Supporting Statement for Global Health Service Application

General instructions

The supporting statement must be prepared in the format described below. If an item is applicable, use "N/A" and provide a brief explanation.

Section A: Justification

1. Circumstances that make the collection of information necessary.

The Global Health Service Partnership Application (hereinafter "the Application") is necessary to recruit qualified volunteers to serve in Peace Corps Response, as Global Health Service Partnership Volunteers to build institutional capacity and help strengthen the quality of medical and nursing education. Applicants are selected based on their qualifications for a specific Volunteer assignment. The Peace Corps Act (22 U.S.C. § 2501 et seq.) authorizes the recruitment of persons for service in Peace Corps Volunteer programs. See 22 U.S.C. § 2504. Eligibility requirements for Peace Corps Volunteer service are set at 22 C.F.R. 305. Attached are 22 U.S.C. § 2504 and 22 C.F.R. 305.

2. By whom, how, and for what purpose the information is to be used.

This information is used by Peace Corps Response staff to perform initial screening for potential candidates for Global Health Service Partnership assignments. Applications contain basic information concerning technical skills and eligibility for Global Health Service Partnership assignments.

3. Consideration of the use of improved information technology.

The Application is available on the Peace Corps website and submitted electronically to Peace Corps Response.

4. Efforts to identify duplication. Why similar information cannot be used.

For applicants without previous Peace Corps experience, the information requested in the Application does not exist in the Agency's records.

Some Peace Corps Response applicants have previously volunteered with the Peace Corps. Agency records concerning returned Peace Corps Volunteers' qualifications are kept only for a limited period. Returned Peace Corps Volunteers routinely acquire new skills during and following their initial Volunteer service, which are not reflected in Agency records and therefore are requested in the Peace Corps Response Application.

5. Methods to minimize the burden to small business if involved.
