-9230 or schusterr@usgs.gov.

SUPPLEMENTARY INFORMATION: We, the U.S.G.S., in accordance with the Paperwork Reduction Act of 1995, provide the general public and other Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on June 19, 2017, 82 FR 27867. No comments were received.

We are again soliciting comments on the proposed IC that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of the USGS; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the USGS enhance the quality, utility, and clarity of the information to be collected; and (5) how might the USGS minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The USGS Land Remote Sensing (LRS) Program is currently planning for the next generation of Landsat satellites. These satellites will continue the multi-decadal continuous collection of moderate-resolution,

multispectral, remotely-sensed imagery through the Landsat program. Landsat satellite imagery has been available at no cost to the public since 2008, which has resulted in the distribution of millions of scenes each subsequent year, as well tens of thousands of Landsat users registering with USGS to access the data. In order to continue to provide high quality imagery that meets the needs of users, LRS is collecting current and future user requirements for sensor and satellite attributes. These attributes include spatial resolution, spectral bands, frequency of acquisition, and many others. LRS will use the information from this collection to understand if they are currently meeting the needs of their user community and to help determine the features of future Landsat satellites. Questions will be asked to determine user characteristics, current uses of imagery, preferred attributes of Landsat imagery, and benefits of Landsat imagery. All current U.S. Landsat imagery users who are registered with USGS will be invited to take part in the survey and a large sample of international Landsat users will also be invited.

To protect the confidentiality and privacy of survey respondents, the data from the survey will not be associated with any respondent's email address at any time and will only be analyzed and reported in aggregate. All files containing PII will be password-protected, housed on secure USGS servers, and only accessible to the research team. The data from the survey will be aggregated and statistically analyzed and the results will be published in publically available USGS reports.

OMB Control Number: 1028-NEW.

Title: Current and Future Landsat User Requirements.

Type of Request: New information collection.

Respondent Obligation: None.

Participation is voluntary.

Frequency of Collection: One time only.

Description of Respondents: General public.

Estimated Total Number of Annual Responses: 11,660

Estimated Time per Response: We estimate that it will take 20 minutes per person to complete the full survey and 5 minutes per person to complete the non-response survey.

Estimated Annual Burden Hours: 3,335

Estimated Annual Reporting and Recordkeeping "Non-Hour Cost": There are no "non-hour cost" burdens associated with this collection of information.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number. Until the OMB approves a collection of information, you are not obliged to respond.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501, *et seq.*).

Timothy Newman,

Land Remote Sensing Program Coordinator.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-361 and 50-362; NRC-2018-0003]

Southern California Edison Company, San Onofre Nuclear Generating Station, Units 2 and 3

AGENCY: Nuclear Regulatory Commission.

ACTION: Exemption; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing an

exemption from certain power reactor financial protection requirements in response to a September 16, 2015, request from the Southern California Edison Company (the licensee). The exemption would permit the San Onofre Nuclear Generating Station, Units 2 and 3 (SONGS), to reduce the required level of primary financial protection from \$450 million to \$100 million, as well as to withdraw from participation in the secondary layer of financial protection effective immediately.
