IF SENT AS E-MAIL - Subject: Education Research Opportunity for Students in Grade <4, 8 and 12 for eNAEP OR 8 for TEL>

<DATE>

Dear <NAME>,

My name is <CONTACT NAME> and I am contacting you from EurekaFacts, a local research company carrying out an important study for the U.S. Department of Education's National Center for Education Statistics (NCES). Because you are a leader in youth outreach, we are contacting you to ask for your help in spreading the word about this exciting research opportunity.

We are recruiting students who are <in OR entering or have completed> <4th, 8th, and 12th grade for eNAEP OR 8th grade for TEL> to participate in research sessions supporting the development of new questions for the National Assessment of Educational Progress, also known as NAEP, the largest nationally representative and continuing assessment of what America's students know and can do in various subject areas. The research session is a real-world test of the <Technology and Engineering Literacy (TEL) systems OR eNAEP systems> with students, allowing the systems to be tested in the manner that will be used in the national study to help identify system issues early in the software development process. All sessions will be scheduled for about 100 minutes each. Students will receive a \$25 gift card to thank them for participating in the research session. If a parent or legal guardian brings their student to and from the interview site, they will also receive a \$25 gift card to thank them for their time and effort.

Students will be assigned a unique student identifier (ID), and at no time will their names be linked to any of their answers. Students' responses may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151). Audio and video of the interview will be recorded for analysis, but no personally identifying information will be recorded or retained.

We would like to ask for your assistance in letting parents/legal guardians and students know how they can help shape this national assessment. The feedback we receive from students on these questions will help to allow for issues to be identified and addressed prior to the operational use of the system.

I have included a brochure with a short description of this research study in the hope that you might pass it along to anyone who may be interested.

Thanks again for your consideration and assistance. We look forward to speaking with you, and please do not hesitate to contact me with any questions regarding this project or our company.

Appendix B: EurekaFacts LLC Recruitment Phone Script for Community Centers and Organizations

Hello. May I please speak to <NAME OF CONTACT AT COMMUNITY CENTER>?

Good morning/afternoon/evening. My name is <CONTACT NAME> and I am contacting you from EurekaFacts, a local research company carrying out an important study for the U.S. Department of Education's National Center for Education Statistics (NCES). Because you are a leader in youth outreach, we are contacting you to ask for your help in spreading the word about this exciting research opportunity.

We are recruiting students who are <in OR entering or have completed> <4th, 8th, and 12th grade for eNAEP OR 8th grade for TEL> to help us evaluate computer-based questions that are part of a test called the National Assessment of Educational Progress, which is delivered to students nationwide. [If community center or organization asks what NAEP is: This national assessment is administered to students in elementary, middle, and high schools throughout the United States.]

We would like to ask for your assistance in letting parents and students know how they can get involved and help shape this national assessment. The feedback we receive from students on these questions will allow for issues to be identified and addressed prior to the operational use of the system. I also want to assure you that students' responses may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151).

Each student who participates will receive a \$25 gift card to thank them for participating. The student's parent or guardian will also receive a \$25 gift card to thank them for their time if they bring their child to and from the interview site.

We would like your help in distributing and posting informational flyers. We will follow up directly with those who contact us. We will hold some sessions at <LOCATION>, <ADDRESS>; however, if the parents/guardians of students cannot provide transportation to <LOCATION>, <ADDRESS> we would like to set up sessions at your <community center or organization>, if possible.

Would your <community center or organization> be interested in participating in or helping us to recruit students for this research study?

If NO: Thank you for your time. Have a wonderful day/evening. [END CALL]

If YES: Good, thank you very much. To ensure that we interview a broad mix of students and determine the best interview location, I have a few brief screening questions to ask you. It should take only a few minutes.

Screener

[Recruiter: Determine recruitment needs in advance. Look in public documents and the website to find what grades the community center or organization includes, as well as the size, socio-economic status (SES), and racial/ethnic makeup of the student population. Record all responses to Screener questions. End Screener at whatever point the staff member gives a response that confirms that their group has already been sampled adequately. End Screener Script: "Based on the requirements of this study, we are

not able to include your students in the interviews at this time. Thank you for your time. Have a good day/evening.” [Interviewer: END CALL]]

1. Do you have <a child or children> who are <in OR entering or have completed> <grades 4, 8, and 12 for eNAEP OR 8th grade for TEL> who might be available to participate in the study?

If NO: Thank you for your time. Have a wonderful day/evening. [END CALL]

If YES: Great.

2. Would you be able to distribute and post flyers regarding this study? After receiving a contact of interest, a EurekaFacts staff member would follow up with the parent/legal guardian by phone and ask them some screening questions to ensure that a diverse sample of students is included in this study.

If NO: Thank you for your time. Have a good day/evening. [Interviewer: END CALL]

If YES: Would you be able to make a room at your <community center or organization> where EurekaFacts could conduct some research sessions?

If YES: That’s great, we will contact you to schedule some sessions at your <community center or organization> after we have some students signed up. (Interviewer: go to **Closing**)

If NO: (Interviewer: go to **Closing**) That’s fine, if you are able to distribute and post flyers regarding the study, EurekaFacts staff can follow up with interested parent/legal guardian by phone to make interview arrangements.

Thank you for taking the time to answer the screening questions. Your <community center or organization> is generally eligible to participate in the research interviews.

(Closing)

Thank you for agreeing to disseminate information about this important research study. We will send you an email with the informational flyers attached.

We may need to reach you by telephone. Is the number I called the best number to use?

Do you have any questions at this time? [Recruiter: Answer any questions.]

If you have any (additional) questions, please call <PHONE NUMBER>.

Thank you again for agreeing to be part of this important research project.

Appendix F: EurekaFacts LLC Recruitment Phone Script for Student Participants

RECRUITER: Please determine how talkative and articulate the student is. It is critical that we speak with students who are comfortable expressing themselves with someone they are meeting for the first time. Please use your best judgment and recruit only students that are thoughtful and freely express themselves in a manner that is relevant to the topic being discussed.

All recruits **MUST** be articulate students who can answer open ended questions, and can provide support or explanation for their responses (e.g., "I like it because...", "I don't like it because...")

DO NOT recruit any who have difficulty answering these questions, whose parent/guardian answers **FOR** them, who seem hesitant or shy speaking with you (as an adult they do not know), who answer "I don't know," or who **CANNOT** provide an explanation supporting their responses.

Hi, <STUDENT'S NAME>. My name is _____ and I have been speaking with your parent/guardian for a few minutes.

As I explained to your parent/guardian, I work for a research company and we are conducting an important study to help us evaluate questions for a nationwide student assessment, the National Assessment of Education Progress, or NAEP. For the study session, if you agreed to participate, you would be asked to visit <LOCATION> and complete computer-based questions. Your response would not be graded. The National Center for Education Statistics (or NCES) simply wants to know how you answer the questions.

The research session is a real-world test of the <Technology and Engineering Literacy (TEL) OR eNAEP systems> with students, allowing the systems to be tested in the manner that will be used in the national study to help find problems early in the development process. All sessions will be scheduled for about 100 minutes each. You will receive a \$25 gift card to thank you for participating in the research session. If a parent or legal guardian brings you to and from the session site, they will also receive a \$25 gift card to thank them for their time and effort.

During the session, we would use a video recorder and an audio recorder so that, later on, researchers who are part of the study could review what you talked about with the researcher. We would destroy the tape recordings after the study is over, and, as I said before, your responses would be used to improve the national test so that it works well for all students. We would not use your name to identify you in any of our records.

1. Do you think you would be interested in participating if selected?

	<u>SELECT ONE</u>	
Yes	<input type="text" value="1"/>	→(CONTINUE)
No	<input type="text" value="2"/>	→(READ THE FOLLOWING)

Thank you for your time. I will need to let your parent/guardian know that you would not like to participate. Is he or she available?

TO PARENT/GUARDIAN: *Your child has decided not to participate, but I would like to thank you very much for taking the time to speak with us about this opportunity.*

2. What grade are you in?

RECORD GRADE _____

(MUST BE <in OR entering or have completed> <4th, 8th, and 12th grade for eNAEP OR 8th grade for TEL>
OTHERWISE THANK AND TERMINATE)

3. What type of school do you currently attend? (READ LIST)

	SELECT ONE	
Public school	<input type="text" value="1"/>	→(CONTINUE)
Private school	<input type="text" value="2"/>	
Don't know	<input type="text" value="3"/>	→(THANK AND TERMINATE)

4. You qualify to participate in a study session with a researcher in < LOCATION>. Your mother/father is available to bring you to the interview on <DAY/DATE AND TIME>. The session will last about 100 minutes. You will receive \$25 for participating. Your parent/guardian gave permission for you to attend if you are available. Will you be able to attend the interview?

	SELECT ONE	
Yes	<input type="text" value="1"/>	→(CONTINUE)
No	<input type="text" value="2"/>	→(THANK AND TERMINATE)

5. To attend the session and receive the \$25 we must receive the parental consent form that we will [e-mail OR send by FedEx] to your parent/guardian. Your parent/guardian can scan and e-mail the consent form to us, or you can bring it with you and give it to the interviewer. Do you understand that you must have a completed and signed parental consent form to participate?
