PART I.—GENERAL INFORMATION

Background.-- This proceeding was instituted in response to a petition filed on April 30, 2019, by Hirsh Industries LLC, West Des Moines, Iowa. Countervailing and antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce (“Commerce”) makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at https://www.usitc.gov/investigations/701731/2019/vertical_metal_file_cabinets_china/preliminary.htm

Vertical metal file cabinets “VMFCs” covered by these investigations are freestanding vertical metal file cabinets containing two or more extendable file storage elements and having an actual width of 25 inches or less.

The subject vertical metal file cabinets have bodies made of carbon and/or alloy steel and or other metals, regardless of whether painted, powder coated, or galvanized or otherwise coated for corrosion protection or aesthetic appearance. The subject vertical metal file cabinets must have two or more extendable elements for file storage (*e.g.*, file drawers) of a height that permits hanging files of either letter (8.5” x 11”) or legal (8.5” x 14”) sized documents.

An “extendable element” is defined as a movable load-bearing storage component including, but not limited to, drawers and filing frames. Extendable elements typically have suspension systems, consisting of glide blocks or ball bearing glides, to facilitate opening and closing.

The subject vertical metal file cabinets typically come in models with two, three, four, or five-file drawers. The inclusion of one or more additional non-file-sized extendable storage elements, not sized for storage files (*e.g.*, box or pencil drawers), does not remove an otherwise in-scope product from the scope as long as the combined height of the non-file-sized extendable storage elements does not exceed six inches. The inclusion of an integrated storage area that is not extendable (*e.g.*, a cubby) and has an actual height of six inches or less, also does not remove a subject vertical metal file cabinet from the scope. Accessories packaged with a subject vertical file cabinet, such as separate printer stands or shelf kits that sit on top of the in-scope vertical file cabinet are not considered integrated storage.

“Freestanding” means the unit has a solid top and does not have an open top or a top with holes punched in it that would permit the unit to be attached to, hung from, or otherwise used to support a desktop or other work surface. The ability to anchor a vertical file cabinet to a wall for stability or to prevent it from tipping over does not exclude the unit from the scope.

The addition of mobility elements such as casters, wheels, or a dolly does not remove the product from the scope. Packaging a subject vertical metal file cabinet with other accessories, including, but not limited to, locks, leveling glides, caster kits, drawer accessories (*e.g.*, including but not limited to follower wires, follower blocks, file compressors, hanger rails, pencil trays, and hanging file folders), printer stand, shelf kit and magnetic hooks, also does not remove the product from the scope. Vertical metal file cabinets are also in scope whether they are imported assembled or unassembled with all essential parts and components included.

Excluded from the scope are lateral metal file cabinets. Lateral metal file cabinets have a width that is greater than the body depth, and have a body with an actual width that is more than 25 inches wide.

Also excluded from the scope are pedestal file cabinets. Pedestal file cabinets are metal file cabinets with body depths that are greater than or equal to their width, are under 31 inches in actual height, and have the following characteristics: (1) an open top or other the means for the cabinet to be attached to or hung from a desktop or other work surface such as holes punched in the top (*i.e.*, not freestanding); or (2) freestanding file cabinets that have all of the following: (a) at least a 90 percent drawer extension for all extendable file storage elements; (b) a central locking system; (c) a minimum weight density of 9.5 lbs./cubic foot; and (d) casters or leveling glides.

“Percentage drawer extension” is defined as the drawer travel distance divided by the inside depth dimension of the drawer. Inside depth of drawer is measured from the inside of the drawer face to the inside face of the drawer back. Drawer extension is the distance the drawer travels from the closed position to the maximum travel position which is limited by the out stops. In situations where drawers do not include an outstop, the drawer is extended until the drawer back is 3-1/2 inches from the closed position of inside face of the drawer front. The “weight density” is calculated by dividing the cabinet’s actual weight by its volume in cubic feet (the multiple of the product’s actual width, depth, and height). A “central locking system” locks all drawers in a unit.

Also excluded from the scope are fire proof or fire-resistant file cabinets that meet Underwriters Laboratories (UL) fire protection standard 72, class 350, which covers the test procedures applicable to fire-resistant equipment intended to protect paper records.

The merchandise subject to the investigation is classified under Harmonized Tariff Schedule of the United States (HTSUS) subheading 9403.10.0020. The subject merchandise may also enter under HTSUS subheadings 9403.10.0040, 9403.20.0080, and 9403.20.0090. While HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of the investigation is dispositive.

Importer.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing VMFCs (as defined above) into the United States from a foreign manufacturer or through its selling agent.

Reporting of information.--If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (*i.e.*, a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

Confidentiality.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

Verification.-- The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

Valid number error messages.--If you are completing this form in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 rather than \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete this form. Detailed instructions on how to resolve this issue is provided at the end of this questionnaire and is available upon request from Lawrence Jones (202-205-3358, lawrence.jones@usitc.gov).

D-GRIDS tool.--The Commission has a tool that firms can use to move data from their own MS Excel compilation files into self-contained data tables within this MS Word questionnaire, thereby reducing the amount of cell-by-cell data entry that would be required to complete this form. This tool is a macro-enabled MS Excel file available for download from the Commission's generic questionnaires webpage (https://www.usitc.gov/trade_remedy/question.htm) called the "D-GRIDS tool." Use of this tool to help your firm complete this questionnaire is *optional*. Firms opting to use the D-GRIDS tool to populate their data into this questionnaire will need the D-GRIDS specification sheet PDF file specific to this proceeding (available on the case page which is linked under the "Background" above) which includes the necessary references relating to this questionnaire, as well as the macro-enable MS Excel D-GRIDS tool itself from the generic questionnaires page. More detailed instructions on how to use the D-GRIDS tool are available within the D-GRIDS tool itself.

Definitions

“Imports” –Those products identified for Customs purposes as imports for consumption for which your firm was the importer of record (i.e., was responsible for paying any import duty) or consignee (i.e., to which the merchandise was first delivered).

“Import quantities” –Quantities reported should be net of returns.

“Import values” –Values reported should be landed, duty-paid values at the U.S. port of entry, including ocean freight and insurance costs, brokerage charges, and import duties (i.e., all charges except inland freight in the United States).

“Commercial U.S. shipments”— Commercial shipments made within the United States as a result of an arm’s length transaction in the ordinary course of business. Report net values (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment.

“Internal consumption/including own firm’s retail sales” – Product consumed internally by your firm, which includes merchandise that your firm transferred to your own firm's retail locations. Such transactions are valued at fair market value (i.e., not the total value of final downstream processed merchandise (in the case of internal consumption), nor the retail sale value (in the case of your firm owning and operating its own retail locations); rather, these transactions should be recorded at the fair market wholesale value of the merchandise used for further processing or for retail level sale). Do not include inter-store shipments. Internal consumption for use in your firm's retail locations should represent the initial post-importation, wholesale level shipment to the first retail location.

“Transfers to related firms” –Shipments made to related firms in the United States. Such transactions are valued at fair market value. Do not include inter-store shipments/transfers. Transfers reported should represent post-importation, wholesale-to-wholesale transfers to related firms.

“Related firm” –A firm that your firm solely or jointly owned, managed, or otherwise controlled; a firm that solely or jointly owned, managed, or otherwise controlled your firm; and/or a firm that was solely or jointly owned, managed, or otherwise controlled by a firm that also solely or jointly owned, managed, or otherwise controlled your firm.

“Export shipments”— Shipments to destinations outside the United States, including shipments to related firms.

“Inventories” --Finished goods inventory, not raw materials or work in progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

III-21. **Interchangeability.**--Are VMFCs produced in the United States and in other countries interchangeable (i.e., can they physically be used in the same applications)?

Please indicate A, F, S, N, or O in the table below:

A = the products from a specified country-pair are *always* interchangeable

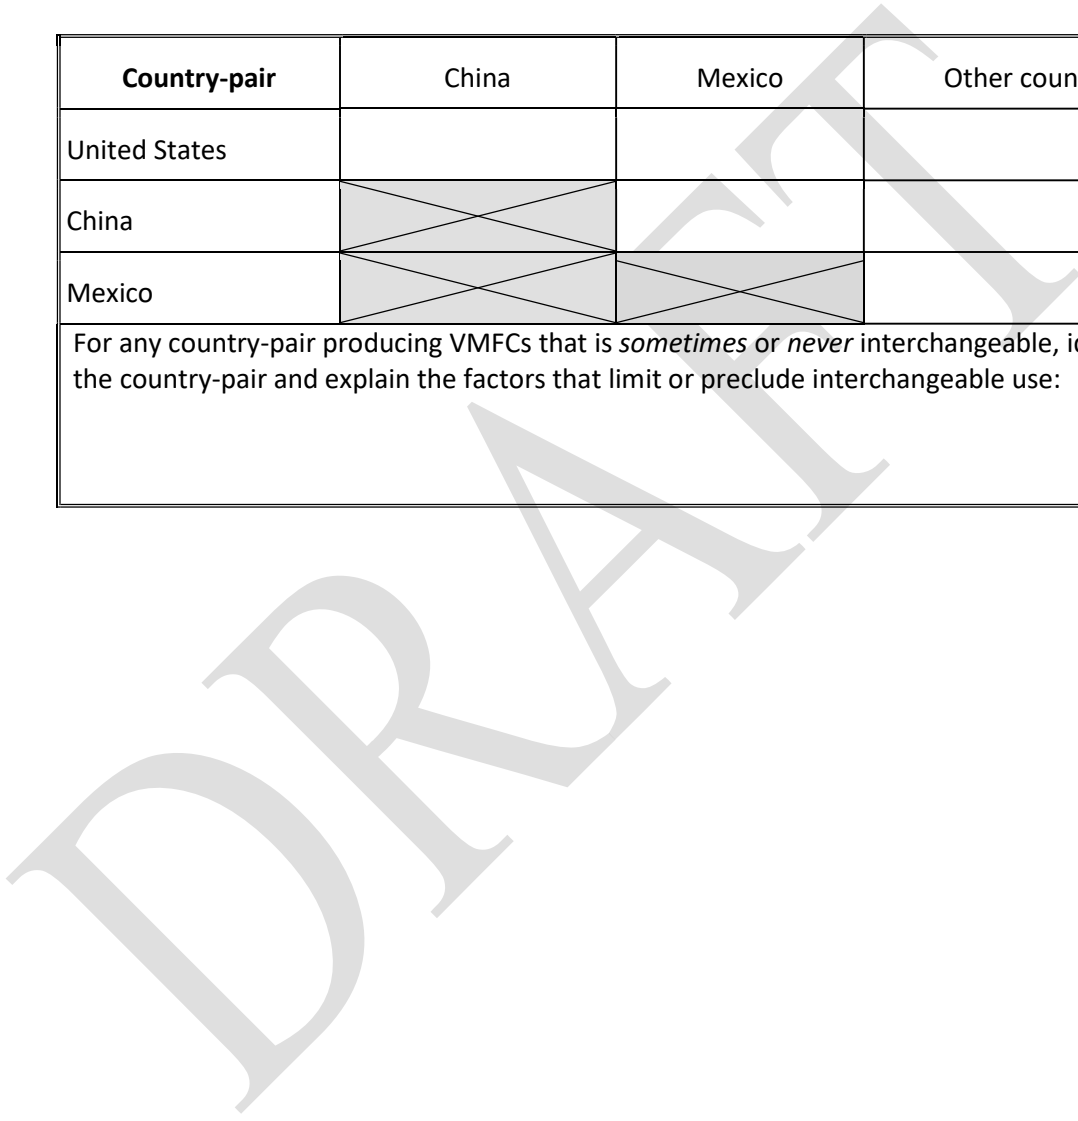

F = the products are *frequently* interchangeable

S = the products are *sometimes* interchangeable

N = the products are *never* interchangeable

O = *no familiarity* with products from a specified country-pair

Country-pair	China	Mexico	Other countries
United States			
China	X		
Mexico	X	X	
For any country-pair producing VMFCs that is <i>sometimes</i> or <i>never</i> interchangeable, identify the country-pair and explain the factors that limit or preclude interchangeable use:			

III-22. **Factors other than price.**--Are differences other than price (e.g., quality, availability, transportation network, product range, technical support, *etc.*) between VMFCs produced in the United States and in other countries a significant factor in your firm's sales of the products?

Please indicate A, F, S, N, or O in the table below:

A = such differences are *always* significant

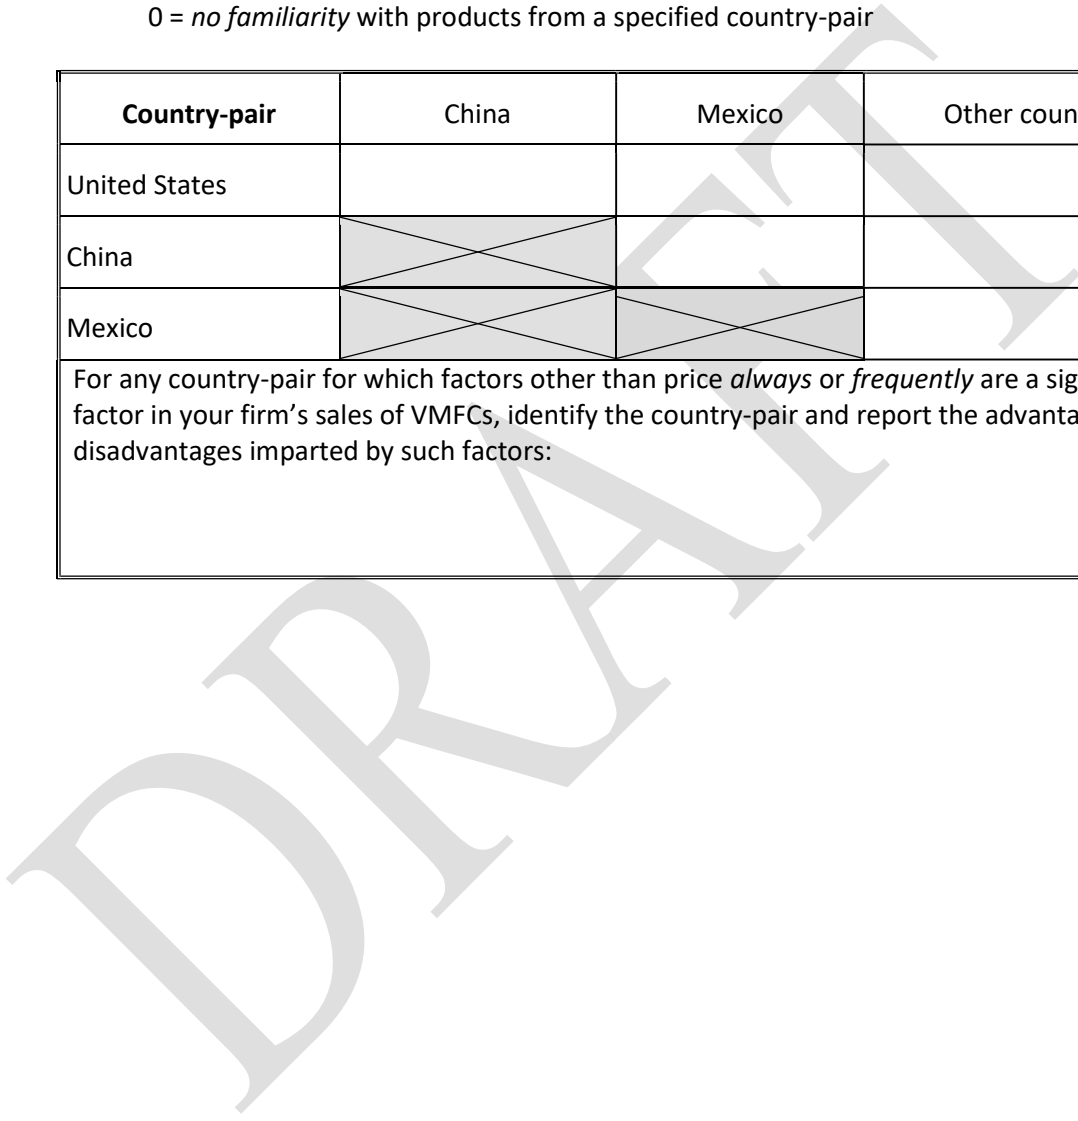

F = such differences are *frequently* significant

S = such differences are *sometimes* significant

N = such differences are *never* significant

O = *no familiarity* with products from a specified country-pair

Country-pair	China	Mexico	Other countries
United States			
China	X		
Mexico	X	X	
For any country-pair for which factors other than price <i>always</i> or <i>frequently</i> are a significant factor in your firm's sales of VMFCs, identify the country-pair and report the advantages or disadvantages imparted by such factors:			

III-23. **Customer identification.**--List the names and contact information for your firm's 10 largest U.S. customers for VMFCs since January 1, 2016. Indicate the share of the quantity of your firm's total shipments of VMFCs that each of these customers accounted for in 2018.

III-24. **Other explanations.**--If your firm would like to further explain a response to a question in Part III for which a narrative response box was not provided, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section, including but not limited to technical issues with the MS Word questionnaire.

Correcting Valid number error messages.--If you are completing a Commission questionnaire in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 instead of as \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. This issues stem from your computer number formatting setting (e.g., not the MS Word document itself, but the computer from which you are opening up the document). In the United States commas (,) delineate multiples of 1000 and periods (.) delineate fractions less than one. Many EU countries use the reverse where multiples of 1000 are delineated with periods (.) and fractions less than one are delineated with commas (,). The US International Trade Commission's questionnaires are set-up in the United States with the U.S. number formatting. When this formatting interacts with a computer set to EU number formatting, we believe this may cause this issue.

The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete the questionnaire.

To temporarily change your computer's number settings to U.S. settings, please do the following (for Microsoft Windows Operating system):

- START
- Control Panel
- Region and Language (under Clock, Language, and Region category)
- Format tab
- Change the Format from your existing one (e.g. "Italian (Italy)") to "English (United States)" (see screen shots below)

When you do this the number "twelve million dollars and thirty five cents" would change from \$12.000.000,35 (Italy format) to \$12,000,000.35 (U.S. format), and then there will be no conflict with the questionnaire. When you finish reporting the data then you can close the questionnaire and switch back to Italy settings.

The screenshot shows the 'Region and Language' dialog box with the 'Formats' tab selected. The 'Format' dropdown is set to 'Italian (Italy)'. Under 'Date and time formats', the settings are: Short date: dd/MM/yyyy, Long date: dddd d MMMM yyyy, Short time: HH:mm, Long time: HH:mm:ss, and First day of week: lunedì. An 'Examples' section shows: Short date: 03/11/2015, Long date: martedì 3 novembre 2015, Short time: 10:35, and Long time: 10:35:44. At the bottom, there are 'OK', 'Cancel', and 'Apply' buttons, along with a link to 'Go online to learn about changing languages and regional formats'.
