Help Text	Indicate the fields in which you are certified to teach. Choose all that apply.																																		

A license or certificate for a particular field is issued when a teacher has successfully completed a list of requirements which may include, but is not limited to, successful completion of coursework, exams, and/or a certain number of teaching hours (student teaching).

Most middle, junior high, or high school teachers teach specific subjects and, therefore, should indicate the specific subjects in which they are certified. Use "**general education in middle or secondary grades**" only to indicate certification in general education (i.e., being certified to teach a wide variety of subjects to a single group of students during the day) at the middle grades or secondary level.

Only indicate "**Other subject area not listed**" if your field does not fit into one of the pre-specified fields.

	Help Text	A regular classroom teacher (full- or part-time) refers to a teacher who is a regular classroom teacher in any grade level from prekindergarten to twelfth grade. A short-term substitute teacher refers to a certified or non-certified teacher who works as a replacement for a regular teacher when he/she takes a leave of absence for a short-term period of time (up to 12 weeks). He/she may substitute for a regular teacher for as short a period as a day or for a week at a time. A long-term substitute teacher refers to a certified or non-certified teacher who works as a replacement for a regular teacher when he/she takes a leave of absence for a long-term period of time (more than 12 weeks). This type of substitute teaches in place of the regular teacher for more than 12 weeks consecutively. A teacher's aide refers to a certified or non-certified assistant who aids the teacher in preparing classroom materials for instruction and may help with grading and special projects. He/she does NOT assume full responsibility for classroom instruction. A support teacher works largely with other teachers, rather than with students, and often designs or conducts professional development activities for others. Examples of activities include developing curricula, supporting other teachers' use of technology for instruction, analyzing achievement data and helping teachers understand or use those data to improve

instruction, or coaching in particular subject areas or instructional methods. **Examples of positions include literacy coaches, math coaches, teachers on special assignment with professional development responsibilities, etc.**

A **student teacher** refers to a teacher who is shadowing a teacher and taking on various roles in the classroom. While some teaching may be involved, this type of teacher does not primarily teach students.

An **itinerant teacher** refers to a teacher who holds one position or assignment, but who teaches in multiple schools.

If you consider yourself to be a teacher at the preK-12 level but none of the types of teachers indicated reflects your teaching position, respond "**Other teaching position.**"
