PART I.—GENERAL INFORMATION

Background.--This proceeding was instituted in response to a petition filed on April 23, 2019, by the Dried Tart Cherry Trade Committee. Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce (“Commerce”) makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at https://www.usitc.gov/investigations/701731/2019/dried_tart_cherries_turkey/preliminary.htm.

Dried tart cherries covered by these investigations may also be referred to as dried sour cherries or dried red tart cherries. Dried tart cherries may be processed from any variety of tart cherries. Tart cherries are generally classified as *Prunus cerasus*. Types of tart cherries include, but are not limited to, Amarelle, Kutahya, Lutowka, Montmorency, Morello, and Oblacinska. Dried tart cherries are covered by the scope of these investigations regardless of the horticulture method through which the cherries were produced (e.g., organic or not).

Dried tart cherries are covered by the scope of these investigations whether or not they contain any added sugar or other sweetening matter, whether or not they are coated in oil or rice flour, whether infused or not infused, and regardless of the infusion ingredients, including sugar, sucrose, fruit juice, and any other infusion ingredients. The subject merchandise covers all shapes, sizes, and colors of dried tart cherries, whether pitted or unpitted, and whether whole, chopped, minced, crumbled, in granules, broken, or otherwise reduced in size. The scope covers dried tart cherries in all types of packaging, regardless of the size or packaging material.

Included in the scope of these investigations are dried tart cherries that otherwise meet the definition above that are packaged with non-subject products, including, but not limited to, mixtures of dried fruits and mixtures of dried fruits and nuts. Only the dried tart cherry components of such products are covered by these investigations; the scope does not include the non-subject components of such products.

Included in the scope of these investigations are all dried tart cherries produced in Turkey, including dried tart cherries that have been further processed in a third country, including but not limited to processing by sweetening, coating, chopping, mincing, crumbling, packaging with non-subject products, or other packaging, or any other processing that would not otherwise remove the merchandise from the scope of the investigations if performed in Turkey.

The scope of these investigations does not cover finished bakery and confectionery items (cakes, cookies, candy, etc.) that incorporate dried tart cherries as an ingredient.

The subject merchandise is currently classifiable under 0813.40.3000 of the Harmonized Tariff Schedule of the United States (HTSUS). The subject merchandise may also enter under subheadings 0813.40.9000, 0813.50.0020, 0813.50.0060, 2006.00.2000, and 2008.60.0060. The HTSUS subheadings set forth above are provided for convenience and U.S. Customs purposes only. The written description of the scope is dispositive.

Importer.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing dried tart cherries (as defined above) into the United States from a foreign manufacturer or through its selling agent.

Reporting of information.--If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

Confidentiality.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

Verification.-- The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

Valid number error messages.--If you are completing this form in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 rather than \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete this form. Detailed instructions on how to resolve this issue is provided at the end of this questionnaire and is available upon request from Calvin Chang (202-205-3062, hangyul.chang@usitc.gov).

D-GRIDS tool.--The Commission has a tool that firms can use to move data from their own MS Excel compilation files into self-contained data tables within this MS Word questionnaire, thereby reducing the amount of cell-by-cell data entry that would be required to complete this form. This tool is a macro-enabled MS Excel file available for download from the Commission's generic questionnaires webpage (https://www.usitc.gov/trade_remedy/question.htm) called the "D-GRIDs tool." Use of this tool to help your firm complete this questionnaire is *optional*. Firms opting to use the D-GRIDs tool to populate their data into this questionnaire will need the D-GRIDs specification sheet PDF file specific to this proceeding (available on the case page which is linked under the "Background" above) which includes the necessary references relating to this questionnaire, as well as the macro-enable MS Excel D-GRIDs tool itself from the generic questionnaires page. More detailed instructions on how to use the D-GRIDs tool are available within the D-GRIDs tool itself.

III-23. **Other explanations.**--If your firm would like to further explain a response to a question in Part III for which a narrative response box was not provided, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section, including but not limited to technical issues with the MS Word questionnaire.

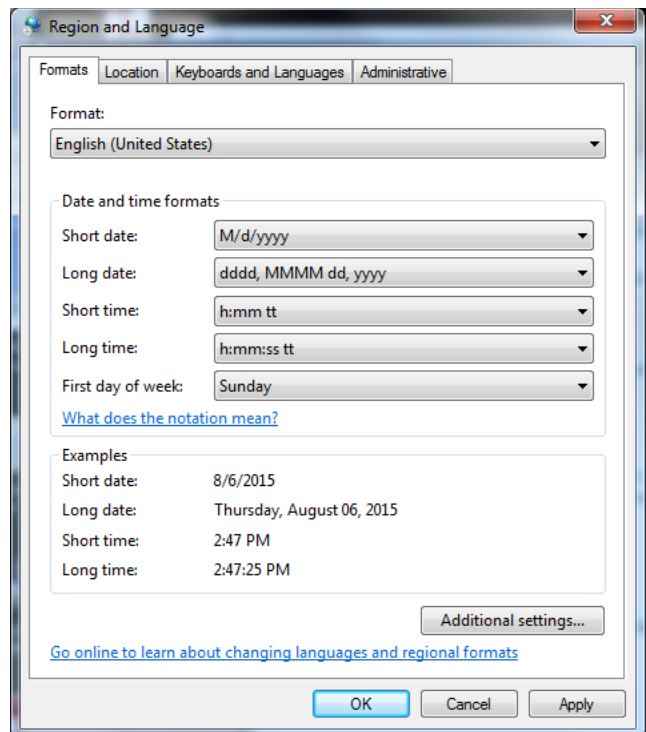

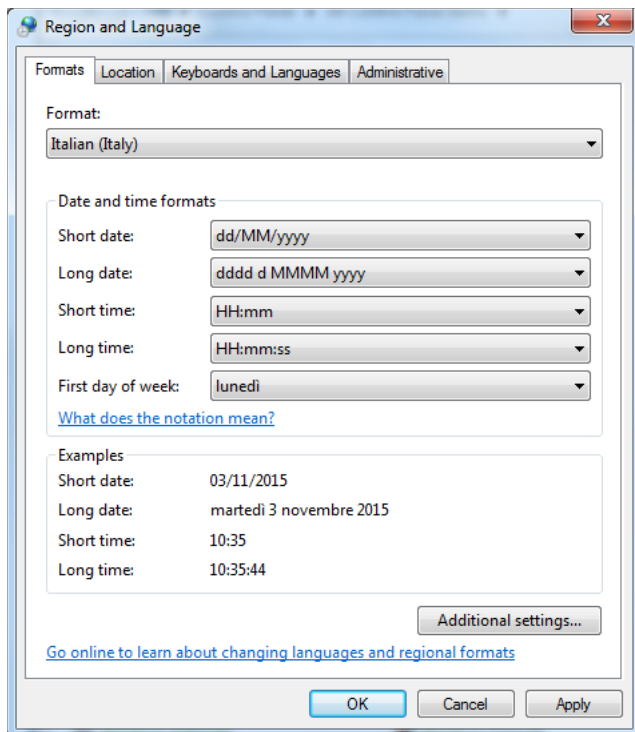

Correcting Valid number error messages.--If you are completing a Commission questionnaire in a country that uses periods (“.”) to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 instead of as \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. This issues stem from your computer number formatting setting (e.g., not the MS Word document itself, but the computer from which you are opening up the document). In the United States commas (,) delineate multiples of 1000 and periods (.) delineate fractions less than one. Many EU countries use the reverse where multiples of 1000 are delineated with periods (.) and fractions less than one are delineated with commas (,). The US International Trade Commission’s questionnaires are set-up in the United States with the U.S. number formatting. When this formatting interacts with a computer set to EU number formatting, we believe this may cause this issue.

The solution to this data entry issue is to temporarily change your operating system’s number formatting to be consistent with the U.S. number formatting system while you complete the questionnaire.

To temporarily change your computer’s number settings to U.S. settings, please do the following (for Microsoft Windows Operating system):

- START
- Control Panel
- Region and Language (under Clock, Language, and Region category)
- Format tab
- Change the Format from your existing one (e.g. “Italian (Italy)”) to “English (United States)” (see screen shots below)

When you do this the number “twelve million dollars and thirty five cents” would change from \$12.000.000,35 (Italy format) to \$12,000,000.35 (U.S. format), and then there will be no conflict with the questionnaire. When you finish reporting the data then you can close the questionnaire and switch back to Italy settings.
