

PRIVACY THRESHOLD ANALYSIS (PTA)

This form serves as the official determination by the DHS Privacy Office to identify the privacy compliance requirements for all Departmental uses of personally identifiable information (PII).

A Privacy Threshold Analysis (PTA) serves as the document used to identify information technology (IT) systems, information collections/forms, technologies, rulemakings, programs, information sharing arrangements, or pilot projects that involve PII and other activities that otherwise impact the privacy of individuals as determined by the Chief Privacy Officer, pursuant to Section 222 of the Homeland Security Act, and to assess whether there is a need for additional Privacy Compliance Documentation. A PTA includes a general description of the IT system, information collection, form, technology, rulemaking, program, pilot project, information sharing arrangement, or other Department activity and describes what PII is collected (and from whom) and how that information is used and managed.

Please complete the attached Privacy Threshold Analysis and submit it to your component Privacy Office. After review by your component Privacy Officer the PTA is sent to the Department's Senior Director for Privacy Compliance for action. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Senior Director, Privacy Compliance
The Privacy Office
U.S. Department of Homeland Security
Washington, DC 20528
Tel: 202-343-1717

PIA@hq.dhs.gov

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form and assess whether any privacy compliance documentation is required. If compliance documentation is required – such as Privacy Impact Assessment (PIA), System of Records Notice (SORN), Privacy Act Statement, or Computer Matching Agreement (CMA) – the DHS Privacy Office or component Privacy Office will send you a copy of the relevant compliance template to complete and return.

DHS Privacy Office Comments: <i>Please describe rationale for privacy compliance determination above.</i>	
USCIS Privacy is submitting this PTA because Form I-730, Refugee/Asylee Relative petition allows Principal Refugees and Asylees to petition for their spouse and children. If the petitioner has been admitted to the United States as a principal refugee or if he/she was granted status in the United States as a principle asylee within the previous two years, the petitioner may file a Form I-730 to request follow-to-join benefits for his/her spouse and/or unmarried children under 21 years of age only.	
PRIV finds that is a privacy sensitive system and a PIA is required because From I-730 collects PII from members of the public. PRIV agrees with USCIS Privacy that the CAMINO PIA and CLAIMS 3 PIA provides coverage. DHS/USCIS/PIA-051 discusses the case management system designed to facilitate the processing of immigrant applications and petitions received or adjudicated by RAIO IO. DHS/USCIS/PIA-016(a) discusses the processing of the form in CLAIMS 3.	
PRIV finds that a SORN is required because Form I-730 retrieves information by a unique identifier. PRIV agrees with USCIS Privacy that the A-File, Index, and National File Tracking SORN and Asylum Information and Pre-screening SORN provide coverage. DHS/USCIS/ICE/CBP-001 covers information stored in the A-File. DHS/USCIS-010 covers records collected in follow-to-join derivative asylum/refugee cases (Form I-730) under 8 CFR 208.21.	
PRIV also finds that a PAS is required because Form I-730 asks persons to provide personal information about themselves, which will go into a system of records.
