Student Debriefing Questions

After all students have finished the assessment in each session, field staff will conduct a debriefing activity with the students. Field staff will ask the debriefing questions out loud to the group of students. The questions may be paraphrased, and additional follow-up questions, such as those indicated in the bulleted lists below, may be asked. Students will respond by raising their hands and by calling out responses, as appropriate. Field staff will use their discretion about whether some or all of the questions will be asked, depending on the amount of prompting the students require, and on the amount of time remaining. The debriefing session should not exceed 10 minutes. Field staff will write down the students' responses to the questions.

1. What did you like the most about the assessment?

[Follow-up questions may include:]

- Can you explain that more?
- What did you like the least about the assessment?
- What was missing from the assessment?
- If you had to take a test, would you rather take it on a tablet, or on paper? Why?
- What do you like most about taking a test on a tablet? What do you like the least about taking a test on a tablet?

2. Did you see anything you thought was strange while taking the assessment?

[Follow-up questions may include:]

- Can you explain that more?
- Did questions or images seem slow to load at all to you?
- Was the system slow to move from one page/question to the next at all?
- Did you notice any "Aw, snap" errors?
- Were you able to make these errors occur when you wanted to? How?

3. Did you find the system easy to use and/or easy to learn to use?

[Follow-up questions may include:]

- How did you like the tutorial?
- Did you use the Help screens? Were the Help screens useful?
- What did you think of the tools available? Did you use them?
- Which tool or tools did you like the most? Why?
- Did you have any difficulty using any of the tools? What did you find difficult?
- How did you find the stylus worked with the assessment?
- Did you have any difficulty picking an answer using the available controls? If so, what made it difficult?

4. Is there anything you think would make the assessment better? If so, what?

5. Is there anything else you want to tell us about kids taking assessments on tablets?

Questionnaires

As part of the assessment administration, students will take a set of survey questionnaire items during their session. These items were previously administered as part of other NAEP assessments or testing. Given the final items for 2019 NAEP administrations have not yet been determined, we have included a library of previously administered components from which the 2019 items will be selected. The table below indicates the assessment components that form this library. Following the table are the components of survey questionnaire items. Not all of the items presented will be administered in 2019. The number of items administered to each student will be appropriate to the 15 minutes allocated. As the items are finalized throughout the development process, the final subset will be included in the eNAEP system for pretesting. As such, the earlier builds may include different items from the library than the final build.
