Title of Proposed Project
Astro-Engineer: Implementing a Problem-based Serious Games Approach to Interest and Engage M Students in Engineering Design Challenges Related to Colonizing Space
SBIR Phase I:Martha Madison’s Marvelous Machines
EAGER: Promoting algebra learning through an accessible expression system for students with vis and blindness
SBIR Phase I:Artificial Intelligence Software to Tutor Literary Braille to the Blind and Visually Impair
SBIR Phase II:Artificial Intelligence Software to Tutor Literary Braille to the Blind and Visually Impair An investigation of biophysical variables in stiff and hypertropic mutant sporangiophores of Phycor blakesleanus
EAGER: AFN Fab Lab Demonstration Project
Collaborative Research: Workshop for Women in Machine Learning
RAPID: Environmental Bioaerosol Generation and Potential Environmental Health Risks with Hydro Weathering on Oil-Spill Impacted Shoreline
Collaborative RUI: Uranium-Series Constraints on Melting in the Jan Mayen Region
Creating and Sustaining Diversity in the Geo-Sciences Among Students and Teachers in the Urban Environment of New York City
Summer School of Behavioral Neuroendocrinology
Mini-Grant Opportunities in the Geosciences for American Indian Science and Engineering Society Chapters
