

Justification for Change for Information Collection Submission
OMB Control Number 3090-0283
Contractor Information Worksheet

A request is being submitted to OMB for a non-substantive change regarding the Contractor Information Worksheet. In number 4 of the worksheet, Contractor Type will now only have 3 possible selections (Other, Embedded, and Child Care) instead of 4 (Building Support, Embedded, External, and Child Care). Also in number 4 of the worksheet, GSA Building Number (Building Number Search) link has been updated with the appropriate website.
