**PART I.—GENERAL INFORMATION**

**Background.**--On June 15, 1987, the Department of Commerce ("Commerce") issued an antidumping duty order on imports of TRBs from China. On July 3, 2017, the Commission instituted a review pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. § 1675(c)) (the Act) to determine whether revocation of the order would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. If both the Commission and Commerce make an affirmative determination, the order will remain in place. If either the Commission or Commerce makes a negative determination, Commerce will revoke the order. Questionnaires and other information pertinent to this proceeding are available at [https://www.usitc.gov/investigations/701731/2017/tapered\\_roller\\_bearings\\_china/fourth\\_review\\_full.htm](https://www.usitc.gov/investigations/701731/2017/tapered_roller_bearings_china/fourth_review_full.htm).

**TRBs** covered by this investigation are tapered roller bearings and parts thereof, finished and unfinished; flange, take up cartridge, and hanger units incorporating tapered roller bearings; and tapered roller housings (except pillow blocks) incorporating tapered rollers, with or without spindles, whether or not for automotive use.

TRBs are currently imported under statistical reporting numbers 8482.20.00, 8482.91.00.50, 8482.99.15, 8482.99.45, 8483.20.40, 8483.20.80, 8483.30.80, 8483.90.20, 8483.90.30, 8483.90.80, 8708.70.6060, 8708.99.2300, 8708.99.4850, 8708.99.6890, 8708.99.8115, and 8708.99.8180 of the Harmonized Tariff Schedule of the United States (HTSUS). The HTSUS provisions are for convenience and customs purposes; the written description of the scope is dispositive.

This questionnaire requests information on the following sub products of TRBs. **Unless otherwise specified, all questions in this questionnaire relating to TRBs include all of these sub products.**

- (1) **Small-diameter TRBs**—TRBs as described above (excluding wheel hub assemblies), with an outside cup diameter of eight inches or less.
- (2) **Large-diameter TRBs**—TRBs as described above (excluding wheel hub assemblies), with an outside cup diameter over 8 inches.
- (3) **Parts only**—Finished and unfinished parts of TRBs that cannot be converted into "bearing equivalents" (e.g., parts other than assemblies and cups).
- (4) **Wheel hub assemblies**--A wheel hub assembly is a type of tapered roller bearing covered by this investigation that is finished and has one or more tapered rollers, with or without an outer flange and, in many cases, an inner flange with a mounting face and studs onto which a vehicle wheel and a brake rotor or disc brake is mounted. A wheel hub assembly may be splined or non-splined and with or without ABS elements. Wheel hub assemblies are also often referred to as wheel hub units.

*TRBs = Small-diameter TRBs + Large-diameter TRBs + Parts only + Wheel hub assemblies*

**Reporting of information.**-- If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, purchaser and/or foreign producer questionnaire), you need not respond to duplicated questions.

**Confidentiality.**--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a

manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

***Verification.***--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

***Release of information.***--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

***Valid number error messages.***--If you are completing this form in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 rather than \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete this form. Detailed instructions on how to resolve this issue is provided at the end of this questionnaire and is available upon request from Keysha Martinez (202-205-2136, [keysha.martinez@usitc.gov](mailto:keysha.martinez@usitc.gov)).

**Definitions**

**"Imports"** –Those products identified for Customs purposes as imports for consumption for which your firm was the importer of record (i.e., was responsible for paying any import duty) or consignee (i.e., to which the merchandise was first delivered).

**"Admissions into FTZs"** -- Note that any firm that "admits" TRBs into a Free Trade Zone (FTZ), processes those imports of TRBs into a downstream product, and then classifies those goods as the downstream product for purposes of clearance through Customs (i.e., "imports for consumption"), should report its "admissions" into its FTZ as imports in this questionnaire, and its use of those admissions/imports as "internal consumption"

**"Import quantities"** –Quantities reported should be net of returns.

**"Import values"**—Values reported should be landed, duty-paid values at the U.S. port of entry, including ocean freight and insurance costs, brokerage charges, and import duties (i.e., all charges except inland freight in the United States).

**"U.S. commercial shipments"**— Shipments made within the United States as a result of an arm's length commercial transaction in the ordinary course of business. Report net values (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment.

**"Internal consumption"** –Product consumed internally by your firm. Such transactions are valued at fair market value.

**"Transfers to related firms"** –Shipments made to related domestic firms. Such transactions are valued at fair market value.

**"Related firm"** –A firm that your firm solely or jointly owns, manages, or otherwise controls.

**"Export shipments"**— Shipments to destinations outside the United States, including shipments to related firms.

**"Inventories"** --Finished goods inventory, not raw materials or work in progress.

*Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.*

II-5a. **U.S. imports from SUBJECT China (small-diameter TRBs).**—Report your firm’s imports and your firm’s shipments and inventories of TRBs (including those TRB components, such as assemblies and cups, that can be converted into bearing equivalents) imported from China that are subject to the order by your firm during the specified periods.

Include only parts and subassemblies essentially equivalent to a complete bearing, such as sets consisting of cups and cone assemblies or, if cups and cone assemblies are sold separately, the equivalent of sets. For the purposes of reporting quantity data, please treat an assembly or a cup as one half (i.e., ½) of a completed bearing. So for example if your firm imports 400 cups for use in a completed TRB, report those imports in this grid as a quantity of 200 bearing equivalents. **Any other parts that cannot be converted into "bearing equivalents" (e.g., parts other than assemblies and cups) should be reported in question II-5c.**

II-7g. **U.S. imports from all other sources (wheel hub assemblies).**--Report your firm's imports and your firm's shipments and inventories of TRBs (including those TRB components, such as assemblies and cups, that can be converted into bearing equivalents) imported from all other sources by your firm during the specified periods.

Include only parts and subassemblies essentially equivalent to a complete bearing, such as sets consisting of cups and cone assemblies or, if cups and cone assemblies are sold separately, the equivalent of sets. For the purposes of reporting quantity data, please treat an assembly or a cup as one half (i.e., ½) of a completed bearing. So for example if your firm imports 400 cups for use in a completed TRB, report those imports in this grid as a quantity of 200 bearing equivalents.

**Correcting Valid number error messages.**--If you are completing a Commission questionnaire in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 instead of as \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. This issues stem from your computer number formatting setting (e.g., not the MS Word document itself, but the computer from which you are opening up the document). In the United States commas (,) delineate multiples of 1000 and periods (.) delineate fractions less than one. Many EU countries use the reverse where multiples of 1000 are delineated with periods (.) and fractions less than one are delineated with commas (,). The US International Trade Commission's questionnaires are set-up in the United States with the U.S. number formatting. When this formatting interacts with a computer set to EU number formatting, we believe this may cause this issue.

The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete the questionnaire.

To temporarily change your computer's number settings to U.S. settings, please do the following (for Microsoft Windows Operating system):

- START
- Control Panel
- Region and Language (under Clock, Language, and Region category)
- Format tab
- Change the Format from your existing one (e.g. "Italian (Italy)") to "English (United States)" (see screen shots below)

When you do this the number "twelve million dollars and thirty five cents" would change from \$12.000.000,35 (Italy format) to \$12,000,000.35 (U.S. format), and then there will be no conflict with the questionnaire. When you finish reporting the data then you can close the questionnaire and switch back to Italy settings.
